McShane Bell Foundry. Finest Grade of Bells.

McShane Bell Foundry.

WANTED - LADY Active and intelligent, to sell...

THE HOME. We Lay us Calmly Down to Sleep. When Friday night has come, and leave To God the rest!

As sinks the sun in western skies When day is done and twilight dim...

Why vex our souls with wearing care, Why slum the grave, for aching head...

Some other hand the task can take, If so it seemeth best, the task by us begun...

O Father! bless in love thy child! We lay us down to sleep.

When a Girl's School Days are Over. "What am I to do after school?"

This a question asked, I believe, by every school girl some time or other...

Her life to herself. 1. Her life to herself. 2. Her life to her family.

It is certain, to begin with, that in each of these there must be some settled plan of action.

That girl who lives on from day to day in an idle desultory manner...

Teaching, at present, is the greatest and noblest profession open to women.

Teaching, however, is not for every girl. With some, circumstances do not require it...

Some girls—and the number yearly increases—have the opportunity of going to one of our women's colleges at Oxford or Cambridge.

Of the life of our Lord in the words of the Evangelists, without repetition and chronologically arranged.

of their time, she was a worn-out, common-place old woman. They had their own pursuits and passions.

"You have been a good mother to us!" Her face colored again, her eyes kindled into a smile, and she whispered...

Boys, when you come back from college, don't consider that your only relation to your father is to "get as much money as the governor will stand."

An Important Achievement. For some time past the question of purity in baking powders has formed quite a feature of newspaper discussion.

For some time past the question of purity in baking powders has formed quite a feature of newspaper discussion.

A Boy's Decision. Many years ago, Mr. Hall, an English gentleman, visited Ireland for the purpose of taking sketches of its most beautiful scenery.

A Bargain was made with him, and the party went off. The lad proved himself well acquainted with all the places of interest in that neighborhood.

Then he turned to the lad and shook him warmly by the hand, saying as he did so: "My boy, that's the best temperance lecture I ever heard of."

FATAL EFFECTS OF ALCOHOL.—According to Dr. Richardson, alcohol cuts down on disease in England, and Wales alone, 1,600 persons a week.

A venerable clergyman of Virginia said lately: "Men of my profession are so much of the true side of life."

movable, in spite of its evils—and in the face of its easy removal, is permitted to remain in sight with a majority of the army of medicine looking on in apathy, pitying us "poor foolish fanatics" who are exercising our limited powers to uphold it, and...

I would not say hard words against poverty wherever it comes, it is bitter to all, but you will mark, as you notice carefully, that while a few are poor because of unavoidable circumstances, a very large mass of the poverty of London is the sheer and clear result of profuse waste...

A MIGHTY MYTH.—Some time since a woman delivered a lecture in Lancashire, England, against Christianity, in which she declared that the gospel narrative of the life of Christ is a myth or fable.

"Now you say that Christ is a myth, but when I tried, and the tetsellers, the police, the magistrates, and the wardens of the prisons all tried in vain, then Christ took hold of me, touched my heart and made me a new man."

THE FARM. Summer Care of House Plants. What shall we do with the house plants? Shall we keep them in the pots or set them in the ground?

Old Dr. Johnson was a benefactor. Seventy-five years ago he invented what is now called Johnson's Quinine Lincture, the wonderful success of which in the cure of diseases of the throat and chest is truly astonishing.

Clear Chamberlains in poorly ventilated work rooms, and want of proper exercise, are often unavoidable, but tend to produce Dyspepsia, want of energy, and loss of appetite.
