

# Cockshutt "Beaver" Plows

HERE are two plows that you should investigate, the Beaver Gang and Beaver Sulky.

They have a reputation for giving satisfaction that is most enviable. Many good reasons are behind that reputation. Hitch three horses to a Beaver Gang; you can then do as good work as any man can do with a single furrow walking plow and do it twice as fast. See the position of the front wheels opposite each other, so the plow can adapt itself to uneven land and still plow an even depth of furrow.

## A PLEASURE TO HANDLE

It's a pleasure to handle the Beaver Gang or Sulky—Levers are so conveniently placed, and so readily operated. That strong Lifting Spring on the Raising Lever makes the lifting of the bottoms an easy matter. Straightener device on each plow enables operator to keep his furrows perfectly straight, making neat as well as thorough work. Dust-proof bearings in the wheel hubs save wear and make the plow a light draft one, a big consideration at plowing time. High Beam keeps the Beaver clear of trash when working in dirty land—also gives the Rolling Colter the best possible chance to do thorough work. Beams on the Gang Plow are adjustable so the plow can be set to do work from 9 inches to 11 inches. Our famous Judy, Kid or Nip bottoms fit this plow.

THE Beaver Sulky is the lightest draft Sulky made. For use on hard land you can't beat it.

Has all the good features of the Gang—in fact, is almost identical in construction. Either Plow can be fitted with Knife or Rolling Colters—whichever you desire.

Send to-day for Pamphlet describing these Plows. We are always glad to answer any questions you want to ask.
