 ertson, M. Gaviller, W. A.  
 ohen, F. F. Telfer, J. Moulton.

## Property.

of Collingwood is rich in useful  
 class water service, with duplicate  
 2 miles of mains and 56 hydrants for  
 ings, appliances and appointments.  
 ot surpassed in the world for supply,  
 awn from Georgian Bay, and from  
 t authorities, it has been pronounced  
 the Dominion. In connection with  
 a fully equipped Fire Department,  
 is used for fires when such take  
 first-class chemical engine, several  
 omplement of hose carts and attach  
 l at convenient points, and easy of  
 also owned by the town.

ght plants of both the arc and incan-  
 me 35 arc lights for street lighting  
 36-candle power incandescent lights,  
 business and domestic purposes, at a  
 hey may require.

Court house, town officers' rooms,  
 and two fine business houses, are  
 age, and supplied with all modern  
 and water. The Town Hall is a  
 pressed brick and Duntroon sand-  
 style. The Grand Opera House is  
 uipped modern outfit of theatrical  
 umber of years to Messrs. C. & S.  
 supply the town with the best  
 ainable, at regular intervals. The  
 t about 1,400.

The Court room is devoted to the uses of the Police Magistrate and bi-monthly Division Court sittings. It is well furnished and, like the Grand Opera House, Council chamber and officers' rooms, is heated with steam. It has a seating capacity of about 350 outside the railing.

The Central Park, with its splendid trotting course, grand stand and park buildings, belongs to the town. It is in this park where, by permission of the Town Council, the Great Northern Exhibition Company have their buildings, in which every year one of the greatest agricultural shows in Ontario takes place. This show, or fair, generally lasts from three to four days, and the country people for 25 miles around usually attend, besides hundreds of visitors from the towns and cities throughout the Dominion and the United States.

The town also owns a landing wharf in the harbor, which is rented yearly to good advantage.

Some years ago the town invested \$25,000 in the construction of a Dry Dock for the admission of vessels wanting repairs. The Dock was constructed and is now recognized to be the best on the lakes. The town leased the Dock to The Dry Dock and Wrecking Company for a number of years, whose energetic management has kept it busy, much to the advantage of the town.

More will be said of these matters further on.
