

# ASBESTIC THE KING OF WALL PLASTERS ASBESTIC

**FIREPROOF**, being purely Asbestos, which is incombustible.

**Non-Conductor of heat**; No crumbling or cracking. Intrinsicly cheaper than any other Plaster.

*A few of the Principal Buildings Plastered with Asbestic :-*

The Macdonald Building, Montreal; the Royal Victoria College, Montreal; the Grand Hotel, St. Hyacinthe; the Young Women's Christian Association Building, Montreal; the Protestant Insane Asylum, Verdun; the Ottawa Parliament Buildings, portion of which was lately destroyed by fire and rebuilt; the new Customs Appraiser's Stores, New York, now building, which will consume 5,000 tons.

WRITE FOR PAMPHLET AND FULL INFORMATION.
