BANKERS WIN LOCAL LEAGUE OPENER

On Saturday evening in the local skating rink the Bankers and High School hockey squads unrolled the season's local league series, the former winning by a 4-2 score. The game was fast and clean—so far as intentional rough play is concerned. Although the twine was not touched during the fast second period the Bankers had an advantage in weight and owing to this many accidental bumps and falls looked like offenses and made the match a difficult one to referee. However, Pe'e McLean, of the regular league team handled the whistle to the satisfaction of both sides.

The game got away to a lively start, the Bankers opening the scoring when R. Henry at centre sagged the twine on a snappy combination play. A few minutes later Hadley on the defence line made a spectacular end to end rush and shot the rubber home. This closed the scoring for this period as the High School boys were getting warmed up and consequently exhibiting a better brand of hockey than at the beginning of the game.

The second session was fast and abundant in fast skating and some very neat stick-handling. Had it not been for Bourgoin in the Bankers

goal the School boys would likely have tied the score but their constant bombardment of the Bankers net had no effect on Bourgoin who played a star game throughout.

In the last period both teams exhibited some admirable speed. Duff playing right wing for the H. S. noticed the first goal for his team and Ferguson on the School's defence line tucked in another from a scrum in front of the Bankers' goal. McLean on the Bankers left wing scored the winning goal on a fast individual play and salvaged the fourth from a scramble near the H. S. net.

The contest was an interesting one and for minor teams was distinctly marked by good stumpy playing. The Bankers give promise of taking an important place in the local league while the High School although lighter in weight, have both speed and tenacity and there is no saying just how many points they may capture before the series is completed.

The lineup follows:—
 Bankers: Bourgoin, Goal; Fraser, Defence; Hadley, L. wing; McBeth, R. wing; R. Henry, Centre; M. Metzer, R. wing; W. Currie, Spares.
 High School: Jamieson, Goal; Ferguson, Defence; Stewart, L. wing; Stevens, R. wing; Martin, Centre; Duff, R. wing; G. Fraser, Spares.

LONDON COUPLE ARE DELIGHTED

His Wife's Two Years of Trouble Is Now Ended, Says Frank Westlake.

"Tallac has made all the difference in the world in my wife's health and we are both delighted," declared Frank Westlake, valued employee of the Public Works Department of London, Ont., residing at 40 Langarth St. "About two years ago my wife underwent an operation that left her badly run-down and she simply couldn't get back her strength. Her appetite left her and she could hardly eat enough to keep going. The hardest exertion would tire her completely, and her housework was an awful burden. She would lie awake hours at night, and morning found her just as tired as when she went to bed. She suffered terrible splitting headaches, her nerves were on edge and she got very little pleasure out of life. But three weeks ago Tallac simply put her on her feet again. She can do her housework easily now, the headaches have gone, she sleeps soundly and her appetite is a joy to behold. I can't find words to express my gratitude."

Tallac is for sale by all good druggists.

Over 35-million bottles sold.

CALDWELL.—In loving memory of our dear daughter and sister Emma L. Caldwell, who passed away January 30th, 1921.

A dear, dear girl was here with us, So gentle, smiling and sincere But God must have needed her And so He took her from us down here.

But He took her only in body, For in spirit we feel her near, To soothe, to charm, to ease our loneliness, Keep smiling—she must not see our tears.

NOTE AND COMMENT.

Herbert Hoover leaves no room for doubt as to his position when, in this little book on "American Individualism," he declares "no one who buys 'boodles' whiskey can complain of gunmen and hoodlums." He has also given utterance to an indisputable truth.

With forty million different other things to hope for, some people still insist on hoping that the ex-kaiser's wife will beat him.

The superintendent of penitentiaries says that these prisoners could be made to pay for themselves if the government provided useful work for the inmates to do. His suggestion is surely worthy of serious consideration.

"Oh, no," said the boy. "I just want to find out how many have been lost today. Yours makes fifty-five."
