Destroyed by Fire.
The dwelling house and barns of Michael Shannon, situated a little over a mile in rear of the city on the Maryland road, were destroyed by fire shortly before twelve o'clock Wednesday night. A cow and some pigs were burned in the barn. It is not known how the fire originated. The buildings were insured for \$800.

New Shoe Shop.
Mr. John Donahue, for over fifteen years foreman in the manufacturing department of Messrs. J. & O. McGoldrick, shoe dealers, has severed his connection with that firm and opened a store on Regent street, directly opposite the Waverly House, where he will manufacture boots and shoes. Mr. Donahue is a first-class workman and will no doubt do a good business. He will make a specialty of lumbermen's boots. Give him a call. See adv.

Tin wedding.
A large number of the friends of Mr. and Mrs. John Hawthorne assembled at their residence Tuesday evening for the purpose of celebrating the tenth anniversary of their wedding. During the earlier part of the evening what playing was freely indulged in, after which the party proceeded to trip the light fantastic, the music for which was furnished by the F. O. M. W. orchestra. Refreshments were served during the evening. The party broke up shortly before two o'clock, all present having enjoyed a most delightful evening. The Glens wishes Mr. and Mrs. Hawthorne many happy returns.

The Glorious 12th.
The Orangemen have about completed arrangements for their grand celebration here on the 12th of July and are in active preparation for the entertainment of the visiting brethren. Excursions have been arranged for from St. John, Moncton, Woodstock and the North Shore. They expect a big representation and everything indicates that it will be the biggest celebration ever seen in this city.

Supper and Presentation.
Mr. S. T. Colter, for some years connected with the establishment of Mr. Geo. C. Hunt, druggist, was entertained Wednesday night by the members of the F. O. M. W. Club at the York street restaurant. After the party, who numbered about twenty-five, had fully satisfied the inner man, the health of the Queen was proposed by the chairman, Mr. Geo. R. Perkins. Mr. A. Tweedale was then called upon for a song, and responded by singing "The Working Man's Friend," which was heartily applauded. The chairman then rose, and in a brief and appropriate speech, proposed a toast to Mr. S. T. Colter, the guest of the evening, which was most heartily responded to. In a brief but sincere reply Mr. Colter thanked those present for their kindness to him in the past few years, and although he was going to a country where he felt his prospects in life would be better, he felt that he was leaving friends and associations that were very dear to him, and that he would always remember and look back upon as one of the brightest and happiest periods of his life. Music by the club orchestra followed, after which Mr. A. E. Massie favored the company with a song, rendered in his usual good style. Mr. John Jennings then rose, and after a touching and very eloquent speech, presented Mr. Colter, on behalf of the F. O. M. W. club with a heavy gold ring with the initials S. T. C. beautifully worked upon it in raised letters. The ring which was made to order by Mr. Buchanan, manufacturing jeweler, of this city, was a really beautiful piece of work. Numerous toasts followed, and were responded to by the following: The medical profession, Dr. Vanwart, the press, A. J. Machum; the ladies, Messrs. T. Fowler and H. Porter; manufacturing industries, Messrs N. Edgecombe, N. C. Sutherland, Fred Risteen and Fred Trites, the new milliner; the city fathers, ex-Alderman Davis; government officials, Bedford Phillips; the military, Lieut. Hawthorne of the 71st. A vote of thanks having been tendered the chairman, the party joined hands and the orchestra struck up "Auld Lang Syne," which was followed by "God Save the Queen."

A Royal Order.

An order received in a recent European mail, by the Dr. Williams' Medicine Co. of this town, probably stands unique in the history of Canadian or American proprietary medicines. It came from St. Petersburg, Russia, enclosing a round note (65 cents) for a box of Dr. Williams' Pink Pills, the sender being the Count de Bodisco, Grand Chamberlain to His Majesty the Czar of Russia. It would appear that even royalty, in far away St. Petersburg, has learned of the virtue of this remarkable Canadian remedy, and turn to it for relief in preference to others. It is more than probable that in the near future, this unequalled blood builder and nerve tonic will be the standard remedy throughout the civilized world, as it is today in Canada, the United States and Great Britain. Its virtues cannot be too widely made known. The round note accompanying the order is a fair sample of Russian bank notes, and in this country is somewhat of a curiosity. The note is at the company's office and may be seen by any who have not had an opportunity of examining a specimen of Russian currency.—Brockville Times.

The Trend of Matters Political Parliamentary or Otherwise.

Some Touch-and-Go Notices of all Mentionable Matters of Things.

Vice President Shangnessy and Messrs. Tiffin, Stewart and other C. P. R. officials arrived here by special Thursday evening at six o'clock, and were met at the depot by Alex. Gibson, Thos. Temple and C. W. Weldon, Q. C.

The Bathurst school investigation is over and the evidence will be submitted here in August. The evidence taken has been furnished by the daily papers, and is merely a repetition of what came before the House last session. It is quite clear to all who have had the courage to tackle the columns of evidence, what the result of Judge Fraser's report will be, and that it will be a just one.

A meeting of the men interested in the promotion of the electric railway between Fredericton and Marysville, for which an act was passed at the last session of the legislature, is to be held in Boston some time in July. Joseph Jefferson, the actor, who is one of the principal promoters, has been ill for some time, and his sickness has delayed the progress of the scheme. Mr. F. B. Coleman will be one of the first directors of the company when it is formed.

A fishing club composed of the following ten members has been organized: Messrs. J. G. Gunn, T. Amos Wilson, W. Chestnut, Arthur Porter, Gns Tweedale, Fred Carey, T. Fowler, bookkeeper in Geo. Hatt & Sons, D. Shea, Harry Atherton and H. Kitchen. The club have a lake in the vicinity of the city in view which they propose giving a thorough trial for fish. Should it come up to their expectations they intend securing a right of certain portions and will build a club house on the margin of the lake. The lake is beautifully situated and is but a couple of hours drive from the city. Just where it lies we are requested not to mention. A meeting was held last night at which a committee were authorized to purchase a boat and have it conveyed immediately to the lake.

Inconceivable Mention.

The STENOGRAPHER for June contains a very fine portrait of Mr. Frank H. Risteen of this city. Mr. Fred Ireland, of the congressional reporting staff, who is considered to be the best all-round stenographer in America, has this to say of Mr. Risteen:

Mr. Frank H. Risteen, one of the official reporters of the New Brunswick House of Assembly and stenographer of the Supreme Court of the same province, is a gentleman of the same province. His portrait is presented in this issue of THE STENOGRAPHER. It is the opinion of the writer that Mr. Risteen will some day be needed where there is more reporting done than New Brunswick requires. This prophecy is based on the fact that Mr. Risteen is made of the sort of material for which there is always need in the busiest centres of the world's work. What a lively interest we all take in a good man's worthy record, be he young or old, and especially when there is the promise of more yet to come.

One does not have to look far to find the reasons why Mr. Risteen has been so successful already in the exacting work of reporting. He is only thirty-one years of age, yet he has certain all-important characteristics already strongly developed. In the first place, he is a master of the technical difficulties of notetaking. In spite of all anyone may say, the greatest stone in the foundation of a reporter's success is the ability to put down on paper all that is said, no matter how rapidly spoken, and then to read it afterward. Next, Mr. Risteen possesses in an unusual degree the literary faculty, the power of expression. We have all read some of his sketches, and laughed heartily over the humor of them. Some of us are familiar with the stories written over the alias of "Bildad." Bildad is Mr. Risteen; and when we read his wonderful tales of the wilderness, fishing and hunting narratives that sometimes grace the New York Sun and Forest and Stream, we know every word is true, because it is all so charmingly told. There never was a greater reporter who did not possess the creative literary faculty, a power which, when applied to the reading of a page of shorthand notes, recalls the forgotten scene, brings up the face and voice of each witness, illumines the doubtful expression, and enables one to draw out the thread of the story without a break; to put himself in sympathy with the stumbling orator, and to smooth down the rough spots and put some style into a report.

Mr. Risteen is fond of fishing and shooting, is strong and well, and is liked by everybody. The judges, attorneys, and legislators with whom he associates may not know why he is such a favorite with them, but if they will read this sketch, they will find out some of the reasons. This is not a biography of Mr. Risteen—not even an index. The time to write Mr. Risteen's biography will be about forty years hence; for there will be a new chapter every little while. He is "to be continued."

FRED IRLAND.

We notice that one of the editors of the stenographer is Mr. J. Gale Needham, formerly of Fredericton.
