OKIO, July 22.—The bulletins issued from the palace by the physicians reporting the improvement of the health of Mutsuhito, the Emperor of Japan, have been received with satisfaction throughout the capital today. The stock market improved greatly as a result of the satisfactory news. The Nichi Nichi, one of the leading newspapers, published a

report that entertainments are to be resumed tomorrow. A note of warning, however, is sounded by one specialist who s quoted as saying that this is only the first stage in the Emperor's malady and advising against over-hopefulness because the second and third stages of the disease must be passed through before full confidence in his majesty's recovery can be restored.

Italy's Navy to be Augmented by Most Modern Type of Battleship

Will be Eagerly Watched by the Powers

(Correspondent for the United Press) Rome, July 23.— Within the next cal churches was the only building few weeks Italy's navy now doing serrice in the Mediterranean and the Judge Hanford gives ill health Aegean against Turkey will be augmented by a dreadnought, the finest battleship of the type to enter into actual warefare. The occasion is therefore considered of some moment. t is entirely possible that the new readnought will have an opportunity of displaying its much extolled possipilities and the actual conduct of the lowed with keen interest by all of the naval powers of the world.

The "Dante Alighieri," which is the Italy's first concrete response to the nternational cry to follow suite that went up several years ago when England first introduced this new type of naval perfection. Like all of the other powers that started in to follow suit Italy began plans at once for an entire squadron of the new type. Dante Alighieri will therefore be followed in 1913 by the Cavour and the Leonardo da Vinci, both of which have already been launched; a little later Duilio, and finally by the sixth.

The first four of these new dreadnoughts will follow the type that was established in 1906 by England, ex-10 twelve-inch guns and these will be brought into action at one time. Vatican circles are still somewhat surprised over the recent decision of the Sacred Congregation of Rites to permit the use of moving picture shows in Catholic churches for the purpose of religious instruction. The fact that the same congregation less than a year ago refustd to perm!: a similar use of photographs was ftgured as a precedent hard to overcoms The demand for permission to use the moving picture, however, was almost world-wide. Within the past few years hundreds of Catholic societies have been organized for the express purpose of instruction in the Catholic religion by means of moving pictures.
