WEALTHY MEXICAN WHO FLED OVER THE DESERT TO THE UNITED STATES

SEÑOR LUIS TERRAZAS

Senor Luis Terrazas, head of the wealthy Terrazas family, who is said to have with him 5,000,000 pesos (\$2,500,000) which he withdrew from the Chihuahua banks, left Chihuahua City and fled over the desert to Ojinaga, on the Mexican border, and from there crossed to the United States.

SLIGHTLY IMPROVED TONE IN YESTERDAY'S MARKET

New York, Dec. 10.—There were a few weak spots in today's market, but the general movement was narrow. The tone, while uncertain, was better than in yesterday's session. Liquidation, such as upset the market the previous day, was in much smaller volume, and there were evidences of more confident buying, especially of the standard investment stocks. The improved tone induced shorts to take the profits shown in stocks which had declined sharply, and covering operations caused a number of sharp upturns. The improving tendency of the market in the latter part of the day was ascribed to the exceptionally good showing made in United States Steel's monthly statement of unfilled tonnage. A shrinkage of 117,000 tons was reported, but it was much smaller than had been generally lower, and Steel moved up following the appearance of the statement. The amount of unfilled orders at the first of the month was the smallest in two years, and represented the eleventh successive monthly decline. Foreign selling influenced the market for a time. London disposed of about 12,000 shares here. Another factor with which the market had to contend was the continued firmness of money. (All loans were renewed at five and one-half per cent., as against five per cent. yesterday, and time rates were higher.) Bonds eased off after showing some improvement. Total sales, par value, \$1,385,000. United States and Panama bonds were higher. Steel's advances of 1/2 to 3/4 made yesterday.

CLOSING COTTON LETTER FROM JUDSON & CO.

(J. C. MACKINTOSH & CO.)
New York, Dec. 10.—There was little activity and less news in today's cotton market, in the absence of which prices showed a tendency to sag. Bears talked a great deal of the general business reaction as an offset to a probable bullish government crop estimate on Friday and there was a growing disposition to believe that this view was partially correct. Some advice indicate a stubborn belief on the part of holders that cotton will sell higher and it may be that business reaction will have little effect on these people. JUDSON & CO.
