

THE CURSE OF THE NATION IS CONSTIPATION

"Fruit-a-lives" Alone Cures This Disease

A famous scientist states that Constipation, or non-action of the bowels, causes more deaths than all other diseases combined. Constipation inflames the kidneys, ruins digestion, is the foundation of Rheumatism, poisons the blood, causes Headaches, Neuralgia, Nervousness and Insomnia.

Constipation is caused by a weak or sluggish liver. Bile, the only purgative of the body, is secreted by the liver, which in turn should pour out into the intestines sufficient bile to move the bowels. Unless the liver is active, there cannot be enough bile to move the bowels regularly, and Constipation is the result.

"Fruit-a-lives", the famous fruit medicine, will always cure Constipation because it acts directly on the liver—relieves the congestion—increases the quantity of bile—and strengthens the bowel muscles.

LINER'S OFFICERS ALL ARRESTED

Held in Heavy Bail on Charge of Smuggling Aliens into United States.

New York, Feb. 25.—Federal officers swept aboard a trans-Atlantic liner when she made her pier this afternoon, and arrested every man in authority from the captain down.

The steanship is the Athina, of the Hellenic Trans-Atlantic Steamship Company, whose general agent here also, was placed under arrest. The government charges that the company has been smuggling in aliens for more than a year, some of them disguised as members of the crew, some of them hidden about the ship, in coal bunkers, and elsewhere, until there was no danger of search.

Nikolas A. Galanos, the agent, was released under \$20,000 bonds, and his confidential secretary in \$15,000. Captain Gekas Kolouras was released in \$10,000, as were his first officer, the chief engineer and Dr. Gerasimos Diakavatos, the ship's surgeon. Three other officers were held in \$10,000 bail each, and all the crew in \$5,000 each. In all, the government required \$195,000 bail. Judge Chatfield set the trial for March 1.

The penalty for conspiracy is \$10,000 and two years imprisonment, either or both, and for violating section 8 of the immigration laws, \$5,000 and two years, either or both.

FOR IMPERIAL CONFERENCE.

Canada Has No Special Proposals, But others Have Much to Discuss.

London government has issued the correspondence with overseas dominions setting out the subjects for discussion at the Imperial Conference.

New Zealand suggests an imperial council with representatives from all parts of the empire, a secretary of imperial affairs instead of colonial secretary, separate departments for the dominions and crown colonies, high commissioners raised to the status of ambassadors.

South Africa proposes self-governing dominions, matters to be placed directly under the premier.

Australia raises the question of the declaration of London, regretting that the colonies were not consulted, opposing the provisions affecting food supply and destruction of neutral vessels.

Mr. Harcourt, colonial secretary, hopes the conference will meet fifteen times between May 22 and the coronation on June 22nd.

The all-red route and state cable with a line across Canada are also subjects for discussion.

Newfoundland proposes a line of steamers subsidized by Great Britain, Canada and Newfoundland to link up the three.

Another topic is an imperial court of appeal, New Zealand and Australia suggesting overseas representation in it.

The cabinet raises the British Indian issue, labor exchange, uniform design for stamps, expulsion of undesirable aliens.

Canada has no special proposals, but would welcome suggestions as to uniform naturalization law.

The Chronicle, commenting on the absence of Canadian proposals for the conference programme, says Canada is well pleased with the empire as it finds it.

The Times says there are good reasons for this cautious attitude. Canada is extremely busy with her own affairs. The country is developing more rapidly than the most sanguine dared to hope a few years ago. All omens being propitious, it naturally produces a comparative lack of interest in external imperial affairs.

CLERGYMAN TO STAND TRIAL

Moncton, Feb. 24.—The preliminary hearing in the case of Rev. Z. B. Grass, charged with setting fire to his premises in Robinson Street, on Sunday evening last, was concluded in the Police Court before Magistrate Kay today. He was committed to stand trial at the next sitting of the Supreme Court in Dorchester on Thursday next.

J. Sheran, counsel for the accused, brought up the question of bail as His Honor stated that under the Act, he could deal with the matter to issue bonds.

GAME PROTECTION

St. John, Feb. 25.—A delegation from the executive of the N. B. Forest, Fish and Game Association waited on Premier Hays this morning and consulted with him regarding the proposed reorganization of the association. Mr. Hays promised cooperation in securing the legislation necessary for incorporation. Suggestions for extending the association's work were also discussed, among them being a plan for the employment of a secretary as a good salary, to give all his time to the work, with a couple of detectives working under him to detect violations of the law.

OLD AGE PENSIONS

Make Great Improvement In Conditions of Britain's Poor.

The original British old age pension bill, provides a weekly pension of 5 shillings (\$12) for all persons over seventy years of age whose income is 21 pounds or less per year. A sliding scale, based on the income of the pensioner, provides for smaller pensions of 4, 3, 2 and 1 shilling a week. An income exceeding 31 pounds, 10 shillings disqualifies one from receiving a pension.

"Lunatics, criminals, inebriates and wastrels" are excluded from pensions, as were also the recipients of poor relief originally.

Payments began two years ago. They are made weekly through the postoffice officials in each place.

Do You Realize the Advantages of Concrete?

THE rising price of lumber has compelled the farmer to look for a suitable substitute.

Concrete, because of its cheapness, durability and the readiness with which it can be used for every farm purpose, has proven itself to be cheaper than lumber and far more durable.

"What the Farmer Can Do With Concrete"

Shows the farmer how he can do his own work without the aid of skilled mechanics. It demonstrates the economy of concrete construction as compared with lumber, brick or stone.

WILL KILL U. S. INDUSTRY

International Paper Co. Says American Skilled Labor and Plants Will Come to Canada.

International Paper Company has protested against the ratification of the reciprocity agreement with Canada in a memorial addressed to the congress saying, in part, as follows:

If the proposal regarding paper and pulp in the McCall bill, covering the trade agreement are enacted into law, without question, it will, in the opinion of the company, eventually result in the almost complete annihilation of the paper industry of pulp wood. Here and there may be a mill with exceptional advantages, but there is no doubt that, in the main, the industry will go over into Canada, and that a very large number of skilled laborers will have to leave this country to find employment.

We regard that so-called "trade" as being a very costly one for the United States, in so far as it relates to our industry. It is proposed to let in free paper and pulp in exchange for the privilege of getting Canadian wood, but when our mills have gone out of existence in this country, and no longer require Canadian wood, Canada will have the industry and we will have nothing.

With a moderate duty on paper, the industry, as it exists today, can perfectly well be preserved in this country—and it is, in our opinion, a blunder to open our markets to Canadian competition for the sake of getting these restrictions on wood removed. No doubt, in any event, much of the future growth will be in Canada, but that is no reason why the existing industry should be blotted out.
