ST. JOHN PRESBYTERY.

Some More Lively Talk in Connection With Mr. Mullin's Case.

The Answers to the Stanley Pastor's Appeal Will be Sent to the Synod.

The St. John Presbytery niet on the 13th inst. in the committee room of St. Andrew's church, the moderator, His Honor Judge Forbes, in the chair. The minutes of the last session were read by the presbytery clerk, Rev. Mr. Rainnie After the reading of the minutes, which took up almost a half hour, Rev. Mr. Mullin took objection to one part of the records which referred to Rev. Mr. Ross's visit to the now famous St. Peter's church at Starley. The matter was amicably ar-

Several names were added to roll of the presbytery, after which the resignation of Rev. James Whiteside of St. Paul's church. Woodstock, was reported on by a specially appointed committee. The presbytery, through the committee, expressed its sincere regret at Mr. Whiteside's removal

through illness. Rev. Mr. Begirsto's resignation was also dealt with. It appeared there was a misunderstanding between the pres-bytery and the congregation of Glass-ville as to the desirability of Mr. Beairsto's leaving. The matter was finally decided by Rev. Mr. Beairsto explaining his case. He told of the strong ties which bound him to the Glassyille congregation, but for private reasons of much greater strength he wished to be relieved from his charge. His wish was granted, and on February 1st Mr. Beairsto will vacate his pulpit. Much regret was express ed at Mr. Beairsto's inevitable course Rev. Mr. Gratz was appointed moderator of the Glassvile session during the vacancy. Rev. Mr. Ross will assist Mr. Gratz.

Rev. Mr. Ross, superintendent of missions, reported as to the condition of the various smaller branches of the denomination throughout the home mission sphere of the presbytery.

After Rev. Mr. Ross, superintendent of home missions had submitted a detailed report of his official visit to the Stanley and Nashwaak district.

qualified voters were being taken, pan-demonium reigned. The pulpit was overturned and sat upon, and several surged toward the platform and occucupied it. One person cried out, "We had no trouble until you (Rev. Mr. Ross) came here!" and another loud voice shouted, "Dr. Bruce says there is not an honest man in the St. John presbytery!" This state of affairs lasted for several minutes, and it was only when blows were the next thing to occur that the meeting was hastily adjourned. As the benediction was being pronounced the crowd jammed out of the sacred edifice with howls

take action in equity with a view to have the church made accessible.

have the church made accessible.

A party of Stanley Presbyterians guaranteed \$400 to help carry on the legal suit, and another committee was set apart to inquire fully into the title, deed, etc., of St. Peter's church. Nineteen families sided with Mr. Mulling and twenty-four with the session, or presbytery. Even since Mr. Mullin has been ousted from the pastorate of Stanley his friends have been clamoring for his reinstatement. The feeling has been greatly intensified by this last move of the presbytery, and the reverend gentlemen's friends openly declared they will sever their church membership ties if Mr. Mullin is not returned to office. Party lines are very closely drawn. Mr. Mullin is not returned to omoe. Party lines are very closely drawn. Several recommendations were made by Rev. Mr. Ross regarding the best means to alleviate the great trouble. The first was with reference to the supplying a clerical representative to work the district. It was decided one should be procured.

The second recommendation asked presbytery to advise as to how to deal with the troublesome people, forty-one persons in all, and their course in defying presbytery and distrubing meetings. This was referred to the synod, a higher court of the church.

The third recommendation asked for

The third recommendation asked for advice as to procedure in the legal matter of a case in equity against the church trustees. During the discussion which followed this climax anchurch trustees. During the discussion which followed this climax announcement some very solemn truths were given utterance to by Rev. Dr. Bruce, Judge Stevens and Rev. L. G. Macneill. Rev. Dr. Bruce deplored most heartly the end to which the Mullin matter had attained. He

Mullin for mistakes and hotheadedness. All the fault was not on one side of the question, and in a most convincing way St. David's able pastor showed up the somewhat irreligious attitude of both the church court and Stanley's disgrunted people in the now famous dispute. Others agreed in a measure with Rev.

Hev. Mr. Ross said Geo. F. Gregory, Q. C., of Fredericton, had been re-tained as counsel in the equity case by the supporters of the presbytery in Stanley, and that a full case had been prepared. However, this matter as well as the former rec tion was deferred for Synod's consid-

It was announced that the land upon which the church stands was originally intended for a burying ground, to which many subscr but will be siven up as soon as the parties interested return a certain bond. This afternoon Mr. Mullin's

Rev. F. F. Forbes of Sydney, C. B. was nominated as next year's sessions noderator for maritime provincial

The presbytery met gain yesterday afternoon and confined itself almost entirely to the Mullin case. The presbytery considered the reasons of the appeal and agreed to accept the recommendations of the committee. A communication from Mr. Mulin referred to his letter published in the Fredericton Gleaner, and the reverend gentleman stated a desire to rectify a wrong impression and an injustice he had done Mr. Baird, the catecist, stating he would write the Gleaner to that effect. The presbytery's answer to Mr. Mullin's appeal will be sent to the synod.

CONSUMPTION CURED An old physician, retired from practice having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and lung affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering teliows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mall by addressing with stamp, naming this paper. W. A. NOYES, 220 Powers' Block, Rochester, N. Y.

THE PULPIT AND PROHIBITION.

the Stanley and Nashwaak district, and the state of the various branches of the denomination in those parts, the grievance against Rev. Mr. Mullin and his supporters was reported on also by Mr. Ross at considerable length, The remainder of the session was spent in the discussion of the mucharity serious and place of the Mullin matter is about as follows:

On Saturday, 23rd of July last, the trustees of the Stanley church were ordered to open the doors of the riace of worship to the newly appointed moderator of the session, Rev. Mr. Ross. On Sunday the doors still remained secure and thirty or forty members of the congregation attended service in the open air, around the church, stoppoment of the session was acided to see what steps could be taken to compel the key bolders to surrender the church, and also to consider the various legal points in connection with the ownership of the building and the land it stood uppa. This needing was acided in the old church, and the scene which ensued was a slander, not only on religion, but to the common orderliness of any community.

A vote vas taken on the advisability of operfing the church, in which the mai-ordents wom by a vote of 26 to 31.

Scrutineers were appointed to decide who was qualified to vote, as the method and the church, after which rules governing such matters of qualified voters were seen to from the chair, and while the names of qualified voters were seen being taken, pandemonum raigned. The pulpt was overvined and sat upon, and several cannot make a grant direction of all and on the subord of the church and several of the proposition of the chair, and while the names of qualified voters were seen to grant the church after which rules governing such matters and prohibitions and probabilities and prohibitions and probabilities and prohibitions and probability them expressing an opinion. He fresty and with a sufficient consideration to justify them expressing an opinion. He fresty and with a sufficient consideration to justify them expressing an opinion. He

Rhodes was wounded at the battle of Omdurman while acting as war correspondent of the London Times.

WHAT TROUBLES THE CHOIR.

Mrs. Jennie Mowatt Alive and Well in Boston.

She Left Her Home at St. Stephen, N. B., One Year Ago.

Tired of Everything on the Quiet Farm-Her Husband Suspected of Her Murder-Mystery Solved by the Boston Police Bureau.

(Boston Globe.)

Mrs. Jennie Mowatt, wife of Samue Isaiah Mowatt of Oak Bay road, St. Stephen, N. B., who was supposed to have been murdered on the evening of December 10, 1897, was found alive in Boston today.

She is living in a lodging house on Pine street. She has been in this city almost a year, having come direct to Boston from St. Stephen the day after that on which she was supposed have been murdered. She left ho because she had, as she expressed it, "thred of the uneventful life I had been forced to live, tired of the treatment of my husband, and longed to get away where I could be alone, earn my own livelihood and live in peace."

Mrs. Mowatt was found at her Pine street lodging house by detectives of the Boston bureau of criminal investigation and Detective John Ring of St. John, who was employed by the dis-trict attorney to ferret out a mystery which has puzzled the police of New Brunswick for almost a year.

Mrs. Mowatt, who has been mourned as dead, and whose husband has been openly accused as her murderer, is 25 years old. She is of the pro nounced brunette type, slight of figure, nas a fair face and a very attractive

While neighbors were accusing h nusband of committing a cold-blooded crime, and while detectives were scarching for the alleged murderer, Mrs. Mowatt was living a quiet, peace-

ful life in Boston. She knew nothing of the accusations against her husband, and her supposed untimely end, until Inspector Michael J. Kelly of Boston and Detective John Rink of St. John found he this morning. Although separated from her husband for more than a year, and probably for life, she could not bear the thought of his being ac-cased of crime, and begged the actectives to inform him of her exist-

This story deals with the unhappy home life of a young girl who left a home with everything to comfort, attract and entertain her. She left home, go to a farm miles away from civilization, all because she loved Samuel Isaiah Mowatt.

This girl's maiden name was Jennie King. Her home was in Minneapolis. She married Mowatt in 1892, and from the altar journeyed to St. Stephen, a saburb of St. John, N. B. She thought of only one thing then, that was her love for the man who had led her to

the altar. At first it was a novel experience; she rather like it. Then it became tiresome. She missed the friends who had courted her society all her life, the tender care of her mother, and her old social world. She longed for a change. When she spoke of it to her hysband he said there could be no change. His interests kept him near St. John. In silence she brooded over her "ill luck," as she termed it. Their omestic relations were quite pleasant until late last fall. Mrs. Mowatt's moodiness caused her husband to drink. The climax came just before the holidays last winter. Mowatt drank more than he ought to have done, and, it is alleged, abused his wife. Stories to this effect were cir-culated in the neighborhood in which

the Mowatt's ived. On Friday evening, Dec. 10, something occurred in the house of the Mowatts which no one, not even the police, have yet been able to explain. It was on this evening that Mrs. Mowatt disappeared as mysteriously as if the ground had opened and swallowed her up. Neighbors saw her as late as 8 o'clock that evening; neighbors eaw her husband come home in an inebriated condition, and stories substance of which were that Mowatt

ras again abusing his wife. The next morning (Dec. 11) Mrs. Mowatt was missing. The neighbors had heard loud talk, and they knew that there had been loud talk in the that there had been loud talk in the Mowatt dwelling the night before. Neighbors who called on that Saturday morning were told that Mrs. Mowatt had gone away, but these neighbors were not told where she had gone or why she had gone so sud-

denly.

Inquisitive neighbors, on visiting the house, told of blood stains on the kitchen floor, of seeing a bloody wrapper, a blood-stained shirt and of the

per, a blood-stained shirt and of the nervous, excited and strange manner in which Mr. Mowatt appeared whenever his wife's name was mentioned.

Rumors of a probable crime were given credence by the appearance of Mr. Mowatt's sister at the house, 48 hours after Mrs. Mowatt's disappearance. The story then told by Mowatt was that his wife had gone home to Minneapelis, and that his sister had come to keep house for him. One rumor led to another, one suspicion led to a more terrible suspicion, and in less than a month's time it was common talk in that rural district that "Mr. Mowatt had killed his wife."

The disappearance of Mrs. Mowatt trip on August 20. Apoplexy is said to have been the cause of death. The office here has not received any details. When last in port, Captain

Mowatt left she wore only her ordinary clothes. What expensive garments she had she left behind.

The sounty attorney was not hasty in his action. He knew that there was an absence of evidence of any crime. People talked and people criticised the county attorney but no will be equally as beneficial if not of cised the county attorney, but no step was taken to unravel the mys-tery until last month.

Information came to the county at-torney that a man on the Bangor &

torney, realizing that it was a mat-ter for detectives to work upon, de-tailed Detective John Ring of St. John on the case. The detective learned that the employe of the Bangor & Aroostook railroad was John
Richardson Mr. Richardson had read of the maritime experimental farm all about the story of Mrs. Mowatt's disappearance, her husband's flight and the alleged homicide, and was familiar with the case. He told the detective that his sister, now living in Boston, knew where

Mrs. Mowatt could be found. He said name of Gertie Russell (her maiden rame was Jennie King), and that she could be found without difficulty. The rumor that Mrs. Mowatt was alive became circulated in and around St. John. On Aug. 22 Detective Ring egan work on the case. In a short time he had traced Mrs. Mowatt to

The detective came to Boston his letters. Inspector Kelly was de-tailed to make an investigation, From information which the chief inspector had received, the detectives located the woman on Pine street.

established, and with her consent to go to St. Stephen and tell her neigh-bors that she was still alive, if such a step were necessary, the detective to St. Stephen, however, and when Mrs. Mo vatt's photograph was identifled the officers considered their case closed.

Mir. Mowalt has not been heard from since his disappearance one nonth after his wife's disappearance. Although he insisted that his wife was still alive and would appear in due time, it is believed his flight from St. Stephen was caused by rumors in circulation.

Mrs. Mowatt says she is healthy, contented and glad to get away from life in the rural suburbs of St. John. It is her intention to remain in Boston. Detective Ring will return to St. John Monday morning with a com-Liete and detailed report of the entire affair.

FAIR LAND OF SCOTLAND. (Composed by Jeremiah Stout, Bathurst, N. B.) Beloved native island forever farewell, Far away from thy grandeur I'm desti dwell; Thy blue bell and thistle no more will I see, Forever Fair Island, I'm severed from thee. Thy deep chiseled caverns and steep chiffs of

grey, re the sunbeams gigantic so gracefully play,
Do tell of thy greatness by nature and birth,
Thou art home of the sea-birds, their castle
of mirth.
I sigh while I think on each carpeted grove,
That in youth I oft wandered and learned
first to love
When I artlessly played with my comrades

in glee,
Forever Fair Island, I'm severed from thee.
Ye high hills and valleys in blossom so fine,
And you rippling streams that like silver do The breast that heaved highly beside you

to be,
In a forest land pineth, far, Fair Island,
from thee.
There is one hallowed spot in my bosom I 'Tis the green turfy grave where my parents do sleep,
Where Neptune's white waves, loud their music do roar.
In fancy's fleet car I oft bound o'er the main, main,
I have knelt on the green sod—again again; pping willows I have planted in dreams

revery,
Till the dawn of the morn showed me far,
far from thee.
O Island' Fair Island, thy name I'll repeat,
The heart that so loved thee will roon cease
to beat,
And will moulder to dust far away from thy
shore. Fair Island of Scotland, adieu evermore.

TWO ALLAN LINE CAPTAINS

(Montreal Star.) Capt. A. C. Whyte of the Allan liner Turanian, died of chronic dysentery yesterday at Gross Isle Quarantine sta-tion, below Quebec. He was taken ill on the last trip of his steamer from London, and had been landed at the station for medical treatment. The Turanian sailed from here on Thursday last on her return voyage.

Out of respect to the memory of the deceased all the Allan line steamers, and other vessels in port hoisted their flags at half mast. It is not yet known

what disposition will be made of the The late Capt. Whyte had been con-nected with the Allan line for over thirty years, and was well and honor-

Three years ago he was stricken with Three years ago he was stricken with smallpox along with several of the crew of the Brazilian while on a voyage to Montreal, and was landed at Grosse Isle for treatment. He recovered speedily and nursed with a rare devotion the afflicted members of his crew. His brother is one of the leading clergymen of the Scottish capital. The deceased was about fifty years of age.

rumor led to another, one suspicion led to a more terrible suspicion, and in less than a month's time it was common talk in that rural district that "Mr. Mowatt had killed his wife."

The disappearance of Mrs. Mowatt was not forgotten. Neighbors talked, and some of them urged the authorities to take some steps toward the prosecution of Mr. Mowatt. One month after the disappearance of his wife, Mowatt packed a small handbag and quietly left the town. He stored all his furniture, and made preparations, evidently, to remain away. When he had gone, officials escarched the house, and learned by their examination, that when Mrs.

AMHERST, Sept. 10.—Nappan can boast of having the maritime experimental farm and also of having what will be equally as beneficial, if not of more practical use to the farmers of the maritime provinces, the Maritim Stock Improvement company. The property of R. T. Coates has been purchased by the company. The company as organized has a capital stock of \$50,000, over fifty per cent. of which is now subscribed, C. F. J. Swainson, Truro; F. L. Fuller, Truro; R. T. Coates, Nappan, and W. F. George, Sackville, being the principal stockholders. Col. Blair, ex-superintendent and promoter and present manager of the Missequash Marsh Co., is to be manager of this farm company. The fact that Col. Blair so successfully carried on the experimental farm during the nine years he was superintendent, and that the work of re-claiming the Missequash marsh has been so successfully and vigorously carried on under his management as to already prove a sure and good investment, augers well for the success of the present company. The company is incorporated for the purpose of improving and raising the stand-ard of farm stock of the maritime provinces. To carry on the business importing, breeling, transporting marketing, purchasing, or otherwise dealing in all classes, kinds and breeds of thoroughbred cattle, sheep, swine and grade farm stock of all kinds, and shall have the like power regarding the various standard breeds of poultry, necessary buildings will be at once erected, stock will be purchased, and a centre will be established for what will prove to be of inestimable value to the farmer of the provinces. HALIFAX, N. S., Sept. 11 .- Miss

Mary McCabe, spinster, and house-keeper for her brother and blind sister, was burned to death at her home in Dartmouth, Saturday night, by a lamp exploding and the oil covering her face and hands as she sat in a chair near the lamp stand. Her blind made no outcry. The brother of the victim was sleeping up stairs. The fire communicated itself to the woodwork and passers by, attracted by the smoke, entered the house. When the fire was extinguished Miss McCabe was found dead in her chair.

The remains of Neil McInnis, a mid dle aged man who disappeared from this city in May last, were found toda, in Beech Hill woods, a few miles west of this city. Not a shred of flesh was on the skeleton. The remains of the lost and exhausted wandered have lain there undisturbed all summer

BATHURST, N. B., Sept. 11.-About 3.30 o'clock this afternoon fire broke out in the basement of A. C. Hickson's dry goods store. The fire caught from the furnace, which had been lit about ten minutes previous. The firemen responded quickly to the alarm which was given, and after an hour's work had the fire out. Much damage was furniture was badly dama ed in get ting it out. No insurance. The damage to the building, which is owned by W. R. Johnson, will amount to about six hundred dollars, which is covered by insurance.

DIGBY, N. S., Sept. 12.-A sad accident with the loss of one life and the narrow escape of another, occurred yesterday morning about one and

malf miles from Digby pier.

The schooner West Wind, Captain George Post, left St. John for this port at six o'clock Saturday evening with a general cargo, and shortly after passing in at Digby Gut, the wind suddenly shifting, the main boom, in swinging, struck Wm. Dillon, who was at the wheel, and carried him over board and at the same time Captain Post was also carried over, but suc ceeded in catching hold of a line as he went over the side. David Van-Tarsel, the only other person on board at the time, heard their cries, and rushing from below, put the boat overboard and Captain Post succeeded in getting into her, he then started to pick up William Dillon, who was by that time some distance astern, but pefore he could get to the spot, Dillon had sunk to rise no more. The accident occurred at 1.30 Sunday morning and at the time a strong ebb tide was running, so that very little hopes are entertained of recovering the body. Mr. Dillon, who was fifty years of age. had followed the sea for a livelihood from boyhood, and had only gone in the West Wind last week. Capt. Jas. Dillon, fish merchant of this town, is a brother of deceased.

Fire this morning at nine o'clock de stroyed a house owned by Mr. Cossett just outside the town limits; no in-

Rev. H. A. Hartley, accompanied by Mrs. Hartley, left today for a month of American cities during their travels.
The three-masted schooner Sadie C.
Sumner is loading lumber at Sproul's
wharf for the South American market. Clarke Brothers of Bear River

ket. Clarke Brothers of Bear River are the shippers.

The packet schooner Silver Cloud that was in collision with the steamer Prince Rupert some days ago, is being repaired at this port, and will be ready for sea in a few days.

The American steam yacht Scythian, which has been here for two weeks left today for St. John.

ANTIGONISH, Sept. 12.—Rupert Cunningham, town clerk, died suddenly in the town office this morning.

Cunningham, town clerk, died suddenly in the town office this morning at 10 o'clock from a stroke of apoplexy. He was a powerfully built and apparently healthy man of 42 years of age, an excellent official, popular and obliging. His taking off has cast a deep gloom over the town, and much sympathy is felt for his wife and young family. Deceased was a brother of Dr. N. K. Cunningham of Dartmouth, and left a large family connection and many friends to mourn his death.

HALIFAX, N. S., Sept. 13.—Rev. John Ambrose, D. C. L., died at his home, Sackville, N. S., on Monday evening, after a few days illness. The interment will be at Digby. There

will be a funeral service tomorrow evening at 7 o'clock on arrival of the express train. Rev. Mr. Ambrose nearly three quarters of a century ago was born in St. John of Irish parents. Nova Scotian in all but the accident of birth, he noved at a very early age with his parents to Truro, where after attending the academy he entered King's college, Windsor, in 1848. Among his fellow students were Judge Savary of Annapolis Royal, Judge Savary of Annapolis Royal, Rev. Dr. Bowman of Windsor, Robert Haliburton (a son of Sam Slick) Ottawa, and John Butler. Af completing his arts and divinity courses he was ordained deacon in 851, and priest in 1852 by the late a half years he acted as curate to the late Dr. Nicols of Liverpool, and about the end of 1854 was appointed to the extensive parish of New Dub-Margaret's Bay, which has since been sub-divided into two distinct charges. After remaining thirteen years in this parish he was elected to the parish of Digby, where he remained nearly twenty-three years. While at Digby Dr. Ambrose accomplished what he considered was in many respects the crowning work of his life. He inaugurated and largely carried through by his own personal exertions the movement for abolishing the iniquitious system of selling paupers to the lowest bidder. On resigning there he was appointed rector of Herring Cove, where he labored three years, and then retired from the work of the ministry. In 1853 Dr. Ambrose mar ried Charlotte N. Barss, a daughter of Edward Barss of Liverpool, and by her had a family of fourteen children. One of these is Robert, resid-

ing in St. John. Truro's natal day sports came off tolay successfully. Stephen of Halifax won the 100 yards dash in 10 secs., and 220 yards in 24 1-2 secs.

The bodies of Robert Devaney Hallfax and Thomas Boyer of St. John, who were killed by an accident at McLod's mine, Molega, Queens county, yesterday, were brought to Bridgewater this morning and forwarded to their homes. Both are frightfully mangled. The men attempt-ed to drill a hole alongside of another which contained an unexploded charge of dynamite, and the jar caused explosion which resulted in

SOIL AND CLIMATE OF CANADA. By Prof. Jas. W. Robertson.

The soil of Canada is not excelled by that of any land where the people follow farming for a living. But fertility of soil alone is not a source or assurance of wealth to the people who live on it. It must be mana skilf il, industrious, economical farm-crs, with methods adopted to meet the changed and still changing demands. of such markets as are accessible.

Canada has a climate admirably adapted for growing very large quantitles per acre of such plants as are suitable for the cheap production of cattle products. No country is super-tor to Canada as a home for cattle, swine, poultry, horses and sheep. The dene, principally by water, to Mr. bracing weather of Canadian winters Hickson's stock who had no insurance. D. T. Johnston occupied the ity of genial summers, under which crops grow in almost tropical luxurice. At the ings and nights give to plants a ro bustness of quality which are not to be found in tropical regions, and also

make life for the people comfortable and healthful. All the world knows that Canadiangrown wheat is the finest for bread-making that is to be found anywhere. The oats and oatmeal of Canada are unsurpassed in substance and flavor; and the pease, beans and rye are sec-ond to none. While the matchless quality of Canadian cereals is ac-knowledged, the superior character of many other Canadian food products has been overlooked. Wheat, flour, catmeal and peas are not per food products, and have found their way into distant markets in a condition as good, or almost as good, as when they left the granary and the mill. It has been quite otherwise with many other things. Until the cold storage system was introduced. the damaging influence of warm weather on animal products such as butter, eggs, meats, cheese and poultry was not adequately guarded against.

In all the settled districts of Canada

In all the settled districts of Canada lying eastward of the great lakes and westward of the Rocky Mountains, apples of the finest quality in flavor, in substance, in color and in size can be grown, and in areas containing lundreds of square miles, pears, peaches and grapes are grown in large quantities in the open air. Everywhere the climate is favorable to the growth of small fruits, such as strawberries, manhammer, grossberries and aspberries, currants, gooseberries and nany others.

It is thus possible to follow such mixed or diversified farming as will best maintain the fertility of the soil, best maintain the fertility of the soil, give employment to a large rural population for the area eccupied, and permit the sale of concentrated or relatively high priced products. It can be profitable in proportion to the wisdom and skill with which the intelligence and energy of the people are
