Alderman Martin Riepert killed a snake alongside the railway track here on Friday last.

Mr. Alex Ste. Marie, of the Howick-Carrick town line, brought in on Tuesday a load of what we would judge were the best hogs which have passed over the scales for some time. There were 15 and they weighed 3,130 pounds. Porkers like those are few and far between these days.

—Mr. Jacob Maurer has received the collector's roll, and be able to render unto Caesar that which belongs to Caesar when he calls. The rate this year is 13 mills on the \$, same as last year. Of this amount, only 3½ mills on the \$ is controllable by the council, the county rate, 2 mills, is demanded and fixed by the county council. The school rate, 6½ mills, is fixed and demanded by the school board, and the council dare not say a word.

DISTRIBUTION OF SEED GRAIN.

By instruction of the Hon. Minister of Agriculture a distribution is being made this season of samples of superior sorts of grain and potatoes to Canadian farmers for the improvement of seed. The stock for distribution has been secured mainly from the Experimental Farms at Indian Head, Sask., and Brandon, Man. The samples consist of oats, spring wheat, barley, Indian corn (for ensilage only) and potatoes. The quantity of oats sent is 4 lbs., and of wheat or barley 5 lbs., sufficient in each case to sow one-twentieth of an acre. The samples of Indian corn and potatoes weigh 3 lbs. each. A quantity of each of the following varieties has been secured for this distribution:

OATS—Banner, Wide-Awake, White Giant, Danish Island, Thousand Dollar, Improved Ligowo, all white varieties. Black oats are not recommended for general cultivation, a few samples, however, are available which can be sent if specially asked for.

WHEAT—Red Fife (beardless); Preston Pringle's Champlain and Huron (early bearded sorts); Percy and Stanley (early beardless varieties).

BARLEY—Six-rowed—Mensury, Odesa, Mansfield and Claude. Two-rowed—Standwell, Invincible, Canadian Thorpe and Sidney.

INDIAN CORN (for ensilage).—Early sorts—Angel of Midnight, Compton's Early and Longfellow; later varieties—Selected Leaming, Early Mastodon and White Cap Yellow Dent.

POTATOES—Early varieties—Early White Prize and Rochester Rose. Medium to late varieties, Carman No. 1 and Late Puritan. These later varieties are as a rule more productive than the earlier kinds.

Only one sample can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat, barley, Indian corn or potatoes. Lists of names from one individual, or applications for more than one sample for one household, cannot be entertained. The samples will be sent free of charge through the mail.

Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 15th of February, after which the lists will be closed, so that samples asked for may be sent out in good time for sowing.

Sir Wilfrid Laurier was presented on his 66th birthday with an automobile by Lord Strathcona.

To reap the best results from your poultry, always starve for twenty four hours before killing, kill by bleeding at mouth or throat, dry-pick while warm, leaving no feathers on whatever. Take the heads off geese and ducks, and leave them on turkeys and chickens. If our readers will follow these instructions they will receive the top prices, providing of course that their fowl is in good condition.

—Joseph Anderson of Cargill, assistant burner at the Owen Sound Portland Cement Company's plant at Shallow Lake, was so badly injured by being caught in a belt shortly after 7 o'clock on Sunday morning last that his death followed about half an hour later. The unfortunate man had just come on duty and was in the act of throwing on the belt when a heavy pea-jacket which he was wearing caught on the shaft and he whirled around several times. His left arm and right leg were broken in several places, besides having his head badly bruised and lacerated. His death was directly due to the shock following his injuries. He was 28 years of age and leaves a wife and two children.

The stationery printed at this office is giving the best satisfaction. Last week we printed 1000 statements for a man and by their aid collected a small fortune. Two months ago a man bought of us some note paper and envelopes to use when writing to his sweetheart and now he is married. Another young man forged a name on a cheque printed at this office and he is in the penitentiary. Another young man stole some of our paper to make cigarettes with—he is dead. A young lady bought some of our paper to curl her hair on and now she has a beau.—We have only a few packages of this kind in stock. By using our stationery a person can collect old account, tell fortunes, make rain, change the color of the hair, have the teeth extracted without pain, find out the name of the future husband or wife, be successful in business, triumph over enemies and get elected to office.—Exchange.
