unsuccessful attempt to find a cur-rent across the Arctic from Alaska to Siberia.

The New Zealand House has pass-ed the bill whereby New Zealand ac-cepts the mandate for Samoa. Ramela, a ten-year-old Arab, won the 300-mile race for United States cavalry horses. The horses in the race lost from forty to seventy pounds in the contest.

## **A Coated Tongue?** What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually

signs that the liver is out of order. PROF. HEM-METER says: "The liver is an organ secondary in importance only to the beart." manufacture poisons within our own bodies

which are as deadly as a snake's venom The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

We can

A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of Mayapple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

proaches to Petrograd failed to withstand the first blow and danger has again come to Petrograd. The British and French radio stations an-nounce with joy the fact of our failures on the road to Petrograd. The Stock Exchange and the press of the whole world are sharing the joy and predicting the speedy fall of Petrograd. But they are wrong this time. Petrograd will not fall. It will stand. We shall not surren-der Petrograd.

"For the defence of the first town of the proletarian revolution, sufficient strength will be found in the peasant and the workers of the land. Yudenitch's successes are those of a cavalry raid. Troops are being sent to the assistance of Petrograd, and the Petrograd workers, who rose first of all. We must break the skulls of Yudenitch's bands and the Anglo-French Imperialists." An account of the rapid success gained by the army of Gen. Denikine over the Bolsboriki in Central Pus-

over the Bolsheviki in Central Russia was given in an official communi-que issued from the War Office, A Bolshevik offensive campaign on an extensive scale against Tsaritsyn, on the Lower Volga, was opened, it states, on October 11. Operations states, on October 11. Operations were conducted on both banks of the Volga, and also to the westward of the Volga as far as the Don River. During two days, it is stated, the Bolsheviki gained considerable ground. Then volunteers under Generals Waranged and Ulaggai de-livered a sharp counter-attack, recov-ering all the ground which had been lost and inflicting severe losses upon lost and inflicting severe losses upon the Bolsheviki. Further to the west the Cossack forces crossed the Don the Cossack forces crossed the Don on a wide front and cleared the tri-angle of ground between Novo-Gri-gorievskaya, 55 miles northwest of Tsaritsyn, and Ust Medvieditsa, 100 miles northwest of Tsaritsyn, taking 1,200 prisoners, with many guns. Still further westward, the Cos-sacks occupied the line of the Kohper River, one of the northern tributaries of the Don, from its junction with the Don to Tishana-kaya, taking the towns of Kalatch and Pavlovsk, which lie westward of the Kohper between that river and Voronezh. Prisoners to the number of 2,150, including a com-plete field battalion, were taken, and another Red regiment was destroyed. Large numbers of prisoners were also taken at Orel and Chenigoff, although the exact number has not yet been on a wide front and cleared the trithe exact number has not yet been published. ....

while the war was on.

Both labor and materials are available once more and a great deal of government build-ing, state work and factory construction already is under way. Measure the amount of satisfac-tion and service your new home would bring and you'll want to get started at once.

The sensible thing then is to BUILD NOW and we have all the material to build the sensible way—framing, siding, trim, shingles, doors and Beaver Board—the manufactured lumber, knotless and crackless—for the walls and ceilings. Speak to us about it today.
