Gov't Ducks Responsibility By Slipping Power Co. Bill Up to the Supreme Court

(Continued from Page 1.)

as unfair to both shareholders and the city.

Mr. Potts said that the stand which he would take would be entirely on his own responsibility and prompted by duty which he felt he owed the province and particularly the City of St. John. Delays might be dangerous, but perhaps not in this particular case. The amendment to the Bill would displace both the people of St. John and the shareholders of the company. It was questionable what was the best to do, but in his opinion, if the chance which was included in the proposal to delay for a year, were not taken, and some savings saved from the wreck, the Currier Report would go through in its entirety. He would stand by the best interests of St. John, and the best interests could be served by giving an opportunity for thinking the matter over for a year. Many things might happen in a year.

Mr. Potts said he would not give a snap for a man who could not sacrifice his political chances to serve the best interests of the people he represented, even if they could not see it. Honorable members from constituencies outside St. John had asked that they be given more time and he thought that they should. He would vote for delay, and by so doing he would save the people of St. John from a \$2,800,000 rate base.

Mr. Campbell said he would vote against any delay. The matter should be faced squarely. No additional evidence was required.

Mr. Baxter said that honorable members of the House had sufficient evidence before them to show that some injustice had been done the city by the Currier report. They would not be better situated in another year. There would not be five of them who would read the evidence. If the delay took place he feared that efforts in the public interest would relax, while private efforts never relax. The chief position was to have one expert go over evidence, which three experts already had gone over. He wished to do the wisest and best thing, but he doubted if handing the evidence to honorable members would produce the best result.

Hon. Mr. Foster said he hoped the honorable member did not intend to ridicule his suggestion.

Mr. Baxter said not at all, he was merely pointing out a difficulty.

Hon. Mr. Foster said it was not unusual to refer disputed matters to tribunal, and his proposition was not one to be thrown aside. He noticed that both the mayor and city solicitor of St. John were present, and it might be well to have them say if they wanted the House to proceed with the bill.

Hon. Mr. Roberts said that if this matter were decided tonight a mistake might be made. If it were left there would be opportunity of further consideration. However, he did not know what effect delay would have on the interests of the city, the bona holders, or the company. Under the circumstances he would adhere to the amendment of the City of St. John.

Mr. Baxter said he had conferred with Mayor Hayes who would get in touch by telephone with other members of the St. John council.

Hon. Mr. Foster said the idea was

Why Be Fat?
The answer of most fat people is that constant dieting is hard, continual exercise is tiresome, exhaustive—then, too, it might be harmful to force the weight down. That was the old-fashioned idea. Today in Marmola's Prescription Tablets all these difficulties are overcome. Just a pleasant, harmless little tablet after each meal and at bedtime causes fat to melt away. This modern method is also healthy, harmless, causes no dieting or exercise, and has the added advantage of cleansing. A large case of safe Marmola's Prescription Tablets is sold by drug stores at 75c. per box. If preferable, can be obtained by sending price direct to the Marmola Co., 1000-1001, 1002-1003, 1004-1005, 1006-1007, 1008-1009, 1010-1011, 1012-1013, 1014-1015, 1016-1017, 1018-1019, 1020-1021,
