George Eddy Arrested for John Reid's Murder.

Watertown, N. Y., Dec. 7.-George Eddy, wanted in connection with the murder of John Reid at Pulaski, was Guthrie, Okla., Dec. 7.—To three inurder of John Reid at Luiasai, arrested here yesterday.

Ann Smith—has been left - Eddy admitted that he committed Reid came from Collingwood, Ont.

jealousy prompted the shooting.

Windsor. Dec. 7.—Owing to recent complaints about the treatment of inmates of the Home of the Friendless, the board of management have decided on a thorough investigation. The court of inquest will include the board of management. Mayor Wigle, John Query and George Eartlett. constituting the advisory council of the home, and Dr. Brien, physician of the home. The investigation will be Monday afternoon.

way by circuitous routes to the United Ottawa Montreal Quebec in the construction of the Loeischberb Victoria tunnel through the Berner Alps. This scene of industry became a hotbed of Black Handers, forty of whom are now in custody, there awaiting trial on charges of assault, blackmail and murders.

LOST CONTROL OF NIAGARA POWER

Amendment Moved by Ald. Ferguson Was Not Even Put and the City Fathers Voted Their Electrical Rights to the Utilities Commission.

The water commissioners are new in charge of the Niagara power question One of the three-selected by lot-will rettre with Commissioner Darch, at the end of 1910, and the other two will served two years. Every member consequently, elected to this board, is elected for two absolutely.

This morning Engineer Sifton and the staff were placed under the control of Chairman Jones and his board, and will in future have to deal with that body years.

The muddle into which the council gotalone.

Ald. Stewart, who has been chairman of the power committee for a year, is now out of a position so far as civic matters are concerned, and is but a private member of the council. themselves last night over the question of tenders and the passing of the util-ities bylaw, was the source of much amusement today.

This morning Mayor Stevely. Add. Stewart and Engineer Sifton had a conference concerning the operation of the bylaw, and are now thoroughly convinced that the commissioners control the power situation from every angle—construction, maintenance, operation and all the rest of it.

Of course this fact nullifies the motion passed in the council last night to refer the whole question of tenders for the power station to the hydro-electric commission's engineers.

The council has nothing whatever to do with it -ow, and any motion passed will be of no effect.

Up to the Commission.

Some of them are of the opinion that they got cheated on the question. Add. Beattie's motion to give the bylaw its third reading to lay it over until Dec. 20.

Mayor Stevely pointed out that if the bylaw were defeated on its third reading its what had happened the motion to give the bylaw its third reading passed, and it was not until today that some of them realized that the amendment had not been voted on.

Too Late Now.

will be of no effect.

Up to the Commission.

Of course the motion will be sent to the commission, and they will probably act upon it. It will merely be a recommendation, and need not be accepted unless the commissioners so desire.

The commission will be enlarged after Jan. 1. Three new members will be elected, who, with Commissioner Parch and the mayor, will form a body of five members.

Too Late Now.

Of course, it was too late to object, and now nothing can be done. It is merely to show that there was considerable confusion in respect to the whole material.

It is not likely that the matter of tenders until the new heard is organized.

It is considered likely that Commissioner beard.
