

TORNEY GENERAL GIVES INSTRUCTIONS TO HOLD INQUEST

W. A. Mott To Represent Crown At Inquiry Into I.C.R. Wreck—Hon. B. F. Pearson Also Takes Steps.

The Provincial Government has decided that an inquest must be held into the death of John Morton, Robert Whalen and J. K. Morrison the victims in the head-on collision on the I. C. R. at Nash's Creek, early last Wednesday morning.

In order that the inquiry might be held at once Attorney General Hazen yesterday sent the following telegram to Mr. W. A. Mott, of Campbellton: "W. A. Mott, K. Morrison the victims in the head-on collision on the I. C. R. at Nash's Creek, early last Wednesday morning."

On receiving the telegram Mr. Mott at once took the requisite steps as reported in this morning's dispatches. Mr. Hazen subsequently received a telegram from Hon. B. F. Pearson, of Halifax, who was in the wreck expressing the opinion that an inquest should be held in the interests of both provinces. His telegram read as follows:

Montreal, Oct. 8, Hon. J. D. Hazen, Attorney General, St. John, N. B.

With deference submit that public interests of both provinces demand public investigation before coroner, of fatal results of late disaster on I. C. R., at which your department should be represented. Am desired by management of Sun and Halifax Chronicle who have engaged counsel, to ask your permission for him to attend. A feeling generally prevails that false ideas of economy may have contributed to deplorable result. Please answer Windsor Hotel.

B. F. PEARSON. In reply to Mr. Pearson's telegram Attorney General Hazen wired as follows: Hon. B. F. Pearson, Windsor Hotel, Montreal.

Mr. W. A. Mott, K. C. of Campbellton to see that inquest is held and to represent department thereat. Think it might weaken effect of inquiry if government was represented by counsel employed by others, but do not object to their appearing.

J. D. HAZEN. It is understood that Mr. Ralston, K. C. of Amherst is the gentleman referred to in Mr. Pearson's telegram who will represent his papers at the inquest which is expected to be held next week.

GRUESOME FIND MADE NEAR MONCTON

Moncton, Oct. 8.—There is a mystery six miles from Moncton. One day recently two small boys of Sam Steeves, while looking for sheep, came across a human foot. The foot was found in a pasture near a brook and the opinion is that it was rooted up by pigs or sheep. Coroner Dr. Purdy, of Moncton, summoned yesterday, after investigation said that the foot had been lying in the field since early spring, as it was in a rich decayed condition. The find is surrounded by a mystery and people in the vicinity are much perplexed as to how it could have been there. The coroner is of the opinion that there might be other parts of a body in the same field and after ordering the burial of the foot, ordered that a thorough search be made.

PERSONAL. Mr. D. W. Doody left last evening on the Halifax express for a ten days' trip to Nova Scotia.

Mr. Wm. McCluskey arrived home last evening on the Boston train.

Mr. Percy Stewart and Mr. Walker Andrews have arrived home after two weeks' hunting trip in the Nepisicuit country.

Miss Annie Mullin, formerly of St. John, left on the Governor's train Friday morning for Boston en route to Philadelphia, after a pleasant visit of three weeks in her old home.

Mr. F. A. Jones returned yesterday from a trip to Boston.

Mr. C. P. Humphrey, who has been spending a few days in Boston, returned home yesterday.

Mr. and Mrs. H. D. Forbes arrived home from Montreal yesterday.

Rev. Canon Downie, of Fort William in this city, the guest of General Supt. Downie.

Mr. James Reid, C. P. R. auditor, and Mrs. Reid returned yesterday from a holiday trip.

High Tea and Sale. The High Tea and Sale which will be held by the congregation of St. Rose's church on October 18, 19, 20 and 21 promises to be a very attractive affair. Rev. Charles Collins, pastor of the church has made arrangements to provide music each evening during the fair which will no doubt attract large numbers. The City Cornet Band and the St. Peter's Y. M. C. Orchestra are among the musical attractions which will be present, as well as a number of talented singers and other local entertainers.

Sale Realized \$200. The rummage sale, which was held in the Every Day Club rooms on Thursday and Friday proved a decidedly financial success. A large crowd attended the sale, and upwards of \$200 was realized. The proceeds will go towards the Memorial Park Fund. The ladies in charge were Mrs. G. G. Murdoch and Mrs. G. J. Jenkins.

Not Guilty. Brampton, Oct. 8.—After an hour's deliberation, the jury on Thursday night found James P. Roston, of Shelburne, not guilty on the charge of wilfully setting fire to his farmhouse on February 10 last, for the purpose of defrauding the insurance company. Mr. Justice MacMahon at once discharged the prisoner. The case aroused great local interest, owing to Roston being a prominent resident of this county. Roston's hired man, John Hollis, swore Roston approached him with a bribe of \$50 to apply a match, but this Roston absolutely denied.

THE MARITIME CONVENTION OF THE KING'S DAUGHTERS

First Sessions Held Here Yesterday—Reports Show Good Progress Made in New Brunswick—Ground Lost in Nova Scotia—Miss Brown Delivers Interesting Address On Work Of The Order—Today's Programme.

The first Maritime Convention of the Order of the King's Daughters and Sons, opened yesterday morning in the rooms of the King's Daughters Guild, at 9 o'clock. The rooms were prettily decorated with flags and flowers and were filled with visitors and local members.

At the morning session considerable business was transacted. The reports of the district secretaries for the Maritime Provinces showed that the work of the guild was flourishing and the financial outlook was most encouraging there being \$286.22 most encouraging there being \$286.22 of a surplus on hand. The various circles in the provinces had done excellent work. The total New Brunswick membership is now 338. Mr. John Ogilvie was nominated for tellers on the formal ballot, and on the informal ballot Miss Helen Barker was the only one nominated for Maritime Secretary. A number of other ladies were nominated for the different offices.

At the afternoon session a paper was read by Mrs. R. A. Jamieson on "What the World Needs," was much appreciated.

Delegates. Among those present at the convention are Miss Annie M. Brown, of Toronto, Dominion secretary, who presided at yesterday morning's session; Miss Ella L. Thorne, of Fredericton, Dominion recording secretary; Miss Helen L. Barker, Maritime secretary; Miss Charlotte Purves, of Fredericton, Maritime recording secretary; Miss Annie E. Johnson, district secretary, P. E. I.; Miss Bessie F. Armstrong, of this city, Dominion secretary New Brunswick; Miss Margaret Lorrain, Charlottetown, P. E. I.; Mrs. A. P. (Dr.) Crockett, Mrs. Emily C. Ellis, and Mrs. Ella H. Hurlburt, of this city; Mrs. H. S. Creighton, of Dartmouth, N. S.; Mrs. Laura McLoughlin and Miss Blanche Thomas, of this city; Mrs. Mrs. W. J. Belyea, of Fredericton; Mrs. A. P. Belyea, of this city; Miss Edith Elliott, Dartmouth; Mrs. Herbert D. Everett, of this city; Miss Charlotte H. Perley, of Fredericton; Mrs. L. Robson, Mrs. R. Maxwell McCarthy, Mrs. J. S. Flagler and Mrs. J. Fred Watson, of this city and Miss E. Helen Alward, Fredericton.

Morning Session. The opening service was led by the Dominion secretary, Miss Brown. The interim minutes were read and approved of and the programme adopted.

The address of welcome was delivered by Mrs. Henderson, president of the local union and was responded to by Mrs. G. G. Scott, Fredericton, and by Miss Brown.

The report for the province of Nova Scotia was submitted by Mrs. Creighton, Miss Lume, the Nova Scotia secretary, being unavoidably absent. The report stated that the Steadfast Circle in Dartmouth had an enrollment of 41 members and told of their work in the sick and suffering. Coroner Dr. Purdy in this way had been \$428 for the year. The members had raised \$150, which was placed in the bank for a time when the "low might" and specific help in time of distress. The Wolfeville and Liverpool circles had both ceased their meetings. Little is heard from the Halifax branch, there being no regular circles.

The report for the province of New Brunswick for the past three years was submitted by Miss Bessie F. Armstrong, district secretary. The work in this province is in an encouraging condition. The membership had been increased by 67, 15 in Fredericton, 52 in St. John, the death of the oldest member, Mrs. John Hies, was appropriately referred to.

Financial Outlook. The financial outlook was most encouraging; \$2,230.59 had been raised in this province, and \$1,925.37 had been expended.

The Lend-a-Hand Circle had done good work in various ways, by supplying clothes for the children of the Free Kindergartens, treating them and the occupants of the Old Ladies Home to Rockwood Park. Milk and bread had been supplied each day to the children of the Kindergarten.

The Opportunity Circle reported making 64 comfort bags for the Seaman's Mission and work of a like nature. Ministering Circle had an increase of ten members. The largest circle in the province, The Doorkeepers Circle of St. John, had increased by fifteen members.

Among other work of this circle was the giving of \$1 per month for the past three years toward the rent of a "shut-in," eighty yards of flannel etc. had been sewn for the children of the Kindergarten and other deserving little ones, and other work of a similar nature had been carried on on a large scale. Reference was made to the great loss sustained by the death of Miss Gilmore, the treasurer.

St. David's Circle. The St. David's Circle which consists chiefly of members of St. David's church, were endeavoring to educate a young Puresia girl, under the supervision of one of their members, who is a missionary in that country.

The Winnegonee Circle, of the West End, has now ten members and is very active. The two circles in Fredericton were also doing splendid work. Golden Rule Circle had held splendid meetings. One valued member Miss Vega Creed, had died. The Ministering Circle, of Fredericton had forty members and was in a flourishing condition. The members had done much charitable work. The total New Brunswick membership is now 338.

Maritime Secretary's Report. The report of the Maritime secretary, Miss Helen L. Barker, was then read. It pointed out that the order had lost ground in Nova Scotia, but gained stationary in P. E. I. and had gained in New Brunswick. It was hoped that the Nova Scotia circles, which had been disbanded, would be reorganized.

Reference was made to the death of Miss Thompson, of Fredericton, and the great loss sustained. The order now had sufficient paid members to entitle them to a representative on the Central Council of the order. The report referred to the great pleasure of knowing the mem-

bers of the Central Council and told of its members and the work of the council at one of its recent sessions, and of the secretary's experiences while in attendance.

The session then adjourned. Afternoon Session. In the afternoon at 2 o'clock the service was opened by Mrs. John Sealy, of St. John. After this followed prayer and Bible reading. The minutes of the last meeting were read and adopted. The roll call was next in order, and forty three members answered. These were all delegates, as the members of the King's Daughters had no vote. Mr. John Ogilvie was nominated for tellers on the formal ballot, and on the informal ballot Miss Helen Barker was the only one nominated for Maritime Secretary. A number of other ladies were nominated for the different offices.

R. A. Jamieson then read a paper on "What the World Needs." Some discussion of the paper followed and the conference of circle workers was then held. Mrs. Thorne of Fredericton advocated a system for the conferences. She thought that one member should be appointed to the opening service for every meeting, and that a regular programme should be mapped out. The report of the tellers was then read, after which the session adjourned.

Miss Brown's Address. In the evening Miss Brown, of Toronto, Dominion secretary of the guild, delivered an interesting address in Centenary Methodist Sunday school room, on the Activities of the Order. The lecture was illustrated throughout by stereoscopic views and had the close attention of the large audience present.

Rev. C. R. Flanders, D. D., occupied the chair and in introductory remarks said it was a pleasure for him to introduce Miss Brown whose ability as a platform lecturer was well known and whose wide experience as a worker in the interests of the King's Daughters enabled her to speak intelligently on her subject.

Miss Brown in her opening remarks said that great many people did not properly understand the real motives of the guild. In the short time allotted to her and with the aid of the stereoscopic views she hoped to be successful in explaining to the audience present the aims and objects of the International Order of the King's Daughters and Sons, and the spread of the Gospel among the people. "Not to be ministered unto, but to minister unto" was their motto. A Great Missionary Work. Reference was made to the great missionary work accomplished by members of the guild throughout the world. In a very interesting manner she pointed out the work of the International Order of the King's Daughters and Sons in the different states of the union, as the pictures of colleges, schools, libraries, hospitals and other institutions for the benefit of humanity, that were established and supported by the guild throughout the union, were thrown upon the curtain. In the State of Kentucky, she said, there was a school supported entirely by the Guild, where upwards of fifty hundred schoolboys received their education. In the State of Virginia the Guild had erected a magnificent new hospital at a cost of \$20,000.

JAMES LOWELL, M.P.P. GETS ANOTHER DOLLAR THIS TIME FOR COSTS

Judge White Refused Supreme Court Costs After Argument in Slender Case Yesterday—Plaintiff Will Appeal.

The Lowell-Gray slander case was before Mr. Justice White in Supreme Court chambers yesterday morning. At the September circuit before his Honor and a jury Mr. James Lowell, M. P. P., sued Mr. Gray, of Fairville, for damages, alleging that Dr. Gray slandered him during the election campaign of 1908. The jury returned a verdict of one dollar in favor of the plaintiff. Yesterday morning Dr. L. A. Currey, K. C., counsel for Mr. Lowell, applied for a certificate of full Supreme Court costs.

Damages Governed Costs. Hon. J. D. Hazen, K. C., counsel for Dr. Gray, showed cause. Mr. Hazen argued that the statute 21 James I, Cap. 16, which says that in an action for libel the plaintiff recovers damages less than forty shillings no more costs than damages are allowed. The Attorney General cited the case of Gallagher vs. O'Neill (34 N. B. R. 194) in support of his argument. He said that one dollar costs are allowed.

Dr. Currey in reply, contended that the case of Gallagher vs. O'Neill, relied upon by the Attorney General, does not apply under the existing legislation, and that in that case the plaintiff recovered damages not in excess of \$100. He cited a number of English and Ontario cases in actions of slander which decided that recent legislation with regard to costs, by implication repealed the statute of James, and that the legislation as to costs in this province was similar to that now existing in England and Ontario, where the plaintiff recovers more than £100 in England, and in the Ontario case that the trial judge could certify for full Supreme Court costs.

The Decision. His Honor said that he felt bound by the decision in the case of Gallagher vs. O'Neill and that he would not undertake in the face of that decision to decide as to the effect of the cases cited in the legislation, but would leave the matter to the Legislature, and he would submit to the court en banc. He therefore refused to grant a certificate for full Supreme Court costs and allowed the plaintiff one dollar costs.

Mr. Hazen asked for costs of this application, which was refused. Dr. Currey announced that he would appeal the decision, and he argued before the full court on November.

WEEKLY TRADE REVIEW BY BRADSTREETS

New York, N. Y., Oct. 8.—Bradstreet's state of trade tomorrow will say: Favorable reports are the rule in nearly all lines of trade and industry, with conservatism, bred by high prices of raw and manufactured products and full order books of manufacturers, and in the State of wholesaler's distribution in most wholesale lines. Wholesale trade in staple lines is good beyond question, even the south, which faces a short yield of cotton, showing better and more cheerful tone because of the high price.

Iron and steel are active. The shoe trade is brisk, except at some eastern manufacturing centres, where early gains in shipments are not maintained.

Copper is dull. Wheat, including flour, exports from the United States and Canada, for the week ending October 7, as reported by telegraph to Bradstreet's, are the largest for any week this year, aggregating 1,396,667 bushels, against 5,625,452 this week last year. For the fourteen weeks ending October 7, exports are 22,555,445 bushels against 23,165,424 last year.

Corn exports for the week are 167,622 bushels against 177,759 in 1908. For the fourteen weeks ending October 7, exports are 1,816,874 bushels, against 642,504 last year. Business failures for the week ending with October 7, were 203 against 197 in the like week of 1908; 192 in 1907; 192 in 1906 and 183 in 1905.

All wholesale lines are busy and retail trade shows improvement. Dry-goods, hosiery and demand for footwear is especially active. Iron, steel and hardware, a good business is doing at firm prices.

Business failures for the week ending with Thursday number 36, as compared with 31 last year.

AT THE HOTELS

Royal. Mr. and Mrs. R. W. Hebbert, Providence; Mrs. W. B. McKay, Sussex; Miss McKay, Sussex; Mrs. C. P. Clark, Moncton; W. J. Cooney, Megantic; F. J. McDonald, Sussex; Mrs. F. F. Pully, Halifax; W. S. Long, W. H. Wood, Boston; W. S. Morrison, Fredericton; Mr. and Mrs. A. G. Berry, Sussex; W. W. Barr, St. John.

Victoria. Mr. and Mrs. R. W. Hebbert, Providence; Mrs. W. B. McKay, Sussex; Miss McKay, Sussex; Mrs. C. P. Clark, Moncton; W. J. Cooney, Megantic; F. J. McDonald, Sussex; Mrs. F. F. Pully, Halifax; W. S. Long, W. H. Wood, Boston; W. S. Morrison, Fredericton; Mr. and Mrs. A. G. Berry, Sussex; W. W. Barr, St. John.

St. John's (Stone) church—18th Sunday after Trinity—Harvest Festival, 8 a. m.—Holy Communion. Morning Prayer and sermon, 11 a. m.—Proper Psalms, 7e Deum, Stainer in E flat; Jubilate, Smart in G; Anthem, "O God, Who is Like Unto Thee," West; Offertory, "Holy and Mighty God, Our Father," Evening Prayer, 7 p. m.—Proper Psalms, MSS.; Magnificat and Nunc Dimittis, Garrett in D; Anthem, "O Pray for the Peace," Elvey.

Harvest Festival. The Harvest Festival will be celebrated at St. John's (Stone) church, tomorrow and will be marked by special music and appropriate decorations.

DAVID CRAIG GIVES DETAILS OF NEW PLANT FOR PRODUCE

Head of Company Leasing Green Head Lots Speaks Of Inventions Which Will Be Manufactured Here—Many Lines Besides Concrete Houses—Former St. John Man Has Had Successful Business Career.

In view of the recent decision of the general committee of the common council to lease the properties at Green Head to the David Craig Company of Boston, some interest attaches to the head of the concern from the fact that he is an old St. John boy and has returned to his native city to establish a plant for the manufacture of concrete block houses and other important inventions for which he is the owner of the patents which have been obtained.

What The Plant Will Produce. When interviewed by a Standard reporter yesterday regarding the inventions which the company proposed manufacturing at the Green Head plant, Mr. Craig said that there were a number of different articles that would be turned out. The most important in the matter, and the one which he believed would be the most profitable, was the manufacture of concrete houses. The attempts of Edison to produce a cheap concrete house, he said, had awakened his curiosity in the matter, and as a result he had evolved a method of constructing concrete houses which he believed would mark an epoch. The houses would be manufactured in a number of parts which would be shipped to the purchaser who would be able to put them together without skilled labor.

His company did not intend merely to manufacture cement, and for that reason there would be no fear of the plant being forced to the wall by the merger of the firms in Upper Canada or by the Sydney plant. The Craig manhole cover is another invention that will be manufactured. This cover obviates all leakage of surface water through manholes. The Craig pressure resisting seal or con-

voluted joint is the principle used in their construction. This type of manhole is at present used in Boston.

An Improved Dry Dock. Another valuable use made of the Craig pressure resisting seal or con-

voluted joint was in the construction of dry docks. The Craig dock is quickly operated and is so built as to accommodate vessels any depth of draught. Professor W. S. Burke, M. E. of Harvard University, who made an exhaustive study of the physics of the dock, reported most favorably as to capacity. The cost of this dock is much less than the cost of those now in use. A dock capable of holding a ship of 18,000 tons costs less than \$500,000.

Another patent to be manufactured is a steel tire for automobiles, to take the place of the rubber tires now in use. These steel tires by means of springs have the resiliency of rubber. They are easily repaired and last much longer and sell at about half the cost of the rubber tires. Tires of a similar nature can be used on locomotives with good effect.

Among the other inventions that will be turned out are several sanitary improvements and a number of improved appliances for engines and boilers.

Skilled laborers would be required in connection with the plant. Mr. S. L. T. Burnham, vice-president and secretary of the Craig Company, who is also a St. John man, is expected to arrive in the city today for the purpose of making arrangements for the construction of the plant. The work will be started as soon as possible after the lease has been signed.

Boards of Health, and a member of the Massachusetts Charitable Mechanical Association. He is also a member of the Board of Directors of the Boston North End Plumbing School and lecturer for the school on the theory of plumbing since 1898.

Mr. Craig has employed his spare time in endeavoring to solve any problem that came to his attention in connection with plumbing fixtures and other lines of work. As a result of his experiment and invention he has patented a number of inventions which will be manufactured at the plant to be built at Green Head.

When interviewed by a Standard reporter yesterday regarding the inventions which the company proposed manufacturing at the Green Head plant, Mr. Craig said that there were a number of different articles that would be turned out. The most important in the matter, and the one which he believed would be the most profitable, was the manufacture of concrete houses. EXPORTS TO STATES LAST QUARTER WERE NEARLY \$1,000,000

Wood Pulp The Heaviest Item Amounted To \$157,901.13—Product Of American Logs \$327,045.11.

Exports to the United States through the port of St. John for the three months ended Sept. 30, last, nearly reached the grand total of one million dollars. This includes, however, the product of American logs, which amounts to \$327,045.11. The heaviest item of the Canadian exports is wood pulp amounting to \$147,901.13.

The figures are:—

Table with 2 columns: Item and Amount. Includes Animals, Horses, Sheep, Cattle, Fish, Herring, Lobsters, Salmon, Fish waste, Gum Chicle, etc.

Total of American logs: \$27,932.04. Total of all exports: \$899,798.94.

Good Saturday Bill at Nickel

This afternoon at the Nickel children will have a grand pictorial feature in the exciting story of a little girl and her faithful dog. This is the story of the most remarkable films in evidence here. It is a story of a little girl and her faithful dog, who saves her father from a fire. The film is a masterpiece of photography and is a must for all who love a good story.

AMUSEMENTS
