Local News

Rev. R. J. Coughlin of Johnville is on a visit to his parents in this city. Union Lodge No. 2, K. of P. meet at Castle Hall, German street at 8 o'clock.

Schooner Helen M., Captain Mills, arrived last evening from River Hebert, N. S., with 60 tons of hay. Street car No. 44 has been disabled this morning at the foot of King St. and had to be towed to the sheds.

The steamer St. Croix, Captain Thompson, arrived last night with 43 passengers from Boston and Eastport. She sailed on her return trip this morning.

No. 3 Co., 3rd Regt. C. A., will meet this evening at 7:30 o'clock in their armory at Fort Howe, where all uniforms must be returned.

Persons suffering from stubborn skin troubles are requested to try Harrison's salve. The advertisement appears in an obituary column and offers to refund money if the user is not benefited.

Our lady readers who propose attending the coming ball will do well to read Macaulay Bros. & Co.'s advertisement to be found in usual space in this evening's issue.

A big sacrifice sale of this season's ready-to-wear hats for ladies and children is now going on at J. Morgan & Co.'s, 629 Main street. The entire lot will be sold at 50c each.

David Kominsky, who was burned out on Mill street a short time ago, was under the impression that he had lost about \$100, which he had in cash in the store the night of the fire. The greenbacks have since turned up all right.

A debate will be held at the meeting of the St. Andrew's Church Guild tonight. The subject is: Resolved, that the church is losing its hold on the people. The speakers on the affirmative side will be Alex. Wilson, Dr. S. Smith and A. C. Millie, while Cyrus F. Inches, Dr. Loggie and K. M. Hope will uphold the negative.

The reception committee which had in hand the entertainment of Prince Louis met in the mayor's office this morning and passed a number of bills. There are still a few accounts to come in before the statement is complete, but it is expected that the disbursements will be about equal with the grant made by the council, namely, \$800.

The meeting of the faculty of Kings College Law School was held yesterday afternoon, and arrangements made for a formal opening of the school on Tuesday, Nov. 14. Addresses will be delivered by Dr. Hannan, president of Kings; Chief Justice Tuck, H. A. Powell, K.C., and Judge Hanington, the patrons of the school.

Reports from northern Maine and Quebec are to the effect that there are heavy snowstorms there, and, according to officials on the train, sleighing is being enjoyed in some portions. In the vicinity of Brownville Junction, four inches of snow are reported at present and it is still falling. The indications for that section of the country seem to point to a long winter. There was a light flurry of snow in St. John for a while this morning, but it did not amount to much.

The trimmed and untrimmed millinery sale, advertised by M. R. A. Ltd. in this issue, will be a complete clear-up of all the fall and winter headwear (excepting fur hats) in the establishment. It will be perhaps the most notable sale of the kind the house has ever announced. Hatters and smartly tailored models will be greatly reduced, as well as the ordinary felt shapes; in fact there will be found evidence that a sweeping reduction has been made right down the line. Bargains for every woman and girl. All fashionable goods.

The citizens of St. John have lately been greatly amused by the desperate efforts of some of the business colleges to obtain students. There are three schools in the city. Two of these offer all sorts of inducements, including railway fare, promise of positions, and fee to those roping one in, in addition to persistent and annoying personal canvases. The third school gives its entire attention to the students in attendance, consequently finds no time to canvass, and makes no promises except such as the reward of honest hard work. It will be interesting to see which of these methods will be the successful one, though in the light of past events predictions are not difficult.

TO PROSECUTE FRUIT DEALERS

Government Inspectors Will Take Action Against Men Who Send Inferior Fruit Here.

Five Nova Scotia apple dealers will be prosecuted for violation of the Fruit Market Act. G. H. C. P. P. TO USE I. C. R. ELEVATOR?

Official of the Company Says He Does Not Think Report is Correct.

It was reported on the street this morning that the C. P. R. Co. had made arrangements to use the I. C. R. elevator for winter for storing grain. An official of the C. P. R., when approached on the subject, said he had no knowledge of it and did not think there was any truth in it, as it would hardly pay them to bring R. for unloading them. They would not be able to do so as the elevator was situated in the I. C. R. yard. He also was of the opinion that their own elevator would be able to handle the grain without trouble.

STOCKTON'S FUTURE

BIG BRICK FROM N. S. GOLD MINE

It Weighed 139 Ounces and Was the Result of 20 Days Work.

SYDNEY N. S., Nov. 8.—(Special).—All previous records in gold mining in Nova Scotia have been broken recently at the New Gold Mine, Goldboro. Yesterday Percy White, of that mining company arrived bringing with him the last big haul. The brick weighs 139 ounces and is the output of 20 days' crushing with a fine stamp mill. It is confidently expected that with the rich vein of gold bearing quartz, which has now been fully proved by development work, conducted by expert mining men, the output of the company, when they will have installed a large crushing plant, will exceed that of any other gold mine in the province.
