New Leaders Brought Out To Offset Unsettled Conditions Existing.

> By STUART P. WEST. Special to The Auvertiser.

Wall Street, New York, March 6 .-Violent upbidding of selected industrial stocks continued on the stock exchange today, but this was the first day in some time that when bullish operations were suspended, prices came down as fast as they had risen. It took but a half hour for Stewart-Warner to go from 1211/2 to 114, for Stromberg to drop from 94 to 88%, and for California Petroleum, which had sold close to par, to fall to 9714.

These were samples of what was taking place all through the market. To offset the unsettling effect, which otherwise might have been produced, new leaders were brought to the front. Responding to estimates that the year's carnings might run as high as \$50 a share. American Locomotive, crossed share, American Locomotive crossed 130 for the first time. Baldwin Locomo-tive rushed up above 141, and Railway Steel Springs had an equally rapid ad-vance.

EXPECTED IN OLD COUNTRY London, March 6 Canadian exporters are expected to quote low prices on cattle when the trade opens shortly, and the effect in this country upon Irish store cattle prices will be watched

Irish store cattle prices will be watched very closely. Notwithstanding the disturbed conditions in Ireland, the weekly cattle importations from that country are well maintained.

It is asserted that there is a jumble of markings of many of the cattle from Ireland, which suggests that the legal owners are not aware of the present disposition of the animals, but they are sent across in the ordinary way and dealt with in good faith by the dealers here who cannot be expected to know the precise methods by which they are acquired on the other side of the Irish Sea.

According to the latest figures, farm reserves of wheat amount to only 153, 900,000 bushels, whereas most guesses had put the totai at 160,000,000 to 190,000,000 bushels. The expert responsible for the new figures estimated there had been increased domestic consumption of 33,000,000 bushels, as compared with last year. His report indicated also that serious winter killing of wheat had taken place, and there the 193 crop it at a relatively low condition. TUESDAY'S OPENING PRICES. Chicago, March 6.—Buying ascribed to a speculator who of late has been conspicuous on the bear side led to a conspicuous on the bear side led to a sudden upturn in the price of wheat today during the early dealings. When this buying ceased, however, the market quickly reacted. Unresponsiveness which Liverpool quotations showed in regard to yesterday's advance here counted as a handleap on the buils, and so, too, did wet, mild weather likely to benefit the domestic winter crop. Opening prices, which varied from unchanged figures to %c lower, was followed by a rise all around to well above yesterday's finish and then by a setback in which nearly all the gain was back in which nearly all the gain back in which hearly all the gain was lost.

Persistent selling on the part of commission houses found corn and oats without any aggressive support. After opening unchanged to ½c to %c off, the corn market rallied a little, but soon underwent decided general sag.

Oats started ½c to %c lower, hardened a triffe, and later turned easy again.
