THE ANDROCK PICNIC

Weather Delightful—Keenly Con# 10 tested Program of Sports—Good Eats—Everybody Happy.

Once again Time turned its wheels to the last Saturday, in June and brought to attention every member of Andrews Wire Works. No better day could have been chosen for the Androck picnic for even before the Androck picnic for even before the picnickers were astir the sun, endeavoring to do his bit to add to their comfort, was brightening the day with his warm cheering beams.

Long before seven o'clock cars seemed to be busy everywhere all bearing for the factory where the members of the Works, their wives and children, had all assembled. About seven thirty the procession.

and children, had all assembled.
About seven thirty the procession,
consisting of twenty touring cars. filled to capacity, and two well-laden auto trucks bearing the commissariat started on their way to the beautiful spot now known as "Crinnian's spot now known as "Crinnian's Grove." The drive itself gave everyone pleasure for with beautiful sunshine, a mixed choir of feathered friends, good roads and new mown hay what is so rare as a drive in June?

When everyone had reached destination no time was lost in beginning, perhaps the biggest event of A quiet June wedding was solemnized at St. James' church manse, Forest, Saturday afternoon, June 17, when two of Forest's popular young was placed on the young men that being left handed pitching and batt-ing. Notwithstanding the in and out curves, the grounders, sky highers, low liners, etc., of the left handers the young ladies managed to hold them well in check. With the encouraging cheers of the spectators and the dejected expression on the boys' faces the girls took fresh courage, put forth their very best efforts and gradually brought the score higher and higher until, when the last innings ended, the score-keeper thought best not to announce the score but declared it quite enough in favor of the young ladies to make them eligible for President Washburn's prize of a large box of choc-olates—one for each of the winning nine. One cannot pass by the report of the ball game without mentioning the excellent services of the umpire, Freddie Just. His work was greatly appreciated, and his just judgment added much to the efforts of the lady

players. The dinner committee showed much thoughtfulness and tact in serving dinner just as the bell tolled twelve. No lunch could have been enjoyed more for with the long drive, fresh air and exercise everyone did his share towards depleting the well laden tables.

Lake Huron proved the chief at-traction in the afternoon and with bathing; boating, reading and lounging on the beach everyone seemed to occupy their time in their own favorite way. At six o'clock the well

Immediately after tea a program of sports was introduced with a place for everyone from the youngest child to the oldest married man, and prizes varying from balls and base-ball bats to chocolates and cigars awarded the winners. The ladies of the company are becoming real far-merettes, competent in using a wheelbarrow, as was evidenced in the keenly contested Wheelbarrow race.

After the sports were ended the sun completed his day by giving the sun completed his day by giving the picnickers one of the most beautiful sunsets, and during this radiancy the picnickers started for home, each with a feeling of satisfaction that the day was all they had anticipated and with a feeling of pride that they could count themselves as one of the Watford "Androck" Wire Workers.

ARELESSNESS with matches, cigarette butts, cigar ends, pipe ashes, camp fires, fly smudges, railway locomotives, slash-burning operations-human carelessness of some kind accounts for 97% of the forest fires which every year add further devastation to the northern areas of this province.

DON'T

DON'T take any chances with fire in Ontario's forests. DON'T throw away cigar-ette or cigar butts, pipe "heels" or burnt matches until you are dead sure they are out. they are out.

DON'T neglect to drown out your fire with lots of water.
DON'T build your camp fire

DNT build your camp fire against a rotten log or stump; nor on windy points; nor near moss patches; nor at the base of a tree.

Build it in a former fire place, or on a flat rock, or on a spot cleared down to the true soil below, or by the edge of the water.

DNT forget that the unner. the edge of the water.

DON'T forget that the upper
layer of ground in the
forest consists of partially rotted wood which will
burn. Here are typical cases picked at random from last year's Fire Rangers' reports:

The rangers on the Ombabika to Fort Hope canoe route in the far north on July 4th found an area 10 miles long by 4 miles wide which had been swept by fire since their previous trip. A camp fire left on a portage was the cause.

A prospector on the Montreal River started a fire on July 7th which burned over 4,800 acres in Baden Township, destroying 1,000,000 feet of pine and 9,000 cords of pulpwood, and which required attention for

A party of fishermen camped on Porcupine Lake, Burton Township, Parry Sound, were responsible for a fire on July 10th, which burned over 25,000 acres and 2,000,000 feet of timber.

Indians smoking moose meat started a fire on June 26th, which ran through 1,700 acres of young jack

Careless trappers on May 7th caused a fire in Head Township, which burned over 2,280 acres, half of it young white pine. The best way to fight forest fires is to prevent them.
