WHERE PEOPLE CAN GIVE AID

Insist on "Made-in-Canada" Goods—Retailer and Wholesaler Will Soon Fall in Line

Too often in the past the wholesalers and retailers of Canada have openly opposed the "Made-in-Canada" movement. Where they have not opposed it they have damned it with faint praise. Their motives in so doing are purely selfish. Very often to secure a share of Canada's trade the foreign manufacturer quotes particularly attractive prices to the dealer, prices which enable both wholesaler and retailer to extract a greater profit than usual from the sale of these goods. The foreign manufacturer is able to do this because the Canadian market is only a small part of his total market, and he can easily sell at a low profit or even at cost, in other words "dump" in this small market in order to secure control of the trade, whereas the Canadian manufacturer, for whom Canada is the whole market, cannot afford to do business at a loss to meet the foreigner's prices. This explains in great measure why wholesaler and retailer have not got behind the "Made-in-Canada" movement until very recently. The Toronto "Globe," in an article on the "Made-in-Canada" question the other day, explains the reason for the "Made-in-Canada" campaign going direct to the people on this ground. Under the heading, "Home Production or Bankruptcy," the "Globe" says: "The people in the end can force the storekeeper or the dealer to give them the Canadian-made article. But he should see, especially in the light of present conditions, why he should encourage home production without being forced to do so. Since the war broke out our exports as well as our imports have decreased with serious rapidity, and the only alternatives that confront Canada, in the face of such critical trade conditions, are increased production at home and a larger volume of business in the home markets, or bankruptcy. If Canadian-made goods are not sold in greater volume the merchant and the wholesale dealer must inevitably suffer, simply because a very large number of their present customers, people who work in factories and in offices dependent on factories, will be forced out of employment. Furthermore, regarded from a national point of view, the 'Made-in-Canada' movement, which means increased production in all departments at home, is the only method of raising the one hundred and fifty millions of interest which is due each year on the country's indebtedness.

Mr. F. J. CAVEEN

For two years, I was a victim of Acute Indigestion and Gas In The Stomach. It afterwards attacked my heart, and I had pains all over the body, so I could hardly move around. I bought the first box last June, and now I am well, after using only three boxes. I recommend "Fruit-a-tives" to anyone suffering from indigestion, no matter how acute". FRED J. CAVEEN.

PRINTING

FINE PRINTING IS AN ART

Do you know good printing?

Do you like good printing?

Do you know that it always pays to have the BETTER kind?

Perhaps you have been used to the one class of printing and know no other.

If this is so, it is time for you to have a look around and investigate and see what's what.

Do you know you do not have to go any farther away than Newcastle to obtain the BETTER class of printing.

Perhaps you have not given it a thought, but a great deal depends on the stock used in order to get a BETTER job. Investigate this.

Last, but not the least, do you know that The Advocate Job Department turns out only this BETTER class of work. If you will read on a little further, we will tell you how and why.

1st—We cater to that class of people who use only the best stock, and who know what BETTER printing is.

2nd—In order to give these customers the class of work they want, we have to keep in stock only the best grades of material. We do not handle cheap lines.

3rd—In order, again, to be able to turn out that BETTER class of printing, we employ only experienced and competent printers, who keep abreast of the times and watch the styles.

4th—What is as important as the above is equipment. If The Advocate Job Department was not fitted out in its, with the most modern machinery and the very latest in type faces, it could not handle the fast growing trade, that has developed in the past year, of turning out that BETTER-class of printing. Only the best inks are used, because this is necessary when high grade stock is used.

Now, Mr. Business Man, if you will read the above over carefully, see how your supply stands, then get in touch with this office, we feel sure you will become a customer. Give up that old-fashioned notion that first class printing comes only from the large city printing offices. As a matter of fact, the reverse is the case, and prices are invariably lower.

REMEMBER THAT WE DO ALL KINDS OF PRINTING

For commercial use, we have superior grades of Letter, Note and Bill Head Stock, at prices and quality to suit any business and any purse. Our prices range from \$2.50 to \$4.00 per thousand for Letter Heads, and from \$2.50 to \$3.25 per thousand for Envelopes. Our Envelopes are the same material as our papers, and therefore match. We are always pleased to submit samples of stock, and prices, on application.

More Business IS WHAT WE WANT

You want the work—we want to do it for you. We have just the grade of paper you want, so why not let us get together in a co-operative way and make a strong pull for increased business—more business than usual.
