## SPORTS IN WAR TIME.

Bomb-Throwing Becomes an Event at Athletic Meets.

A new event is being added to the list of athletic contests participated in at college track meets. It is grenade throwing. Dummy grenades have been placed on the market which are exact duplicates in weight and appearance of the deadly hand missiles employed by our men in the trenches. In recognition of the fact that correct throwing may be something more vital than a mere accomplishment for our young men, college coaches are giving it a place along with shot putting and hammer throwing, indicating that even our sports are being affected by the world war.

**GIRLS! LEMON JUICE IS SKIN WHITENER.**

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

## HORSES IN WAR.

Certain Work in Modern Warfare Can Be Done Only by Horses.

There seems to be a rapidly increasing opinion that the day of the horse in war has passed. The nearly four years of warfare in Europe has shown this to be an entirely erroneous idea.

On the Western front, where the road system is probably the best in the world, mechanical traction has not been able to displace the horse. In general, it might be said that the line between mechanical and horse traction on a battlefield is the extreme limit of the enemies' artillery fire when any heavy action is going on. The horse is used on the battlefield and the mechanical traction in the rear of it.

Of course, during calm periods, mechanical traction is used along the rear part of the battlefield. There are various reasons for this division. Probably the main one is that batteries frequently must be placed and supplied in positions some distance from a road.

If the army is operating on conquered ground, this ground generally is so cut up with old trenches and shell holes that horse traction, and only horse traction, is practicable. Frequently the mud is so deep that mechanical traction is helpless. In many cases no wheeled carriages of any kind can move. In such cases pack animals have to be used.

So well are these conditions recognized that, in spite of the tremendous weights of heavy artillery material and the slowness and difficulty of moving them by horse traction, it is considered that only half the heavy batteries should have mechanical traction.

An army must still have animals for all its cavalry, the usefulness of which is far from disappearing; it must have horses for all its light field artillery, half its heavy field artillery, and all its regimental and divisional supply trains.

Incidentally, every regiment of infantry must have several hundred horses and mules. The more the question is examined, the more two facts stand out. The first is that certain work in modern warfare can only be done by horses. The second is that the number of horses needed for armies which are counted by the millions must be counted by the hundreds of thousands.

## SWISS WATCHMAKERS CLOSE.

Demands of Labor and Export Conditions Force Action.

Many watch manufacturers have closed the doors of their shops, says a Bernese despatch. Organized labor demanded higher wages, giving the higher cost of living as a reason. The manufacturers are unable to pay higher wages, for export facilities are diminishing rapidly and it is almost impossible to obtain certain raw materials. The men employed as watchmakers probably will find remunerative work in munition shops, but it is feared that the Swiss watch industry will be ruined by war conditions and never recover from the blow.

Since soap is soaring, even if you have never done it before be sure now, to put all bits of laundry soap into a wire shaker and all bits of toilet soap into a small square of cheese cloth. This enables you to use every atom of soap.

ANY CORN LIFTS OUT,  
DOESN'T HURT A BIT!

No foolishness! Lift your corns and calluses off with fingers—it's like magic!

Soft corns, hard corns, soft corns or any kind of a corn, can harmlessly be lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority.

For little cost one can get a small bottle of freezone at any drug store, which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

This announcement will interest many of our readers. If your druggist hasn't any freezone tell him to surely get a small bottle for you from his wholesale drug house.

## A Field in Flanders.

[Extract from a letter from the front: "I saw a few wind-flowers the other day, and a vast meadow full of kingcups, and that was enough to make me happy for weeks."]

There is a field in Flanders  
Where yellow king-cups stand;  
Like fair princesses clad in gold  
Their joyous court they proudly hold  
In the gay meadow-land.

There is a wood in Flanders,  
A little shimmering wood,  
Where wind-flowers sway among the grass  
And smile upon you as you pass,  
As country maidens should.

There is a bank in Flanders  
Where celandines a-blow  
Lift up their shining heads and peer  
To see their lovely image clear  
In a bright pool below.

And you who go in English fields,  
Oh think not that our days  
Are wholly dark or wholly ill,  
For there are flowers in Flanders still  
And still a God to praise.

—R. F.

## Tractors Still Available.

The first thousand Fordson tractors purchasable from Henry Ford and Son by the Canada Food Board have been sold to Canadian farmers. Farmers who wish to secure such tractors in future should place their orders with the Department of Agriculture in their own Province, and until further notice such orders will be handled in the same way as the first thousand.

It is false economy to use cheap, inferior tea, for it yields so poorly in the teapot. Use only the genuine Salada to secure the maximum number of cups to the pound and, in addition, you will enjoy the unique flavor.

## French Children Draw Food Posters.

School children in the Paris schools have been invited to submit designs for food restriction posters, says a recent Paris despatch. Among those accepted is one by a little girl representing a group of children gazing at a shop window filled with confectionery and cakes. "We can do without them" is the legend below.

## Minard's Liniment Co., Limited.

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good. One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

## Aunt's Joy.

"I told you last Sunday, children," said the Sunday-school teacher, "that you should all try to make someone happy during the week. How many of you have?"

"I did," answered a boy promptly. "That's nice, Johnny. What did you do?"

"I went to see my aunt, and she's always happy when I go home again."

## Food Saving in Hawaiian Islands.

The Red Cross is \$1,000 richer as a result of the first reported violation of Food Administration rules and regulations in the Hawaiian Islands. Ah Leong, a Chinese merchant in Honolulu, has been allowed to suspend business for one week, and donate to the Red Cross \$1,000 in lieu of further action on a charge of violating the "fifty-fifty" rule in selling flour. On the first offense several weeks ago the Chinese pleaded ignorance of the law and was allowed to continue business. About three weeks later he made another sale of flour without the required amount of substitutes. J. F. Childs, Federal Food Administrator for Hawaii, reports that action in this case has had a very salutary effect upon other Oriental merchants, and that practically all of them are now lined up solid with the Food Administration.

## Motion Picture Fishing Voyage.

The Canada Food Board is circulating a film taken on board a Pacific trawler from Prince Rupert, showing how Pacific flat-fish are caught and handled, under the auspices of the Board, for distribution in the Western Provinces, as a reasonably priced substitute for meat.

**A Prayer.**  
Somewhere across the infested sea,  
Serving the cause of liberty,  
Dear Lord, is my brave son.  
I know not how he fares to-night,  
But keep him ever in Thy sight,  
For I have but the one.

Thou gavest two to bless my life,  
But one fell early in the strife—  
My first-begotten son.  
He with his comrades marched away,  
And then a message came one day—  
Dear Lord, I have but one.

Then, while so sorrowed and bereft,  
Though only he to me was left,  
I could not say him nay,  
Who urged that duty bade him go—  
His country called, he said, and so  
How could I bid him stay?

But oh, dear Lord, 'tis hard to bear,  
With not another child to share  
The hearth when day is done!  
I can but kneel to Thee and pray:  
Be with him through the hellish fray  
And keep Thou safe my son!

I know the cause is good and true,  
I know that suffering must ensue  
Before the fight is won.  
But bear with me, O Lord, this night;  
Be Thou my solace in my plight  
And guard my only son.

## HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience.

If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.
