...NOT WOOED.

Middlesex County Council

Tuesday, June 5

The June session of this Council met this morning, Warden Lewis presiding. There was a large attendance of members. The following business was transacted:—

...

Canadian News in a Nutshell.

—A young man, aged about twenty-one, son of Mr. Ellis, of Centreville, near Maryford, died with a terrible death recently at Elora, or Clark's, fourth line of St. Vincent. They, the carpenters, were raising a bank barn, and the fork, on which the unfortunate young man was working slipped away, and the whole weight of the barn fell on his head, wedging it to the earth, and smashing it to a horrible mass. Of course, death must have been instantaneous.

St. Catharines has a Charlie item done. On Tuesday, the 15th May, a boy 10 years of age, named Matthew Welsh, of Shippegan, in the road, was he left home, a straw hat, brown velvet coat, light pants, shoes and stockings, light hair and eyes. He had been on a load of wood on the market. Any information respecting the child's whereabouts will be most thankfully received by Mr. Welsh, at the St. Catharines flour Works.

Some of the towns on the eastern coast of Nova Scotia are still wrapped in the embankments of winter. Dr. Clay, of the Sload, walked across three-fourths of the harbor at Pugwash on ice, which was agreed in ten feet of water; and for the past four weeks the whole coast has been jammed with ice; one of the steamers in the Gulf have grounded in twenty and twenty-five feet of water.

—Mrs. Tracey, of McKillop, was last week committed to jail for 15 days, for assaulting Mr. A. Gervenicck of that township. Prisoner on the 31st charged plaintiff with stealing two of her cows, but the charge was dismissed, as the animals had been given by defendant to Mr. Gervenicck as security for debt. In her anger she assaulted 'plaintiff.'

—A gentleman residing in the township of South Crosby, Co. of Leeds, says that a species of worm or grub is injuring the newly-sown wheat, to the extent, in some instances, of one-third of the crop. Barley also suffers, but not to so great an extent, from the same cause.

Mr. W. J. R. Patterson, of Montreal, Deputy Secretary of the Dominion Board of Trade, lately received and accepted an invitation to be a candidate for the membership of the Young Men's Christian Association, of Liverpool, England. He has been unanimously elected.

—Mr. Summerhayes, of West Brantford, had a fine colt killed on Thursday night by some miscreant. The dam and colt were in the stable, and in the morning the owner found the colt dead, its head being crushed by a blow from some heavy weapon. No trace of the perpetrator.

—Mr. Wm. Coldclough, late of Carlisle, and son of Mr. Watson Coldclough, of West Flamboro', now of Selkirk, Manitoba, has been appointing in hail freed scrip, and is now possessor of 12,000 acres of land.

St. Catharines has a novelty—that's a blossom of a lime plant growing out of the earth. The novelty is that the plant is not above the ground; but that the blossom is growing immediately from the roots.

It is probable that, amongst other visitors to Manitoba this summer, there will be Mr. Macleod o Rowell, M. P., Grand Master of the Orange Order of British North America.

A dramatic club has been organized in Wyoming.

CLARK'S ELEPHANT
SIX CORD
SPOOL COTTON
Has the
Highest Testimonials
In the Market.
The following Sewing Machine Companies have used their cotton on the machines named:—
COTTON THREAD ONLY with their Machines:—
WHEELER & WILSON MANFG CO'Y.
SINGER MANFG CO'Y.
HOWE MACHINE CO'Y.
RAYMOND SEWING MACHINE CO'Y.
G. W. WILLIARD SEWING MACHINE CO'Y.

Ladies—When making your purchase be sure to ask for Clark's Elephant Thread, as the 6 cord machine cotton of other makers is inferior. Dr. Clay, of the Sload, walked across three-fourths of the harbor at Pugwash on ice, which was agreed in ten feet of water; and for the past four weeks the whole coast has been jammed with ice; one of the steamers in the Gulf have grounded in twenty and twenty-five feet of water.

Montreal Advertisements.

Adulterated "Bohea."

AN ARTICLE IN THE MONETARY TIMES of the 4th inst., with the above heading, shows the extent to which this pernicious practice, and shows "that much of the tea sold as 'green' is of a spurious and poisonous nature, damaged, musty, and poor kinds being fostered for the market by the addition of such wholesome!!! substances as Indigo, Prussian blue, Turmeric, gypsum, &c., &c., while the coloring is easily effected by a mixture of Prussian blue and Turmeric (difficult to understand," as leave the question there' only its poisonous qualities can stand the effects of which show patients? for attention with the medical men.
For our part, we have solved the matter by simply letting tea and coffee alone, and confining our physic to Ayer's Sarsaparilla, Ayer's Cherry Pectoral, as article specially recommended by the medical fraternity, and one which we have found by experience to be a most wholesome and invigorating beverage, and the only one warranted perfectly pure. We advise our readers to go and do likewise, and escape their doctor's assurance of a boneheaded life, with total freedom from any and all of the numerous ills produced by unwholesome drinks. eod
