Montreal Power closed with 87 bid, a gain of $\frac{1}{4}$ points over last week's closing figures. Most of the sales of the day were made at 88. The stock has been in good demand at the lower figures prevailing, and 8,475 shares changed hands. The strike is still on, but the Company claim to have had no trouble in carrying on their business and are rapidly filling up the places of the striking employees. Many of their old men have come back and the trouble, as far as the Company is concerned, seems to be well in hand.

Thursday, p.m., May 28, 1903.

The feature of to-day's market was the sharp break in C. P. R., which, after opening at 127, sold down to 124 during the morning, the break being initiated in New York, where the general market was quite weak. The stock recovered to 125 during the morning, and opened in the afternoon at 124, the last sales of the day being made at 124 $\frac{1}{2}$. Montreal Street was fairly firm, and sold between 254 $\frac{1}{2}$ and 256, the last sales being made at 254 $\frac{1}{2}$. Montreal Power sold during the morning at 88, the highest being 88 $\frac{1}{4}$, but it afterwards reacted, and the last sales to-day were made at 86 $\frac{1}{2}$. Twin City also reacted, and after selling at 105 $\frac{1}{2}$ and 105 $\frac{1}{2}$, closed at 104 $\frac{1}{2}$.

Nova Scotia Steel sold at 93 $\frac{1}{2}$ in the morning, and down to 91 $\frac{1}{2}$ in the afternoon, and the general market closed considerably lower than yesterday. The last sales in Dominion Coal were made at 92, and in Dominion Steel Common at 18 $\frac{1}{4}$. The market at the close was weak, and possibilities of lower figures were apparent. However, in the present market reactions are naturally to be looked for after every advance, and it will take some time to restore public confidence, and place the market on a firm basis.
