#### GOOD SPORT WITH THE FROG.

Ottawa, April 29.—Thomas Hubert Hutton believes that good sport can be had with the frog. He says in capturing frogs for sport, lines baited with red cloth, worms or insects are extensively used; guns, small bore rifles and spears are also frequently employed and crossbows are adopted for the purpose in Canada. "They are often hunted at night," he says, "a lantern furnishing light for the hunter's aim, at the same time blinding the frogs. Many are their hibernation, large numbers frequently being found together. "This form of hunting offers a new variety of sport, at the same time adding a delicious dainty to our food."

### NEW USE FOR AVIATION SHEDS

AFTER many years of waiting a covered skating rink has been secured for the Gentlemen's Club at the Royal Military College at Kingston. The acquisition of this building will give a great impulse to our national game—"hockey." Hitherto the Royal Military College hockey teams have had to get along the best they could, using the open ice on the lake and occasionally the city rink at Kingston. These limitations interfered materially with the quality of the game. On the demolition of the Royal Air Force in Canada and the abandonment of the aviation sheds at different points some suitable buildings, originally designed for use as flight sheds (or aeroplanes hangars) became available, and through the kindness of Sir Joseph Macleod, Bart., Chairman of the Imperial Munitions Board, under whose direction these aviation sheds were originally established, two of the flight sheds, each 120 feet long by 68 feet wide, were secured to form the basis of the new covered skating rink. The many friends of the Royal Military College were not slow in taking advantage of this opportunity in coming forward to assist in carrying out the idea. The Canadian National Railways, through the courtesy of Mr. D. B. Hanna, its president, and the Grand Trunk Railway System, through the courtesy of its president, Mr. Howard G. Kelley, have undertaken to free-freight the material of the sheds from Camp Mohawk to the point nearest to the Royal Military College, to Kingston. Sir Herbert S. Holt, who is deeply interested in everything that makes for the welfare of the Royal Military College, has generously financed the undertaking, and a contract for the removal and reerection of the flight sheds above referred to, has been let to the Kingston Construction Company, who now have the work in hand. The Minister of Militia and Defence has approved of a site within the college grounds on which the covered rink will be erected. Mr. E. L. Wanklyn, General Executive Assistant of the Canadian Pacific, who is also deeply interested in the welfare of the college, has taken charge of all the work in connection with the carrying out of the scheme. The rink, when completed, will be substantially as shown in the above illustration. The main building will be 240 feet by 68 feet wide, and the height from the underside of the roof trusses to the ice level will be 18 feet. Commodious dressing and locker rooms, 25 feet square, will be provided at one end, over which a gallery for spectators, capable of seating 300 persons, will be provided. The main sheet of ice will be 215 feet by 68 feet wide and this will be the opinion of well known hockey experts (Messrs. "Rife," Horn and Col. Walter Maughan) make a most satisfactory hockey rink. The building will be well lighted by windows all round and with electric lights for the evening. The outside will be neatly finished in cement rough-cast and present a generally attractive appearance. The originators of this project have received many congratulations from a host of friends interested in the welfare of the college.
