Resolutions of Sympathy.

At the regular meeting of St. Joseph's Institute, the following Resolutions of condolence to the family of our deceased brother member, were unanimously adopted:

WHEREAS it has pleased Almighty God, in His Divine Wisdom, to remove from our ranks, by death, our highly esteemed brother member, James Cleary, and whilst bowing in humble submission to God's Holy will, we have to regret the loss of one who, though young in years, always faithfully lived up to the highest ideals of our Institute; and though regretting his early demise, we, as Catholics, have cause to rejoice in the fact that his soul, as provided for in our rules, is participating in the merits of the Adorable Sacrifice of the Altar. And it is therefore

RESOLVED, that we tender an earnest expression of our sympathy

to his father, mother and other relatives in the sore trial that has befallen them; and as they miss his form from the vacant chair by the fireside, they may feel assured that in their hour of bereavement they have the sincere sympathy of the members and officers of St. Joseph's Institute.

J. T. FITZPATRICK, President.

JOHN W. HAYES, Sec.-Treas.

VIOLATIONS OF GAME LAWS.—The authorities are now making enquiries around Alexander Bay for more alleged violations of the Game Laws and expect to bring the guilty parties to justice. Last week Sergeant Nesworthy had twenty-two men before Magistrate Milten for breaking the Game Laws. In each case a conviction was obtained and the defendants fined \$25 each.

Minard's Liniment Cures Dandruff

On Culprit's Trail 3 Months.

A man named Fowles, who had been wanted by the police for the past eight months, but who has been eluding the authorities ever since, was arrested last evening by Const. Humber and Blunden charged with the larceny of a caddy of tobacco, the property of the Nfld. Produce Co., and valued at \$10. The theft was committed on the 14th of October last. A warrant was issued for his arrest at that time, but the accused shipped on a vessel bound for a Brazilian port. He returned a few days ago and last evening was taken into custody.

Electric Restorer for Men
Phosphorus restores every nerve in the body to its proper tension, restores color and vitality, premature decay and all sexual weakness averted at once. Phosphorus will make you a new man. Price \$2 a box, or two for \$3.50. Write to your dealer. The Scotch Drug Co., St. Catharines, Ont.

City Council.

At the Municipal Council meeting yesterday Inspector Baker was directed to report further on the sprinkling of the belt line.

The request of the R. N. Co. for 1-inch water pipes of the car barn was referred to the Solicitor.

The applications of M. Barron and M. Whalen for jobs on steam roller, and B. Kearney for one on rock crusher were handed over to the Road Inspector.

Mrs. Gosling's letter was received, in which she informed the Council that the Public Fountain had arrived, and asked what steps the Council would take as to the location, erection and the ceremonies attending its inauguration.

The Engineer was directed to inspect the site suggested at Baird's Cove, and as to its effect on the traffic. After the report has been considered the other matters will be settled.

Morris and Dunfield, Solicitors, acknowledged the offer of \$1,500 in settlement of the claim of Schofield, Goodman & Co., England, for the supply of water pipes.

Mr. P. Gibbs asked for compensation for land taken from James Lynch for the extension of Central Street, and offered to assist in the enquiry. The Council has no knowledge of matter and will accept the assistance proffered.

On F. B. Wood agreeing to comply with regulations he will be given a better water service at the Hamilton Street factory.

The application of W. Clance for position as instructor and caretaker at the Quiddi Vidi swimming pool, was filed.

The Council is considering the matter of the extension of the water and sewerage system at Flower Hill.

A. Duwe and others of LeMarchant Road will be given sewer connection.

The Council will take up the question of new alignment and repair of Power Street.

The request of W. White for the erection of a fence and for a street line on the Southside was referred to the Engineer.

J. Dwyer, Catherine St.; G. F. Snow, Merrymeeting Road; L. Murphy, Water Street West; Mrs. Stapleton, Cabot Street; J. Keefe, Gower Street; S. Garland, Mullock, and M. Greene, were given permission to repair houses or erect extensions, as requested.

The Engineer will examine J. Doyle's application to build an annex to his dwelling on Brien Street.

J. Day, Field Street, complained of unsanitary condition of water course near his residence. This will be covered to prevent throwing of offensive matter there, and the sewer will be extended from Field Street to and along Scott Street.

Plans of alterations to Moore & Co.'s premises, Duckworth St., and Bowring's stables, Southside, were approved.

Contracts will be given C. Lester for the supplying of 200 tons of quarry spawls, W. Lester, J. Kelly, H. Saunders, G. Simmonds, E. Langmead and T. Linegar, 100 tons each, at 66 cents per ton.

P. H. Cowan will be given order for 100 name plates for streets.

S. Garrett will be given required curbing if in stock.

E. Elsary will be offered \$300 as compensation for land taken and excavations made at Southside.

Dr. Brehm was directed to report on condition of houses in Plank Road, and steps will be taken to improve the condition of the drains.

Inspector Barwick was directed to attend to the repairing of piling near Cook's premises, Southside.

King's Bridge will be repaired, and Engineer will estimate cost of necessary work at Browning's.

Sanitary Committee will meet each Thursday, with a view to improving the work conducted by the department.

Council confirmed the decision reached at a special meeting to raise the pay of sanitary staff to \$1.40 per day; the foremen to 20c. daily, and that of Messrs. Bambrick, W. Ryan, J. Holden, Barnes, Donnelly and Dwyer by 10c. per month.

Councillor Mullaly supported the raise of wages for the labourers, but opposed the raise to officials. When they had asked for it before it was refused on the ground that the finances would not permit, and the finances had not improved since.

Next week the water cart will be sent to the Southside.

Councillor Mullaly condemned the charges against the Mayor by an anonymous writer in the press, which stated he had discharged men and also asked inspectors to have their men ready to replace sanitary employees, on the ground that the full Council was responsible and not the Mayor alone. The other Councillors considered the Mayor had acted diplomatically under the circumstances.

The Mayor did not agree with the suggestion that men of wealth would manage Municipal affairs better than the present Board, inferred in a recent press letter, and believed those in power would show as good a record, particularly as to improving of water and sewerage conditions, as any of their predecessors. While he welcomed fair criticism, he felt the Council should not be ridiculed. As to those who were discharged, they had been laid off for refusing duty. Negotiations were being conducted with the L. S. P. U., and nothing definite received as to refusing to work unless the demand was granted, until 10 o'clock Saturday night. The men, therefore, under the circumstances, were dismissed for insubordination, and taken back when a settlement was made. He considered the criticism unfair.

Councillor Ryan pointed out that a few years ago Bambrick's men were held ready to replace those who threatened to strike. It was for the benefit of the city then, and was not objected to, but it was now, for what reason he could not understand.

CAPT. BULL HAS 20 WHALES.—The whaler Capt. Bull, operating at Balena, has twenty whales captured to date, most of which are sulphur bottoms. Capt. Bull is ahead of his catch this time last year and is high liner so far this season. Although whales are being found plentiful Capt. Bull says the conditions are unfavourable, fog being continuous.
