Case 10-18 Kerosene Tractor

To avoid confusion, the J. I. CASE THRESHING MACHINE COMPANY desires to have it known that it is not now and never has been interested in, or in any way connected or affiliated with the J. I. Case Plow Works, or the Wallis Tractor Company, or the J. I. Case Plow Works Co.

## We Could Build Case Tractors Cheaper— But They Would Cost You More

Built into every Case Kerosene Tractor is a high degree of immunity from frequent repairs, replacements and undue wear. These items and the delays they cause are expenses you must add to the first cost of any tractor designed and built less excellently than the Case.

It would cost us less to use iron castings in many places instead of the drop-forged steel we do use; but it would cost you far more for replacement of broken and worn out parts.

We could save a lot by using cast-iron open gears instead of cut steel gears running in oil-tight housings; but later on, you'd pay many times the difference for extra parts, and lose still more by delay.

Thus, all through, in design, material, workmanship and equipment, we build Case Kerosene Tractors

the best that they can be built instead of building cheaply and "passing the buck" to you.

Case Kerosene Tractors are built in a standardized design of three sizes: 10-18, 15-27 and 22-40 h.p. respectively. Your proper choice depends only on your power requirements. They are uniform in dependability, durability and simplicity of operation and adjustment.

Back of Case Kerosene Tractors is the great line of power farming machinery built by the J. I. Case Threshing Machine Co. Of this line, each unit is unexcelled in its class; within this line is equipment for keeping a Case Kerosene Tractor profitably employed throughout the year. Write for free catalog descriptive of Case Tractors, and listing our great line of tractor drawn or driven machinery.

Dept. DP-4, 345-9 Dufferin St., Toronto, Ontario  
Making Superior Farm Machinery Since 1842

RICHES-PIVER  
**CAL-ARSENATE**  
(Arsenate of Lime)  
Paste and Powdered

An insecticide of greater and speedier poisoning power than Lead Arsenate and Paris Green, and much cheaper.

Only arsenical poison that can be safely incorporated with soluble sulphur compounds.

Very fine powder, being unusually bulky. Remains in perfect suspension in the tank. These facts ensure maximum covering capacity.

Guaranteed analysis on every package.

Write for Spray Booklet.

Other J. C. Co. Sprays:

LEAD ARSENATE  
BORDO ARSENATE  
BORDEAUX MIXTURE  
BORDEAUX DUST
