The thaw looks as if it were going to  
give us an early spring. It is squalling  
disagreeably anyway.

George H. has made the noise of a  
new cutter and driver.

Our new postmaster, Martin Mackins,  
is getting things in good shape. The  
store looks like a place of business now.  
This is a splendid place for a country  
store.

Mrs. John Duffy and daughter Stella,  
have returned to their home in Bel-  
more. She has been waiting on her  
father, Mr. John Mackins, who has been  
sick. He is improving nicely and is  
able to be around again.

The most of the farmers from here  
took in the Farmers' Institute meeting  
at Belmore on Saturday. They report  
having had a good time. If more time  
were spent in that way it would be a  
great benefit to the farmers.

What is wrong with the young men  
of McIntosh who got leave to go on  
with a tea meeting? Do not be dis-  
couraged boys, as McIntosh always had  
a good turn out, and this time will be  
no exception.

## Walkerton

John Schneider of Mildmay was in  
Walkerton on Tuesday of this week.

The Frost Stock Company held the  
floor down in the town hall all last  
week. They are a pretty good com-  
pany and had a good attendance each  
night.

The Farmers' Institute meetings in  
the town hall on Monday were a  
success. The hall was filled at both  
evening and afternoon sessions. There  
was a musical program in the evening.

Lucknow hockey team drove over to  
Walkerton last Thursday to have a  
game with the Walkerton boys. The  
Walkerton team was victorious by one  
goal.

Mr. Turner of Brant, the Christian  
Science man, was up before Mr. Mc-  
Namara on Tuesday, charged with kill-  
ing the pigs. Mr. Turner will be tried  
by a higher court.

There will be a skating race on  
Friday of this week. Several skaters  
from Toronto and other towns are  
expected.

Mr. J. W. Bundy has bought Mr.  
Hugh Birss' store, and will move into it  
in a couple of weeks.

pleased with the entertainment.

Mr. John Fry had a grand wood bee

## Agricultural Notes.

Along a certain clay road in Pennsyl-  
vania there was an oil pipe which  
sprang a leak and spouted a consid-  
erable quantity of oil over the road. It  
was noted that on the spot where the  
oil had spilled the roadway showed a  
marked improvement over the parts of  
the road where there was no oil. The  
explanation of this was that the oil  
formed a water-tight covering to the  
road, and the earth beneath being dry,  
no ruts or mud could form and the road  
became good.

This led Mr. M. King, an engineer in  
the employ of the United States Gov-  
ernment, to make an experiment. This  
experiment was conducted last Novem-  
ber with crude oil. A newly graded  
piece of dirt road was coated with oil,  
distributed by means of an improved  
sprinkler over a strip about 12 feet wide  
by 200 feet long. A second part of the  
road was sprinkled a little higher, mak-  
ing about 500 or 600 feet in all, and  
eight barrels of oil were used in the  
experiment. The day after the oil was  
applied and before it had time to be ab-  
sorbed a heavy rain fell. The road was  
examined during the rain and where  
oiled it was evident that the dirt be-  
neath the surface was still dry and re-  
tained its supporting power, while on  
each side of the oiled portion it was  
muddy and rutty. A heavy frost, with  
the temperature at zero, followed the  
rain. The oiled portion after this, was  
perfectly smooth, and the wheels made  
on it a muffled sound that showed the  
dirt beneath the surface was unfrozen  
and dry, while the unoiled portion was  
cut up with ruts one to two inches deep  
and frozen rough and hard. Crude oil  
costs from 60 to 80 cents per barrel at  
the wells in the United States, so that  
its application to a roadway is not a  
very expensive affair.

## COUNTY AND DISTRICT.

At a municipal election in Parkhill a  
deputy returning officer, Mains, refused  
to accept the ballot of William Wilson  
because he refused to take the tenant's  
oath. Wilson was put down on the  
voters' list as a tenant, but since the  
list was made up he has become an  
owner, and wanted to vote as such.  
Wilson brought action against Mains  
for the \$400 penalty provided by the  
statutes and was successful before Chief  
Justice Armour.

About noon last Tuesday the house  
in Riversdale owned by D. Weatherley,  
and occupied by Mr. Kempel, tailor,  
was discovered to be on fire. There  
being no appliances to fight a fire of  
this kind the house was burned to the  
ground. The tenant managed to save  
his household goods from the devouring  
element so that the loss, to him, is of  
little consequence. We have not heard  
whether or not, the building was insured;  
but as it was a small one the loss can-  
not be very great.

There is one Indian woman who is a  
practising lawyer in the United States.  
She is Miss Laura Lykins, a half-breed  
Shawnee woman. She graduated from  
the law department of the Carlisle,  
Penn., Indian School in June last, and  
then went to Oklahoma City, where  
she has been admitted to the bar, and  
is said to be extremely popular. She is  
twenty-eight years old.

Two-cent postage is a big saving in a  
month to business men who have con-  
siderable correspondence, but it means  
a big loss to the revenue of this country.  
During the month of January, cheap  
postage has caused a decrease of \$69,  
000 in revenue. Newspaper postage  
does not begin to meet the loss occa-  
sioned by the introduction of cheap post-  
age nor was it expected it would. The  
P. O. department has always shown a  
deficit, though Hon. Mr. Mullock  
deserves credit for reducing that deficit  
during the past two years. A great  
deal of correspondence was held back  
in the latter part of December to take  
advantage of the cheap postage in Jan-  
uary, it is not likely every month of the  
year will show such a large decrease to  
the revenue from the sale of postage  
stamps as the first month.

—A verified record—1,016 persons  
died in one month by Dr. Chase's  
Family Remedies. All doctors will  
recommend them.

For Piles, Eczema, Salt Rheum, Hip  
Wounds, and all skin diseases Dr.  
Chase's Ointment is a positive cure.  
It is recommended by Dr. C. M. Welch,  
of the American Journal of Health.

The elections in New Brunswick are  
over and have resulted in almost a  
clean sweep by the Government. The  
Conservatives have only succeeded  
in carrying four of the constituencies  
out of a total of forty-six. The Hon.  
G. E. Foster challenged Mr. Blair, the  
Minister of Railways, to a trial of  
strength in the Provincial election and  
the challenge was accepted. An igno-  
minious defeat for Mr. Foster is the re-  
sult and his chances of leadership of  
the Conservative party delayed indefi-  
nitely. Sir Charles Tupper's wholesale  
renunciation of the Dominion Liberals  
does not seem to have any effect on  
Provincial elections.

Religious excitement runs high in the  
northern part of the township of Brant  
at present. Some time ago a Miss Leg-  
gett became a convert to Divine Heal-  
ing. She visited the headquarters of  
the sect in Chicago, where she claims  
to have received health and such inspi-  
ration that she became an apostle of the  
new doctrine, and is carrying on an  
active campaign in propagating it. A  
couple of years ago one of the converts  
went into hog raising on an extensive  
scale. He put up new buildings, pur-  
chased some of the best breeding sows  
and was making the business a profit-  
able one. But the Divine Healers have  
adopted that part of the Jewish belief  
which classes the hog as an unclean  
animal, cursed of God and unfit for  
food. When the convert returned he  
received "the light" he drove his pen of  
valuable hogs to the bush and shot  
them, leaving their bodies there to rot.  
Another neighbor had paid several  
years on an insurance policy, but,  
believing that providing for the future  
in this way showed a lack of faith in  
God, he threw his policy into the fire  
and burned it. These are only some of  
the peculiar doings of the sect, who  
profess a greater degree of holiness  
than is vouchsafed to the ordinary  
Christian. It is said they class minis-  
ters, doctors and druggists in the same  
class as the devil.

Tonawanda, N. Y., Feb. 11.—A shock-  
ing discovery was made at a cemetery  
two miles north of Pendleton, when the  
body of James Rigley was exhumed for  
the purpose of holding an autopsy to  
discover the cause of his death. The  
glass covering of the casket was broken  
and the distorted features of the corpse  
and position of the hands and feet, to-  
gether with a number of blood spots on  
his face, showed that he was buried  
alive.

Mr. Rigley was undoubtedly interred  
while in a trance, it is contended by  
physicians who viewed the body this  
afternoon. On Wednesday of last week  
after a short illness, he apparently died,  
and Dr. Monterey, the family physician  
declared that he was dead. Prepara-  
tions for the funeral were immediately  
begun, and relatives of the family  
living in the neighboring towns were  
notified. On Saturday the funeral was  
held from the family residence, near  
Pendleton, and it was attended  
by many farmers. During this time  
the supposed corpse showed no signs  
and no one thought for an instant  
Mr. Rigley was not as dead as he  
appeared.

A few years ago Mr. Rigley took  
several insurance policies on his  
life and it was partly for this reason  
it was decided to hold an autopsy to  
ascertain beyond a doubt the exact  
cause of his death. But for this, the  
discovery of the terrible mistake that  
had been made, would never have be-  
come known.
