

EATON'S BIG GANG PLOW

115.00

IMPERIAL 12 AND 14-IN. BIG GANG PLOWS

IMPERIAL 12 AND 14-IN. BIG GANG PLOWS

The right plow for Western Canada. The **IMPERIAL** is strong, light draft, easy on horses and man, and a plow that gives the land a good clean turn.

The **IMPERIAL** is a double-bail plow with every adjustment necessary to meet the different conditions of the ground. The bail works in well-placed and wide bearings, and the levers and foot lift are so placed that the operator can instantly throw his weight while sitting quite naturally on the seat. The Landside is strong and well shaped. The Frog is heavy (we have never known one to break.) The Throat Room on the **IMPERIAL** Gang is 21½ inches (large enough to save you any aggravation). Wheels, 31-inch land wheel; 23-inch front wheel; 20-inch rear wheel. The Frame is made heavy to stand up and give real service under all field conditions. Shares, the **IMPERIAL** high-quality soft-centre shares are used. This is the share for use in Western Canada, as it is 3-ply with a soft steel centre which is a very satisfactory construction.
