Say Killing Followed Fight Over Bootleg Whiskey

COUNSEL DUBIOUS

Condemned Man Is Greatly Cheered Over Latest Development in Case

CHICAGO, July 18-Russel Scott, erstwhile Canadian financier, countm in the county jail death cell, has velopment as strange as the massega BEING BRIDEGROOM Has Many Uses

This was the finding of three new purported witnesses, two here and one in Detroit, declaring the murder of Joseph Maurer, drug clerk, for which Scott was condemend to die, was not in a holdup, but in a quarrel over bootleg whiskey, and that Robert Scott, his brother, actually fired the short series were the labor has just been in the state of the short series were the state of the state of the short series were the state of the state of the short series were the state of the stat

"This fellow Ball seems to have an active imagination," Mr. Gorman said.
"Except for Robert Scott we took into custody every one who was in the drug store when the shooting occurred. Ball was not among them. We never heard of Ball before and certainly would have, had he been present when the murder occurred."

from being deported to France it consists from being deported to France it consists. The woman in this case came here on February 5, and gave notice of marriage, and on February 7 he married her for \$50. He had not seen her before or since. The woman was sentenced to serve a jail sentence later.

LONDON, July 18.—The Aerodynamics department of the National Physical laboratory are showing a model of an aeroplane without wings, the "Autogyro," invented by the Spanish engineer, N.c. Cierva, Instead of a plane this machine has a large airscrew which revolves about a nearly vertical axis when 'he machine is in flight. Forward movement is achieved in the usual way by an ordinary engine and propeller.

"In starting our campaign to remove objectionable billboards from the state highway system," said Governor Sorile, "we must invite the aid of all good open the "autogyro" runs."

overhead to begin to rotate, when the aircraft rises.

The machine has been fown a short distance in Spain, and it is claimed by the inventor that a nearly vertical landing can be made, so that it possesses some of the powers of the helicopter. The model at Teddington is being tested in a long wind channel by experts, who are trying to discover the
