High milk as a nourishing and valuable drink in cold weather, especially in the case of colds, has no rival. For those who are unable to drink hot milk tea made with boiling milk in place of water will be found most nourishing and palatable. The tea should not be allowed to stand in the pot above five minutes before using.

**Stooped Shoulders Should Be Blacklisted**

There is one beauty ill that I know of, unnecessary, as any girl endowed with an average amount of intelligence can certainly keep her shoulders from stooping. This habit is purely a result of physical and mental laziness.

Why not brace up, Miss Round Shoulders, and for the next few months keep a vigilant eye on yourself? It will be well worth your while, as straight shoulders are a boon not to be despised by the lover of beauty.

When instituting this warfare against shoulders that refuse to carry themselves correctly, bear always in mind that the chest must be thrown up and out. When the chest is properly held, the shoulders will have to straighten, whether they will or no.

Do not make the common mistake of holding the shoulders in such an upright position that you look as if you were preparing to tumble over backwards. This position is most ungraceful and causes the arms to hang in such a way that the palms of the hands rest easily on the bosom.

Holding the arms and shoulders pressed back, walk slowly around the room for ten or fifteen minutes, taking long breaths.

Do as I suggest, Miss! of the drooping shoulders, and you will attain to a graceful carriage. And this is not all that the extreme exercise will do for you, as it will be a pleasant way of strengthening the ankles and back.

Let me say here and now that you are a stranger to shoulders that sag.

Children dearly love to take delicious "Syrup of Figs" and nothing else cleans and regulates their tender little stomachs, liver and bowels so well as this.

**To Get Rid of Wrinkles and Bad Complexions**

(From Beauty's Mirror.)

It is more important now than during the period of profuse perspiration, to keep the pores clean. All cosmetics clog the pores. In winter this interferes greatly with elimination of waste material, injuring instead of aiding the complexion. Ordinary mercurized wax serves all the purpose of cream, powder and rouge, giving off a better result. It actually peels off an offensive skin, at the same time unclogging the pores. Minute particles of scarf skin come off day by day, causing not the least pain or discomfort. Gradually the healthy, younger skin beneath peeps out, and in less than a fortnight you have a lovelier complexion than you ever dreamed of acquiring. Mercurized wax is obtainable at any drug store, is spread on nightly like cold cream and washed off mornings. One ounce usually suffices. For removing particles, without stopping the pores with pasty stuff, here's a never-failing formula: 1 oz. pers. and 1 oz. dissolved in 1 1/2 pint. which hazel. Bathe the face in this daily for awhile; every line will vanish completely. Mercurized wax will give you the first application gives surprising results.
