I cannot help feeling that Mike country. I never worked under Keene Fitzpatrick or Jerry Moakley, but I would place them next to Murphy. It is not because I have worked under Murphy that I feel this way. Look at his record.

He was the pioneer college trainer. Back in 1893 he was training Yale teams and since has alternated be-tween Yale and Pennsylvania. He trained the New York Athletic Club teams and twice was in charge of the American Olympic teams. This means that he has been at two

The score at half-time was 3 all. The game was very fast and considering the hard checking it was remarkably clean and devoid of roughness. The second half was all in favor of Seaforth, but the great work of Hainsworth, the Berlin goalkeeper, kept down the score. Every Seaforth player played a star game, Reid making some wonderful individual rushes, one of which put Hainsworth down and out for fifteen minutes, the puck hitting him in the head with great force. Have Yet To Be Informed of the Big International Contest Between the Detroit and London Hockey Teams, as Outlined By Thomas "Stinger" Munro.

It looks as though Mr. Thomas 'Stinger" Munro has been trying to 'put one over" on some local newspapermen. 'Stinger" comes forth with the announcement that the London and Detroit hockey teams are matched for home-and-home games, a large, nicelyengraved, silver trophy being the object of such an event.

The games have been arranged by Mr. "Stinger" Munro himself, a special jaunt to Detroit on Saturday being necessary to bring this great international contest about.

it was announced this morning, and resident Casselman and Secretary Vining are wondering what it is all about. Of course, they are not averse to holding a little international affair with the Detroit team, but they would like to know something about the matter beforehand, and would also like to have a little time in getting the permission of the O. H. A. executive. That body has been frowning a trifle on the Detroit seven ately, and an international contest at this time may take a lot of explaining.
