Fredericton, NB Canada E3B 5A3
Phone: 506-453-4864
Fax: 506-453-5016

A Career in Orthoptics/Ophthalmic Medical Technology

Orthoptics is the clinical science of ocular motility and binocular vision, and related disorders of the eyes. An Orthoptist is an allied health professional who works with ophthalmologists, (eye physicians and surgeons) analyzing and treating patients unable to use both eyes together because of an eye muscle or sensory abnormality. An Ophthalmic Medical Technologist assists the ophthalmologist with a wide range of diagnostic tests and procedures requiring a great deal of technical expertise.

In July 1995, the Izaak Walton Killam Children's Hospital will commence an accredited twenty-four (24) month training program leading to a Certificate of Orthoptics and Ophthalmic Medical Technology. Applications are now being accepted from individuals holding a baccalaureate degree with courses in any of the following areas: psychology, physiology, biology, anatomy, physics, statistics, research methodology. Work/volunteer experience in the health care field will be considered an asset. Candidates should possess good communication skills, sound judgement, emotional maturity and a demonstrated ability to relate well to small children and to adults.

Financial assistance may be available to qualified students.

Deadline for application is February 28, 1995

For further information regarding a challenging, interesting and rewarding career in the health care field, please write:

MASTERS AND PhD PROGRAMS IN ENVIRONMENTAL STUDIES

The FACULTY OF ENVIRONMENTAL STUDIES offers unique opportunities for those interested in graduate work leading to the Masters and PhD degrees. Students pursue their own interests, building on past experience and exploring ideas in the broad spectrum of perspectives on natural, social, built and organizational environments. Individualized and flexible programs are possible in a wide range of environmental studies areas. Some of these areas are:

- environmental thought
- organizations and change
- gender and environment
- environmental education and critical pedagogy
- urban politics, planning and design
- environmental and social policy
- global/international and Canadian development
- environmental planning and design
- regional and community development
- the study of the future
- communication, advocacy and social change
- resource management
- Native/Canadian relations
- housing
- impact assessment
- women and development
- environmental politics and ecological economics
- cultural studies
- biological conservation and biodiversity
- action learning
- environmental and political linguistics
- environment and behaviour
- cooperative management
- health and environment

Applications for September 1995 should be received by March 1, 1995.

The Faculty also offers an undergraduate degree program leading to a Bachelor in Environmental Studies (BES). Information for all programs can be obtained from:

Business Conference - Brock University - 1994

Some had to do more than remember.

Five years after the Montreal Massacre, host Sadia Zaman speaks with the mother of one of the dead women, as well as people who were profoundly affected by that day, and have since taken action to force change in their communities and beyond. **One Hour Special: The Aftermath of the Montreal Massacre, December 7, 10 pm.**
