USE OF STREET IN BUILDING WORK GRANTED

Council Facilitates Western Union Building Operations—Abolishes Expenses

In order to facilitate the erection of the new building for the Western Union Telegraph Co., corner of Union and Prince William streets, the Council this morning decided to allow the contractor, James Gilchrist, to occupy a part of the street and sidewalk for a few days.

Commissioner Frink presented a letter from Mr. Gilchrist in which it was set forth that, in order to get the foundation wall poured as speedily as possible, he would like to have about six feet of the roadway and the sidewalk in front of the lot in Union street. The street area would be used to pile sand and gravel and these would be protected and lighted at night. He would want the use of the street from Thursday until Tuesday and the use of the sidewalk from Saturday until Tuesday.

The commissioner said the by-laws of the city did not make provision for such applications but under the circumstances he thought the request for permission should be granted and he so moved. This was seconded by Commissioner Wigmore and carried.

SPRUCE LAKE LUMBER
Mayor White said he had been informed by Dr. E. J. Rodrick that he would like an opportunity to bid on the lumber on the Abel property, Spruce Lake, an offer for which was submitted to the council by Commissioner Wigmore from A. McLean, and asked Commissioner Wigmore if it was proposed to give anybody a chance or would Mr. McLean's offer be dealt with first. The Commissioner said he was securing a report on the amount of timber and would report to the council on Monday. He said that when it came time to sell everything would be given an opportunity to bid.

ABOIDEAU MATTER
Commissioner Wigmore reported that he had taken up with the Provincial Government the matter of the province sharing in the cost of the restoration of the Marsh Bridge aboideau and they had agreed to pay one third of the cost. The C. N. R. had also agreed to pay a part of the cost, but he was reopening the matter with them to see if they would not bear the same proportion of the cost as the Government, leaving the city to pay one-third.

Commissioner Frink asked if the Board of Health had taken any action on the complaint of the residents of Marsh street and vicinity. The health officer and Commissioner Wigmore said this would be taken up at the next regular meeting of the board.

There were 16 men present at the meeting and all were issued uniforms, and it is expected that more will enroll on Friday night. SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River. Running W. way through the gorge of the Falls, creating a "fall" at low tide the water in the Bay becomes as much lower than that of the river, that the fall of water is reversed and flows down river into the Bay.

At half tide, when the level in the Bay and river are about equal, the Falls disappear entirely, and the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all three stages.

As Hiram Sees It

THE SETTLEMENT
We were talking about fishin' fer trout las' night when Josh Smith come along. Josh he has a lake away out back in the woods—an' he jest ast 'em how many fish they ketches—an' they said seventeen. "Well," says Josh, "that's a nice partyful—I guess you got enough—I'm gon' throw a line myself." So they grabbed their baskets an' he took the boat. "I wouldn't 'ave minded their gall an' the way they sass'd me," says Josh, "but when I heard afterwards that they he'd a hundred trout instead of seventeen, I called it a dirty trick." An' Josh was right, too. Them fellers wasn't fishermen. They was jest plain thieves. They're like the fellows that set a fire in the woods—or steals a man's apples an' breaks down the tree.
