farm buildings is very different from paint that merely covers them. Most of the ordinary paints are made only to sell and cover. If that is not a fact—then why are all ordinary paints made bulky and heavy with adulterating compounds? Adulterated paints are cheap and they look it. Don't use ordinary paints unless you have nothing else to do but paint all over again in about a year.

MARTIN-SENOUR PAINT

is positively pure paint. It is made only of pure White Lead, pure Oxide of Zinc, pure Linseed Oil and necessary coloring ingredients and dryers. That's why Martin-Senour pure paints will preserve and save your farm buildings from sun and storm. And that's why two gallons of Martin-Senour Pure Paints will go as far as three gallons of ordinary adulterated paints. This pure, honest paint looks better, lasts longer, and saves your buildings and a lot of trouble. Insist on your dealer giving you Martin-Senour Pure Paint. If he does not sell it, send us his name on a postal and we will send you a book—The Home Beautiful—free. Write today.
