~~EXID.~~

Caughnawaga, Que.  
June 29th 1948.

Director,  
Indian Affairs Branch.

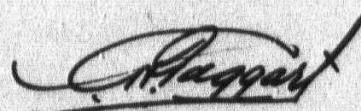

Re Second Transmission Line  
Quebec Hydro Electric Commission.

Reference is made to report dated 3rd June 1946, and letter dated June 4th 1947.

Please be advised that the Commission have completed all the work of installation of their New Transmission Line and same has now been in service for at least the last four months.

One party of Indians from this Reserve were employed clearing the North side of their 192 foot right of way, while another party of Indians erected most of the Steel Towers.

Apparently the whole matter has been completed satisfactorily.

  
C. H. Taggart.  
Commissioner.
