which they had contracted to get out by a certain date. Some time before the date the builders saw that they would not be able to complete it in that time working ordinary hours and the people of Collingwood woke up one Sunday morning to hear the sound of riveting and hammering. The builders had good reason for quit-ting early that day and have good reason for not trying the same thing again.

Then again it is purely selfishness that wants Sunday cars, purely selfishness that wants Sunday sport, Sunday newspapers, Sunday barroom, etc. The Sunday newspaper is by no means the smallest evil of these, in fact it is one of the greatest. Sunday is a day to be away from your business and everyday life but the Sunday newspaper brings you back to all these and defeats the object of the Sabbath.

Paying Business For Canadians

This Country Will Soon Control the Pulp and Paper

EVERY FAJILITY IS HERE

ome Facts About the Atlantic Pulp and Paper Company's Advantages.

If there is one business more than another which Canada may reasonably hope to obtain a world's monopoly of, that businesss is the making of pulp and paper. The pulpwood forests of every other country except Scandina-via have already been depleted, and via have already been depleted, and those of Scandinavia are not nearly so large as Canada's, while it is common knowledge that the pulp procured from the Norwegian forests is much inferior to that made in Canada.

A number of business men have recognized Canada's position of advantage in this regard and have organized the Atlantic Pulp and Paper Company Limited, with an authorized capital

limited, with an authorized capital of \$3,009,000. At the present time \$350,000 of 7 per cent. compulative preference stock is offered to the public for sale at par, payments to be made in the usual instalments.

in the usual instalments.

The Board of Directorate contains interested in the company are already congratulating themselves because of the fact that since the prospectus of the company was issued a few weeks ago, two offers for the purchase of the ompany's entire output of raper have been made. The offers are responsibly backed, and were not solicited. Either offer, if accepted, would pay prefer-red stock dividend, fixed charges, and leave a balance sufficient to pay a large dividend on the common stock, barring unforseen contingencies, which can well be taken care of by the saw mill and sulphite pulp, neither of which are included in the forego-

ing offer.

The advantages possessed by the company are: 1. An unlimited wood supply, near New Richmond, on the Baie des Chaleurs, where the mills are to be located; the limits contain about lature granting the Lake Eric com193,200 acres, and the wood is mainly
pany certain concessions. "If the Lake Erie company are given these concessions, and the bill passes," said the Mayor this morning. "all the agreements between the Feli-Little Cascapedia River is adequate and cheaply obtainable. 3. Clear and Huron company."

Mr. Wilson left for Toronto last And the manager, Mr. McIntyre, has had over 20 years' experience as a

practical pulp man. It is predicted that pulp and paper can be made more economically at New Richmond than anywhere else in America. Sutherland and Cameron, brokers, Ottawa, or the National Trust Company will furnish forms of application for stock.

AMATEUR MINSTRELS

Those who attended the minstrel show given last evening in aid of the companion Maple Leaf of the Independent Order of Foresters in the I. O. F. Hall were highly pleased with the performance of the Pritchard minstrels. From the opening chorus to the end of the performance the large crowd which filled the hall were kept in a continuous roar of laughter. The troupe consists of Noah and George Pritchard, end men; Ida Prit-chard, Vern. Pritchard, David Kelley, Dolly Pritchard, Mildred Middleton and Verna Lamont. None of the members are over 13 years of age and all did well. About \$40 was realized

Your Purse is Concerned

Every family has clothing to buy April; there's no escaping that necessity; new clothes are as needful to mankind as new leaves to the trees. But they're not so easy to get.

Many heads of families rather dread the new clothes season, and its sudden drain on the paternal purse. Mothers know that good clothes pay best-there's no economy in spending too little-but it takes a lot to go round.

There's where our present sale of clothing and furnishings comes in. You can buy T. & D. togs; clothes you'll be proud of; at a fourth, a third, even half below the regular price. And no regular price here was ever bigger than reasonable. See the price lists we are printing most days. They're good reading for judicious spenders.

To be sure everything is not reduced. But if the thing you want is at our regular price it's still best value in Chatham for the money. Read the list carefully.
