Dear Mr. Perry:-

I have to thank you for a copy of your letter 18/28383 of the 2nd instant, which was the final summing up by yourself of the fishing question as it pertained to the taking of salmon by the Indians of the Interior.

I have read it through with much interest, and I think you have summed up things very well, and I hope that, for the time being anyhow, it will settle the question.

Yours truly,

(Geo. S. Pragnell)
Inspector of Indian Agencies.
