

If you could purchase a machine to grind the grain and feed your hogs, with no trouble to yourself, you would be willing to pay **\$42.50** for it.

THE HOG MOTOR

has, the past six years, done this for hundreds of farmers, and not one has been troubled with crippled pigs. The Motor will do the same for your hogs. For full information address:

The Canadian Hog Motor Co., Ltd.

ELMDALE CHESTER WHITES
Having purchased some A.I. breeding stock, write for my advertisement in a short time.
John Pollard, R. 4, Norwich, Ontario

for "assisted nominations." (3) Except in the case of "assisted nominations," no reduction in the amount of the service fee usually charged is to be made by the societies receiving grants. (4) The stallions hired by societies receiving grants must be registered with the Government through its Board of Agriculture; and the mares for which assisted nominations are given must be approved by the society as suitable for the purpose. The value of an assisted nomination is not to exceed half the amount of the service fee.

BOARS.

Grants will be made to societies only. The amount of the grant for a boar will be \$3 per annum. A society may provide a boar for the use of its members: (a) By purchasing a boar and placing it in the custody of one of its members; or (b) by arranging with an owner of a boar—whether he be a member of the society or not—to place the boar at the disposal of the society on terms agreed between them.

If a society arrange to purchase a boar, it will be necessary to provide, by means of contributions from members, or a donation to the society, sufficient capital to defray the cost of the purchase of the boar, and also an annual income sufficient to cover the insurance and keep of the boar, the salary of the secretary of the society, the general expenses of management, and sinking-fund charges in respect of the depreciation of the boar sufficient to provide for the replacement of the boar when necessary. If a society arrange with an owner of a boar to place a boar at their disposal, they must guarantee the service of not less than twenty sows belonging to their members. The owner of a boar will be entitled, under these circumstances, (1) to a payment from the society of a sum not exceeding \$3 per annum, as may be agreed upon; (2) to a fee of not less than one shilling for each sow served; and (3) to have not more than six of his own sows served by the boar. If a society arrange for the provision of a boar in this manner, the grant made to them by the Government, together with a nominal subscription of, say, 6d. per member, would probably suffice to defray all expenses, as the owner of the boar and not the society will be responsible for the keep, insurance, and care, etc., of the animal.

MILK-RECORDING SOCIETIES.

Grants will be made annually to societies whose members record the milk yield of their dairy cows not less frequently than once a week, and who employ a recorder to pay surprise visits to check, at least once every six weeks, the records taken. The amount of the grant will be half the expenses of the society up to £30 in respect of each whole-time recorder employed for every twenty herds in the possession of members of a society. G. T. B.

Gossip.

BLAIRGOWRIE SHORTHORNS.

1915 is surely expansion year in the noted Blairgowrie herd of John Miller, Jr., of Ashburn, Ont., for just now roaming in luxurious pasturage is an exceptionally choice lot of two-year-old heifers whose remarkable thickness and balance of flesh is up to a standard seldom seen. Coupled with this is gilt-edged breeding, the vast majority of them have imported dams or grandams, and nearly all are sired by that noted Cruickshank Butterfly bull, Imp. Bandsman, and are safe in calf to the great sires, Imp. Right Sort and Imp. Raphael, two Toronto prizewinners, and two of the best individuals and breeding bulls in Canada. On blood lines, these heifers represent the Village Girls, Orange Blossoms, Roan Ladies, Lady Ann, Jills, Cranberrys, Minas, Lovelies, Cecilians, Meadowflowers, Rosenarys, and Joyces. One of them whose breeding is particularly choice, is out of Imp. Joyce, and is sired by the great Uppermill Omega (imp.). Parties looking for high-class Shorthorn females should visit this herd. Mr. Miller has also on hand a large and choice flock of Shropshires that in general excellence are up to the usual high standard maintained in the Blairgowrie flock.

ANIMAL DIP AND INSECTICIDE FOR LIVE STOCK AND POULTRY

Make Live Stock Pay Better

Only healthy live stock pays. Beef, pork and mutton lose weight and quality and may even be a total loss if disease gets among them. Kill all disease germs by using Zenoleum as a disinfectant and germicide around the pens, stalls, barns and poultry houses. Write us for copies of letters from the greatest breeders and live stock authorities on this continent. Zenoleum kills lice, mites, maggots, sheep ticks; cures mange, scab, sores and removes stomach and intestinal worms and as a preventative is worth fifty times its price. Safe and sure; will not burn or poison. For live stock protection keep Zenoleum handy.

ZENOLEUM
MADE IN CANADA

There has been no trace of disease at, or following, the Canadian Live Stock Shows at Guelph, Ottawa and Toronto, where the management used Zenoleum exclusively. Used and recommended by Canadian and United States Agricultural Colleges. It is wise to their methods. OUR GUARANTEE: If Zenoleum is not what you think it ought to be, your money back. Home-made mixtures are more expensive, dangerous and seldom really effective. Stick to the tested standard—Zenoleum. Ask your dealer, or send us \$1.50 for enough for 80 gallons, carriage prepaid. We ship from a pint to a barrel. Write for 64-page book, "Veterinary Advertiser." Free if you mention this paper.

ZENNER DISINFECTANT CO.
332 Sandwich St. E., Windsor, Ont.
