WANT LORD HARDINGE TERM AS VICEROY TO BE EXTENDED.

LONDON, To-day. Through Reuter's Ottawa Agency, special despatch from Simla, India, says an impressive scene was enacted at the Council Chamber yesterday upon the presentation of a portrait of Lord Hardinge, Viceroy, given by Mahraja Kasimbazar. Pandit Madan Mohan Malaviya presenting the portrait on behalf of the Mahraja paid an eloquent tribute to Lord Hardinge's Vice-royalty, urging a further extension of His Excellency's term of of-fice until the end of the war, and applauding the Government's policy during his tenure of office. The Indians of Simla also entertained Lord Hardinge, Raja Sir Harnam Singh alluded to the Viceroy's keen desire to have the soldiers of India fight, side by side, with British soldiers in Europe. Lord Hardinge, he added, had given Indians aspirations, weight and dignity which they had never before attained. His name would be recorded in national history as one who had assisted towards the attainment by the zens abroad and full constitutional development in their citizenship in Inhis reply, said his earnest desire had always been to contribute to the mafellow Indian subjects, and he had en-deavoured, he said, by thoughtful con-tations to Labor Council and other sideration of their needs and aspirations to draw them closer to the Government. The term of office of Lord ed representatives of the Trade Union Hardinge as Governor General of In- Congress, the Management Committee

BALFOUR & GERMAN SUBMARINES bers of the Parliamentary Labor LONDON, To-Day. To the desire for absolute precision Balfour, First Lord of the Admiralty, in the Commons yesterday afternoon gave reasons for not making public

the figures of German submarine losses. Balfour expressed sympathy with the desire for such information, but said the difficulty of satisfying curiosity on the subject arose from the inevitable margin of doubt, which attaches to any attempt to estimate the numbers of the enemies' submarines destroyed and the consequent impossibility of giving accurate statistics. We have every gradation, he added, from

At a conference of representatives of the chief Labor Organizations of

LONDON, To-day.

the country, held after a meeting at which Premier Asquith and Earl Kitchener discussed the military situation with them, the belief was ex-pressed that the number of men required for the Army, Navy and Mu nition work, in order to carry out the war successfully, could be obtained by the voluntary enlistment system. The Labor representatives decided to organize a special labor recruiting campaign throughout the country. At the meeting at which the Premier and Earl Kitchener addressed the men Kitchener expressed a preference for the continuation of the volunteer-sysem. At the conference the Labor leaders suggested voluntary recruiting would be more successful, if the Government would state frankly, as far as was compatible with public interests, what already had been done by the voluntary means and what were the present and future needs, and would insist upon employers no people of India of their rights as citi-zens abroad and full constitutional de-listing. THE FIGHT AT HOOGE.

LONDON, To-day. Relatives and friends of British oldiers who have taken part in the fierce fighting of the past few days in Northern France have begun to receive letters from the fortunate ones, who went unscathed in all attacks, while the casualty lists of those who met with disaster are being collected at the War Office and their relatives notified. A further consignment of wounded arrived at London at midnight. A qicturesque story of fighting at Hooge was told by one of these en, a territorial with six wounds in imagine there was anything amiss at Hooge. All is going well, and if there had been no such things as machine guns we would have gone straight thro' the whole German line, and now be on cations. our way to Berlin. Those trenches which we gave up we can take again, and what is more we can hold them when we want to do so. We don't give up ground except on orders from uperior officers, who sometimes de cide the situation in adjoining parts of the line does not justify the retention of certain advanced positions. It is ridiculous to hear some people talk about our attack being a surprise to surprise that the Germans had already brought up tremendous reinforce ments against us on Saturday, including a small army of bomb throwers.

FRENCH LOSSES COMPARATIVELY

PARIS, To-day. fensive so costly to the Germans were relatively very slight, according to a statement made by persons in a position to know.

GERMANS REALIZE IMPORTANCE

OF ALLIES' OFFENSIVE. AMSTERDAM, To-day. The fighting on the Western front ccupied a large space in the German be denied that the new offensive of the enemy is of the greatest importance. The enemy obviously is making repeated efforts to gain at voluntarily to this crime against the least a decisive success. How long good old summer time.—Everybody's he will be able to maintain his efforts Magazine for September is uncertain, but we must expect that heavy fighting will continue.

2.15 P.M.

GERMANS ADVANCING TWO MILES

A DAY. LONDON, To-Day. The Times' Petrograd correspond-nt points one that ever since the upture of the Russian lines of the

been advancing at an average spee of two miles a day. This rate rather liminishes than increases as the enmy advances eastward, says the correspondent, and obviously it would require many months under the most favorable conditions to enable the Germans to reach Petrograd, Moscow or Kiev. He also expresses the opinion that the German guardsmen re cently captured in France must be long to the reserve formations, inasmuch as the guards corps would hard-ly have had time to reach the western front from the east.

2.35 P.M.

GERMAN TAUNTS PAID IN GOOD

PARIS, To-Day. The French Capital is now thrilled y stories of fighting on the western front, related by soldiers wounded in desperate combats, which have resulted in important gains for the Allies. For several days the Germans had been getting singularly aggressive and insolent, said one of the men, who charged at Souchez. They shouted insults at us and flung into our trenches notes wrapped around pebbles. One of their favourite taunts was, "You are too cowardly to come over here; come on, if you are not too lazy.'

FLOOD OF APPLICATIONS FOR LOAN.

NEW YORK, To-day.

A member of the syndicate which will manage the big bond issue, ne-gotiated here by the Anglo-French loan commission, received to-day a flood of applications from banks and individuals for permission to participate in the underwriting.

73 GERMAN SUBS. DESTROYED.

More than seventy-three German submarines have been destroyed by the British, chiefly through the aid of electrical detectors, installed along the coast of England, Scotland and Ireland, acording to Wm. Lullier, an 'American engineer, who arrived here to-day on the steamer St. Paul.

The two years that can be saved are in the grammar grades. The all year schools in Newark save them The all-year schools in Newark do in six years what the regular schools do

in eight. And it is rather curious that they should be able to do this. The total number of working-weeks in their six years is only 288. The total number of working-weeks in the eight years of the regular schools is 320. That is a difference of 32. The boy who goes to the all-year school does 32 weeks less of studying during his grammar-school life than the boy who goes to the regular school. Yet the a.m. to-day with the following pas-

The explanation is found in the fact that the work in the all-year one arm. Because we took trenches school is so continuous that much and did not hold them, he said, don't less time has to be given to "reviews" and to "reorganizations" and to put ting back into children's minds the things they have forgotten during va-

And what does this plan mean to the tax-payer? Does it add to his burdens? Quite to the contrary. The school-plant is there. The faster you put the children through it, the more room will you have in it for more children. The day of enlarging your plant is postponed. And there are other savings, too, all based on the business proposition that if you work your plant continuously you can turn out your product at a lower cost per unit than if you work it only rart-

In the three years of 1912, 1913 and 914 the savings to the taxpayers of Newark through the new method at their two all-year schools was \$17,000. We have reported the facts. We are not educational experts, and we have no professional opinion about them. We note, however, that the all-year school idea has the support of the United States Commissioner of Education, Mr. Philander P. Claxton. And we note the fact that this summer New-The Lokal Anzieger says it ark has opened two additional allyear schools and that it now has a total of 4.615 children submitting

Fights Five Air (A) Duels a Day. British Aviator Beats off Four Ger-2

mans, then Outwits Fifty-Battle Staged 9,000 Feet up. British eHadquarters, Sept. 20 (depatch to the London Daily Express.)

-Forty aeroplane fights in eighteen lays is the record of the Royal Flyng Corps with the British army in the field. During the first three weeks in September four enemy aeroplanes are knows to have been destroyed and at least seven others sent hur. Hygiene-The Way to Health, Part

een destroyed. One pilat had five fights in one morning. He beat off the first four German machines that came up to grapple with him one after another, but when the fifth bore down upon him he had exhausted all his machine gun and revolver ammunition. The noise of the engine drowns the report of a revolver, and the German pilot who saw him go through the motions of aiming and firing did not realize that the weapon was useless. The eGrman fired twenty or thirty rounds and then gave it up. The British air-

man finished his reconnaisance in peace and came back to lunch. One furious battle in the air, witnessed by thousands of soldiers and resulting in total destruction of a books, Exercise Books, Copy Books, German aeroplane, took place on Sep- School Registers, Pens, Pencils, Slates, ember 7. This machine had been Ink. particularly active in ranging the enemy's guns. It could be seen circling and signalling above some of our positions. A British aeroplane went out and gave battle at 9,000 feet above the German lines.

It was a clear, bright day and the two aeroplanes were very distinctly seen as they darted across the sky and back again like angry birds, now elimbing, now gliding, and all the while pelting each other with bullets. They gradually came lower and the troops on both sides watched the deadly struggle.

Suddenly the German aeroplane was seen to dive erratically and "True Oriental Odor," a fragrance inimicome down at an increasing speed and at a tragic angle. "We cannot 3 say positively that it was destroyed," in addition to Massatta, we carry a complete line of Lazell's Famous Specialties, including the most exquisite Perjumes, delightful Tolles Waters superb Creams and Powders of Nosaid the officer who told me of this incident, "but when last seen it was diving nose downward at 159 miles an hour about 200 feet from the
