Body of J. H. Mullen, of Albany, Oregon, Found Floating in the Harbor.

Jury Bring in a Verdict of Found Drowned-Condition of the City Morgue.

The body of J. H. Mullen, of Albany, lowed. Ore., was found this morning floating near the city garbage wharf at the foot aside the ca. re, and the court held that of Telegraph street. All the facts point to suicide.

Mullen was some years ago the manager in Victoria for the Singer Sewing defendant. Mr. McPhillips will ask the Machine Company. He was succeeded by W. H. Adams. The two became very friendly. Recently Mullen has had trouble and about eight days ago he rights of the parties to a mining claim telegraphed to Mr. Adams: "I will be on the Seattle boat to-day, or else goodbye." From this it is evident that he interest for plaintiff. C. J. Prior (Ebintended to commit suicide at that time. erts & Taylor) for plaintiff and E. E. Wootton for defendants. He, however, came to Victoria and was a guest at the home of Mr. Adams.

About five o'clock yesterday afternoon he walked down town with Mrs. Adams, leaving her on Douglas street. That was the last time he was seen alive by his friends. When Mr. Adams went home at 7 o'clock last evening he was asked by his wife where Mullen was Fearing that he had carried out his

threat to commit suicide, Mr. Adams went out to look for him, but could not find him. About the time that Mr. Adams was

searching the city for his friend, one of the men connected with the garbage scows was taking Mullen's hat from the water, but had no idea that the owner was in the water dead. It is supposed called. Capt. Barry, Geo. McKinley and Constable Palmer gave evidence as to the finding of the body. The latter produced the papers, etc., found in the pockets of deceased. One of the letters was from

W. H. Adams to deceased. Dr. Crompton, who held a post-mortem examination, said there were no marks of violence on the body. He found the usual symptoms of drowning. Before concluding his evidence Dr.

Crompton drew attention to the condition of the morgue. He said that while conducting the post mortem examination he was continually annoyed by children looking in the window. When he arrived the windows were open, and the last time he had occasion to go there the. door was also open, allowing people to pass in and out. This should not be allowed. The arrangement of the morgue was also poor, making it impossible to hold an examination with any degree of comfort. The water supply is not sufficient, and the floor is of wood, and being situated near the market is a nuisance. It should be removed to a proper place and be properly fixed up.

Coroner Hasell said he had continually drawn attention to this. He had submitted rough plans for a morge to the council, which had been endorsed by the the Spanish government had decided to city health officer, but he had heard refuse the demand. nothing of them since. He did not know
