Eminent specialists state that one of the best things for the nerves is an organic phosphate known among drug-gists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. forcer, and the results following its use are often simply astonishing. By strengthening the nerves, weak, tired people regain energy and vigor; thinness and angularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright and pale, sunken checks regain the pink glow of health. CAUTION.-Bitro-Phosphate, the use of which is inexpensive, also wonder-fully promots the assimilation of food, so much so, that many people report marked gains of weight in a few weeks. Those taking it who do not desire to put on flesh, should use extra care in avoiding fat-producing foods.
