Attention Subscribers!

We have stated several times that the increasing cost of production of newspaper is causing many weekly publishers to increase their subscription rate. Nearly every publisher of a paper issued twice a week has already advanced the subscription price and we hereby give timely notice to all of our intention to do so.

Every subscriber who pays in advance will still receive "The Advertiser" twice a week at the original price of one dollar a year. We do not intend that the one who habitually neglects to pay for his local paper shall get it at a low figure as the one who pays cash. The cash business is growing so rapidly among wholesale dealers and home merchants that the person who gives long credit cannot compete with the other fellow who has the money he earned right in his hand to pay his bills.

On and after June 30th, 1913, the price of "The Advertiser" will be strictly as follows:—

In advance per year \$1.00
When not in advance but paid during the year 1.25
After end of year, per year 1.50

United States Subscribers
One year in advance with postage 1.50
One year not in advance 1.75
Two years or more in arrears 2.00

Subscribers who are now in arrears can settle their account in full if the money is received by us before the end of June at the rate of one dollar a year, for any part of Canada, or one dollar and fifty cents per year in the United States. This will give every subscriber plenty of opportunity to pay up their account in full at the former rate and renew for a full year in advance without any increase in cost. Those who neglect to do so will find it impossible to settle with us except at the rates quoted herewith. We give all fair notice and will treat all subscribers alike.

After July 1st, a large number of old subscription accounts, due for 3 years or more will be left for collection at the \$1.50 per year rate, or \$2.00 in United States. Those who wish to avoid unnecessary expense can do so by remitting us the amount due within a month.

The label on each paper shows to what time the paper is paid; 12 on the label means paper is paid to Jan. 1st, 1912, and the subscriber owes for two years to Jan. 1st, 1914.

Remit by post office order or postal note in preference to enclosing bills or registering letters.

Destruction Fire at Kingsport

A bad fire occurred at Kingsport on Monday afternoon resulting in the total destruction of the fine residence belonging to L. N. Cox, a native of the town. There was no insurance on the property.

The blaze commenced about two o'clock and before any effort to check it could be made, the whole building was enveloped in flames. All attempts to subdue the fire were unavailing and within an hour the residence, out buildings and barn were a mass of ruins.

Mr. Cox has for many years conducted a private hotel for tourists in the summer months. His building was regarded as one of the finest in Kingsport and was exceedingly patronized by these travellers. In the course of the season two or three hundred tourists were accommodated at the hotel and its destruction will be a loss to Kingsport in many ways. Deep sympathy is expressed for the loss suffered by Mr. Cox who has for some time been in ill-health.

The fire broke out a few minutes before the D. A. R. train left Kingsport for Kentville and the train was held for a short time, the crew and passengers assisting in the attempts to quell the flames. It was soon seen there was no hope for the building, all directed their efforts towards saving the nearby house belonging to Conductor Dickey, which was several times in danger. This they accomplished after a hard struggle.

Everything in Mr. Cox's house was burned, including the furniture and general household effects. A valuable horse belonging to Conductor Dickey was also destroyed.

A Comparison

Calgary six years ago had a population of about 12,000, 4 railway lines, no street cars, very limited natural resources as Calgary is in the foot hills, yet it has grown to 60,000

Moose Jaw To-day

A population of over 25,000, 5 railway lines, 4 more almost completed, a modern street car system, an amply supply of coal, important divisional point of C. P. R. Terminal of "Soo Line."

Lots sold in Calgary six years ago for \$200, today are worth \$2,500. Lots in Moose Jaw to-day are \$150 to \$300

Therefore

With twice the population and over twice the railways, together with the immense wheat belt, Moose Jaw should accomplish in next three years what Calgary did in last five.

Our representative, MR. JOHN SHEPHERD will be pleased to give you all information of Moose Jaw, Estevan, Battleford and Young Sask.

FOR SALE—A few thousand strawberry plants of the best varieties. JAMES E. EATON, Lower Canard.
