HOCKEY.

REFEREES CHOSEN.

At last night's meeting of the executive of the City League, four referees were selected, who will officiate at all the league games during the winter. These officials are Messrs. Jack Brown, Jack Hobbs, Gordon Crawford and Geo. Black.

A permit was issued to Charles Gar-

rett. It was decided to hold the opening games on Friday, Jan. 9. The junior league will be asked to open on Wednesday, Jan. 7.

JUNIOR CITY LEAGUE.

At a meeting of the Junior City League the following officers were elected: Honorary president, Mr. C. W. Smith; president, Mr. Alfred B. Cox; vice-president, Mr. Harry Peel; secretary-treasurer, H. Marshall. Those represented were the St. John's I. and L., Waterloo and Hortons. The league opens on Friday, Jan. 9. All games will be played at the Jubilee rink.

GROUPING.

Mr. Alfred B. Cox, convener of the local O. H. A. group, has received an answer to his letter requesting the association authorities to amend the grouping whereby the two London clubs and Watford are made to play off. Secretary Buchanan writes that it is now too late to alter the grouping, and has instructed the Watford delegates to attend a meeting to be held in this city to draw up a schedule. It is not a particularly brilliant deal that the local clubs have been given, but they will have to make the best of a bad job.

STRATFORD'S PETITION.

Secretary Buchanan, of the O. H. A., has received an application from the Stratford hockey club for permission to play Frank Clifford, a junior, formerly of Alliston, who has moved to Stratford recently.

FOOTBALL.

CANADIANS DEFEATED.

Edinburgh, Dec. 26. — The All-Canadian football team yesterday lost to the Edinburgh Academicals, one of the strongest teams in Scotland, by the close score of 4 points to 3. The game was played in a rainstorm and the wind was blowing a gale. Edinburgh won the toss and kicked with the wind, and the Canadians' defense was shabby. Crabbie, for the Scotchmen, succeeded in scoring a marked goal, counting four points. This was all the scoring in the first half. In the second half the Canadians were seen to better advantage in open rushing play. The wind had moderated, but with the advantage it gave they pressed the opposing defense hard till a combination rush by the forwards got the

ball over the line and the Canadians scored a try, Farrell doing the trick. Tait failed to connect, though the chance was an easy one. This ended the scoring, leaving the total score, Academicals 4, All-Canadians 3. Owing to the weather the spectators numbered only three or four hundred. For the same reason the match can hardly be called a success.

Now, What is Pan-Dried?

"Pan-Dried" is the Tillson way of making the best oatmeal in the world.

Tillsons have the only "Pan-Dried" process in the world. It is Tillson's and Tillson's only.

"Pan-Dried" oats is dried without steam heat—without smoke—without scorch.

Ever eat porridge that tasted clammy, mushy, insipid—that seemed to fill your mouth with paste—put you in mind of a bill poster's bucket?

Most likely that was a mess of "steam heat" results. Steam heat is liable to make the oatmeal that makes that kind of porridge.

Ever "taste" your porridge three or four hours after you'd eaten breakfast?

Faugh! horrible, isn't it?

And you thought it was indigestion—weak stomach—you said oatmeal didn't agree with you, didn't you?

Well, it wasn't weak stomach, but it might have been indigestion—takes a good strong stomach to digest coal or wood smoke.

Now, the old-fashioned oatmeal mill that does not use steam heat, and must not use Tillson's Pan-Dried system, uses the "smoke-and-scorch" system.

Tillson's Pan-Dried method heats pure air in one place, filters it after it is heated, scientifically applies it to the oats, and turns out oatmeal that is not mushy or smoky—that cooks up smoothly and deliciously. The kind that "jellies up" around the edge of the bowl.

Old-time Scotch millers knew how to make that kind of porridge, but they could not make any but the smoked-ham variety.

Consequently many folks have labored under the impression that porridge wouldn't agree with them when it was not porridge but smoke that caused the trouble.

There is no smoke in Tillson's Oats.

And there are no specks, no hulls, no dust, no dirt—nothing but good, clean, digestible oatmeal in Tillson's Pan-Dried Oats.

ability of the teams. The "marked" goal secured by the Scotch is a goal kicked by a player who has made a fair catch and made his "mark."
