OLD WORLD NEWS THE WIRELESS

Associated Press May Adopt It for the Collection of Its News.

New York, Feb. 7. - Tests made by the Associated Press may determine & whether a trans-Atlantic wireless telegraph system is a possibility for the transmission and reception of news. The trials have been in progress for more than a week between stations on the coasts of Scotland and Massachusetts, and, while the results so far have not borne out the success promised for the system by its projectors, sufficient encouragement has been derived to have high hopes built upon the outcome of the experiment.

Protect the Complexion

It is much easier to keep the complexion good than to restore it after it has been destroyed by neglecting to properly care for it during winter's irritating weather. Every time the skin becomes inflamed and chapped it becomes so much coarser.
