

HAULTAIN'S GRAFT CHARGES PROVEN ABSOLUTELY FALSE

Commission Completely Exonerates Hon. J. A. Calder in Connection With the Morang Contract Allegations.

"NO GRAFT IN ANY SENSE OF THE WORD IN THE DEAL."

Readers Were Not Printed by Non-Union Men in "Scab" Shops, But by Union Men, the Evidence Showed.

Findings of Commissioners Chief Justice Wetmore and Justice Newlands Fully Vindicate Saskatchewan Government in Its Contract With the Morang Company, and Show That Alexandra Readers are Equal to Any in Canada or the United States and Are Not More Expensive—Haultain is Discarded by Report of Royal Commission—Not a Single Charge Which He Made in the Legislature and on the Public Platform is Sustained.

Regina, April 8.—Chief Justice Wetmore and Justice Newlands, of the Supreme court, who constituted the royal commission of enquiry into the school book contract made by the Saskatchewan government with the Morang Educational Company, of Toronto, and the charges of graft made by E. W. G. Haultain, leader of the opposition, against Hon. J. A. Calder, commissioner of education, in connection with the awarding of the contract, forwarded their report to the lieutenant-governor today.

The commissioners find: (1)—That the American Book Company was not financially or otherwise interested in the tendering process.

(2)—That the Morang company received no financial assistance from the government, but was financed in no way in connection with the sale of their publications in Canada.

(3)—That the readers supplied the Saskatchewan government were not printed by non-union men in "scab" shops, but by union men.

(4)—That the Morang company did not directly or indirectly furnish campaign literature to the Saskatchewan government, or any person on their behalf, nor did they in any way assist in defraying the cost of any such literature, nor did they contribute any financial or other assistance to the Liberal party or any members thereof in Saskatchewan.

(5)—That the members of the commission appointed to review the Morang readers were not paid by the government, but by the contracting company.

(6)—That the contract provides for the payment of the freight by the Morang company on books supplied to the government. Such freight was paid by the company on the first shipment consigned to Regina.

(7)—That the Morang company did not furnish with their books a statement of the initial cost of each book. They gave the initial cost of the set of not less than \$18,000 and stated that they could not divide it up into books as a large part of the expense could only be charged against the books as a set.

BASKATON SELECTED AS SITE FOR UNIVERSITY OF SASKATCHEWAN.

Regina, Sask., April 8.—A good deal of surprise prevailed in Regina today when the decision of the board of governors of the University of Saskatchewan was given, and it was found that the choice had fallen to Saskatoon by the small majority of one vote.

The choice is the result of much consideration on the part of commissioners, who have visited all the large cities in Saskatchewan and have weighed carefully the relative merits of each place as a university centre.

It is felt here, though it was hoped the choice would fall to this city, that Saskatoon is eminently fitted for the center of higher education of the province.

which was made at the request of Mr. O'Connell. The evidence shows, however, that in view of the ordinary life of a book the Morang Readers cost more than was absolutely necessary, but what contributed to this was probably the reinforcement which would amount to about three-quarters of a cent on each page.

The British proposals with regard to blockades were adopted and constitute Great Britain's most formidable weapon against an enemy.

Great Britain has gained more than she has lost. The advantage of an international court to Great Britain is incalculable as the decisions of a jury court never have been satisfactory to her.
