Other buildings were also crushed, and the tents of the traders who had remained, notwithstanding the cholera, were scattered, with their contents, in all directions. The wretched people of Novgorod have had all the courage driven out of them by this latest visitation, and many of the superstitious declared that the Almighty had determined to destroy the city on account of the wickedness of the people. Those who could fly have deserted the place, while the people who remain can be seen in crowds at the shrines and in the churches praying for the mercy of heaven.

The cholera epidemic appears now to be assuming a milder character throughout the affected region. A telegram from Nijni Novgorod received by the Nevosti states that the number of patients there is decreasing rather than growing, while the convalescents are more numerous. Prof. Anrep, who was sent to report upon the outbreak, declares that the cholera has generally appeared in a mild form, and is each day becoming less malignant.

Chicago, Ill., Aug. 17.—Maud S. is no longer queen of the trotting turf. The position which she has held so long has been wrested from her, and Nancy Hanks reigns in her stead.

This alternoon at Washington Park in the presence of 10,000 spectators Budd Doble drove his mare to beat her record of 2:09. She not only beat her own record, but lowered the world's trotting record from 2:08\frac{3}{2}—the time of Maud S.—to 2:07\frac{1}{2}.

The track was a trifle dusty in places, but as fast as it could well be. The mare was in excellent condition. There was nothing to prevent her from doing her best. The official time for the mile, which was as honest a mile as was ever trotted, is 31\hat{1}.103\hat{2}, 1:36\hat{3}, 2:07\hat{4}. The last quarter was trotted in 30\hat{2} seconds.
