QUALITY

in the flour means quality in the bread and the pastry you bake. Without quality behind your efforts, no knowledge or skill can bring good results. Beter be without the skill than without the quality.

"BEAVER" FLOUR

is the highest development of blended wheats, embracing the rich health-giving properties of Manitoba Spring wheat and the carbohydrates of Ontario Fall wheat, which make delicate, white, light bread and pastry.

Remember, it is for bread and pastry, both. With BEAVER FLOUR in the house, you only need one kind to attain the best results in every form of baking.

BEAVER FLOUR means economy as well as efficiency. Ask your grocer for it to-day.

The Evening Chit-Chat
 By RUTH CARLSON

There were already six ill assorted people in a few distinct groups which had never met before—when three more people who were acquainted with but two of the original six came upon the verandah after the evening.

After the introductions had been made, someone spoke about the weather and we talked about that for the next five or six minutes, each generously contributing information regarding just how hot it had been on his particular thermometer and a few details on just how surprisingly well or wretchedly ill he had slept or eaten during the hot weather.

And then a silence fell. One of those uncomfortable, squirmy, noisy silences during which each member of the company wonders why on earth someone else doesn't speak up and wildly searches his mind for something appropriate to say.

It lasted about twenty seconds by the clock. Measured by our discomfort, it seemed much nearer twenty minutes. Finally, it was broken by two people starting to speak at once. Finding themselves in collision, each pre-emptively apologized, assured the other that what he was about to say was of no importance and tried to withdraw from the arena of public attention.

After much urging, one was finally prevailed upon to speak and contributed a remark which was of interest only to her particular group, comprising three people.

Now, what am I driving at with all this?

I don't wonder you ask. Well, I'll tell you. I've used up so much space in describing this very commonplace little scene merely because it is so commonplace.

I don't believe there's a single person in my audience who hasn't taken part in such awkward silences.

And every time you are a participant, aren't you just cross at yourself?

I am.

I think every such silence is an accusation of abominable lack of social intelligence against those who permit it.

I think we all ought to have some definite stock topics which could be introduced in any group at any time no matter how ill assorted it may be.

There's always the weather, of course, and then there's the current play and the latest novel and the interesting piece of news in the day's paper—a mention of any of these things and a question as to your listeners' opinions upon it, will start a conversational ball a rolling which will probably go far before it stops.

Make up your mind that you will keep some such fund of topics as these on hand and don't be afraid to launch one of them whenever an awkward silence seems imminent and I assure you you will soon be beloved as the hostess friend.

Ruth Carlson

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition he needs.

Such a man should use **Dr. Pierce's Golden Medical Discovery**. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the nerves, and so gives health and strength to the whole body.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine or to buy the cheapest of the cheap, may thereby make a little bigger profit. Ingredients printed on wrapper.

Household Notes.

Oil of sassafras has been a time-honored remedy for flies.

Some people mix a little cornstarch with the salt to keep it dry.

For keeping the hands soft and white use oatmeal or cornmeal in the water.

A small quantity of rice or rolled oats can be put into the salt shaker to absorb the moisture.

Cake will be softer, lighter and finer grained if, instead of using all butter, part lard is used.

A little chopped parsley tied up in a small muslin bag will greatly improve the flavor of string beans.

Unbutton all clothing before sending it to the laundry and you will find fewer buttons will be lost or broken.

Flour paste may be kept indefinitely by adding to it a little formaldehyde, which may be procured at any drug store.

You can set the color in any article that has red in it by soaking the cloth for fifteen or twenty minutes in salt water.

Use vinegar instead of water and you will find the work of polishing will be much easier and the polish will last longer.

One of the most soothing and healing eye-washes consists of a saturated solution of boracic acid in camphor water.

Strong sunshine will ruin entirely the polish of your piano. Be careful this summer to keep it in the dark or covered.

When your oven does not respond quickly, put a hot stoveid inside the oven under the pudding or dish which is baking.

Peach stains are removed with a weak solution of chloride of lime. Linens require a long soaking to remove any stain.

Stewed tomatoes are improved by adding a little finely chopped meat and meat gravy; also a sliced onion fried in butter until brown.

When making meringue on pies or tablespoonful of granulated sugar to each white of egg is more satisfactory than powdered sugar.

Many of the new hats of linen seen at the exchanges are rounded oblongs, following the shape of the dishes so much used for olives, celery, etc.

A bit of old kid glove or stout canvas sewed under the bands of skirts just where the hooks and eyes are to be placed will prevent the bands tearing away.

When making lace insertion in the skirt flounce or the yoke of a lingerie frock, where the lace must stand some strain, place strips of bobbinet or net under the lace.

When the top of a pie is done, but there is some doubt about the lower crust, remove the pie from the oven and put it on the top of the stove for a few minutes.

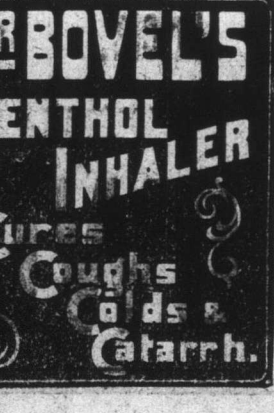

For starching muslins, gingham and calicoes, dissolve a piece of alum the size of a hickory nut for every pint of starch. This will keep the colors bright for a long time.

When shaking or cleaning rugs never grasp them at the end, but always at the side. In this way fringe is protected and the ends do not unravel. The original shape of the rug is kept.

ADDRESS

Presented to His Excellency Petergrino Stagni, D. D., Delegate Apostolic, by the Roman Catholics of Bell Island.

May it Please Your Excellency:—The hearts of the Catholic population of Bell Island to-day are swelling with pleasurable pride at the high honour conferred on our community and our Island Home by this visit of Your Excellency and Associate Prelates of Our Holy Church. All the more so because of your coming to us as the direct representative of our Beloved Holy Father, Pope Pius X.

In our welcome to-day we have in a small measure, tried to represent to Your Excellency what the Church represents to us. You were met before entering this Hall with children in white bearing floral offerings. Those children represented the purity of the offering. Their first offering of "white flowers" meant we recognized the purity of the doctrines of the Church; the second, "yellow flowers" that our gold and riches were at the command of the Church; the third, "bleeding hearts," showed that our hearts were feeling the persecution that the Church is suffering. Lastly you were offered a bouquet of the native colours as a mark of the loyalty and love of Catholic Newfoundland.

In offering Your Excellency our heartfelt welcome to our Island, we desire to extend the same to His Grace, our Beloved Archbishop, who has always taken such a keen and practical interest in this Parish of the Archdiocese. It is mainly due to His Grace's kindly influence we attribute the honour of this visit. We welcome His Lordship Bishop Marchi, of the neighbouring Diocese of Harar Grace; we also heartily congratulate our youngest and newly-consecrated Prelate, Bishop Power, of the Diocese of St. George's. We are glad to have with us on this occasion the attendant and visiting Clergy.

The Church in Newfoundland should rejoice to have in the person of Your Excellency such a distinguished member of the "Servants of Mary," that grand Order which during many centuries has done so much for religion, and is now spreading itself in English speaking lands.

We beg to assure Your Excellency of our love, respect and obedience to your person as a representative of our Holy Father the Pope. We humbly ask you to convey to him our loyalty and love to his person and Holy Mother Church, and we humbly beseech his and your blessing on our Priest, our Church, our people, our homes and our Island.

Praying God's blessing for Your Excellency and wishing you Ad Multos Annos.

Signed on behalf of the people of Bell Island.
 P. F. POWER, Chairman,
 J. P. BURKE, Secretary.
