

Straws Show The Way The Wind Blows

From tinware to the box in which the machine is shipped, everything about

THE NEW IMPROVED DE LAVAL SEPARATOR

is of superior material, workmanship and finish. Every littlest detail is given utmost care by trained mechanics, working under ideal conditions only possible in the most modern and complete separator manufacturing plant in the world.

But the company's care does not cease with the completed machine. It follows it to the actual buyer, protecting him in the uninterrupted usefulness of his De Laval separator through a world-wide organization comprising branch offices, shops, local agencies and traveling experts.

More than a million in use. Used exclusively in creameries and model dairies. Write for catalog.

The DE LAVAL SEPARATOR CO.

Brantford Roofing

passed the experimental stage many years ago

FULLY fifty per cent. of the concerns manufacturing ready roofing have come into existence during the last few years. Their products are therefore in the experimental stage. Their brands have not been in use long enough to determine their actual value.

Now, Brantford Roofing passed the experimental stage many years ago. It is made by a company which was one of the "pioneers" in the roofing industry. It has a record of many years of satisfactory service behind it. It is worthy of your FIRST consideration when selecting a LASTING roofing material for your home or barn.

On request we will send you a list of those who have roofed their buildings with Brantford Roofing in your locality. Then you can see and learn for yourself how satisfactory Brantford Roofing has proved with your neighbors.

You have your choice of three styles of Brantford Roofing—ASPHALT (silicia finish), RUBBER (smooth finish), CRYSTAL (mineral surface). All three styles have a 99 per cent. pure Asphalt saturation.

Get our Free Roofing Book and Samples. Then choose the style you decide is best adapted to your particular job.

PREPARE NOW TO MAKE EVERY MINUTE COUNT AT HARVEST TIME

FOR you must make every minute count then to be sure of getting the full profit from your acres. Smooth, rapid, uninterrupted work is a necessity when the grain is ripe for cutting. Every delay due to a slow, inefficient broken-down machine will rob you of a part of the reward you have a perfect right to expect.

You have used great care in preparing the ground—sowing the seed—caring for it while it is growing.

Don't, through lack of foresight now, run any risk of making valueless at harvest time the hours of labor spent in preparing for it.

Be prepared to get all the crop with a McCormick.

Your grain may be tangled or down.

It does not matter, a McCormick Binder will pick it up quickly and bind it in the best possible shape.

The McCormick Binder is made to meet the requirements of the Canadian farmer.

It does so as no other machine does. It has stood the test of time. Its light draft, strength and uniform good work will permit you to save all your grain with the least labor on your part.

The McCormick line embraces a large number of other machines just as valuable as the binder, such as drills, tillage implements, gasoline engines, cream separators, wagons, hay presses, manure spreaders and motor vehicles.

Every McCormick machine is the superior products of expert designers and skilled workmen.

Look over your machines today. See what you need to properly handle the harvest this year. Then call on a local dealer or write direct for further information. Take the step now that will insure your getting all the profit from your harvest.

Varnish Stain Does It

A CHANGE
OF SCENE

NIGHT—

Scratched,
worn table
—showing
where hot
dishes spotted it.
Not old perhaps, but
looks old.

Chairs marked by
usage. Won't "look
right."

MORNING—

A polished, glistening surface to table.
All marks gone. Looks new as when
bought. Chairs, bright, smooth, new.

You can do it. Ask for STEPHENS
VARNISH STAIN.

Write us for descriptive booklet No 20 and
handsome color cards.
