> & SONS, LIMITED Distributors.

It is certainly pleasing to see how Mr. Chambers has wakened up the Fishery Board, and also the Game Board with his few remarks about the possibility of the Salmonier River from a commercial point of view, which after all is the foundation of this country.

I was particularly interested in this matter after hearing what Capt. Gosse had to tell the Board of Trade last year, and was indirectly a means of bringing Mr. Chambers' name before the Fishery Board as Capt. Gosse wrote me strongly recommending a practical man, who had experience in this work, and mentioned his friend Mr. Robert Chambers, who had just completed a big deal most satisfactorfly, and he knew of no better man to be had if his services could be obtained.

Now we have Mr. Chambers here, and I think that the first arrangement made for him to visit the Salmon Canning Factories should be continued. as those interested in this work should get the first consideration. Mr. Chambers has seen some of the

salmon packed at these different localities, which was sent forward for sale to St. John's. While some of it is a very credible article, still he could give these packers some technical advise that would make a wonderful improvement in their work. It wasn't to pack a few cases of caplin, squid other fish that he was brought here for, but to instruct our packers to work in a uniform way, to turn out an article equal to what the Salmon Packers of British Columbia are doing, and which is attracting the I quite agree with you attention of the whole British Empire. high time for a discussion The Salmon Fishery is of short our Salmon and Canning duration in Newfoundland, and thereafter what Mr. Chambers fore these same canners could be

Yours truly,

W. A. MUNN. July 24, 1925.

If you feel sorry for all the lame, wantity of these fish were in the streets, show your sympathy by River. From what he has seen giving a liberal contribution to the that 40,000 cases could be girls with the "Tags" on Saturday.

Hotel Begun

The work of erecting the new hotel at Fort William began to-day, with the some of the wealthy salmon dismantling the foundations of a s of British Columbia, and has fundreds probably thousands of erected by Messrs. Rousseau, Ltd., under his control, for weeks ex-Quebec, who are large shareholders enting Canning Caplin and now in the enterprise. The general superquid at Holyrood. intendent, Mr. P. Cameron, with Mr. student of a fishery college can Ahearn arrived by the Silvia yesterment on canning fish, and all day and Mr. Rousseau with Mr. Arwanted is a chef or a careful senault, another member of the consenault, another service struction firm are expected to arrive and proper manner, and fol- here by Monday's express. The firms accountant is also expected to --is the genius who thought of rive. Mr. Ahearn returns to Quebec lag squid, and where is he going to-morrow. Some of the equipment for market for them when they constructing the hotel arrived last week by S.S. Ceuta and was conveyed to the site yesterday. A first shipment of about 3,000 barrels cement and 50 tons of reinforcing will arrive here next week. Only a small number of labourers will be engaged at the preliminary work but when the operations get properly underway at an early date, some 400 will be engaged. It is proposed to carry on the work as rapidly as possible so that the structure may be roofed in before winter, when with a heating system installed, the interior can be proceeded with. It is expected to have the hotel completed by May next.

### Still an Eye to Business

There was a Scottish family gathered by the bedside of their father, who was sinking rapidly. He said, "Is John here?" "Yes," said John, "I am here." "And is Sandy here?" "Yes," replied Sandy, "I am here." "And is Jean here?" "Yes dear father," said she, "I am here." "Oh!" said the invalid, " you are all here; then who is
