VANCOUVER. VANCOUVER, May 18.—The Vincent girl is said to be in Vancouver, a Nanaimo man with her. They are boarding at a hotel.

H.M.S. Nymphe this morning brought over twenty-four invalids and men whose time has expired. The latter went East by the C.P.R.

The great precoutions taken by the health officers to prevent the spreading of smallpox here gave the impression of a far more serious state of affairs than exists. There are only three cases, Etta Hunter, of Dupony street, Mr. Reid, Assistant Watch and the Empress of Japan, and Tupper Thompson, the last a very mild case, were removed in care of a professional nurse, to the floating pest house, this afternoon, which was anchored in the inlet. The disease has not become epidemic. Yip Yuen alias Charlie, Chinese interpreter, was reported to be down with smallpox, to-night. The report lacks confirmation. He has, however, been missing since the quarantine of the Empress of Japan, at Victoria. The police have been hunting for him for two days, and it is thought he has been spirited away by his associates. The authorities stated, to-night, that they would not take the quarantine off Dupont street untill Yip Yuen was found, or a most thorough search made. They say they are almost positive the interpreter is down with the disease. Fourteen cases were reported to-day, and their names given to your correspondent, who investigated all the cases and found only those already reported to be genuine, three in all.

Mr. Bowser, of the C.P.R. docks, who was reported affected, was on the streets this evening, all right. The excitement has died down, all praise to the prompt action of the Health Officers.
