

NO BLACK BEES.

We thought nearly every one knew that we did not have anything in the way of black bees in our yards nor are there any within miles of us. Everyone who keeps bees in this section of the country has principally Italians. We mention this as one or two have written us asking whether the queens which they might expect from \$1 to \$2 would be black or otherwise.

LABELS FOR GLASS BOTTLES.

We have just lately received from our lithographers samples of varnished labels suitable for the Muth and similar honey bottles. For beauty of design and elegance of finish they are equal to anything that has as yet been gotten up for sections or honey-tins, and our labels for these have been praised by producers and consumers alike. Anybody who has had any experience whatever in creating a market for honey, knows that it must be put up in shape to draw the attention of the purchasing public. These labels are a great assistance, and the price will be low. We cannot furnish samples for a few weeks yet, at least not very many. As long as they last, however, we will send them to those who ask for them by postal or otherwise. We have arranged them by numbers, and in ordering them do so in that way. Nos. 1 and 2 fit the 2 lb. glass bottles; No. 3, the 1 lb. and No. 4 the $\frac{1}{2}$ lb. bottle. The price of Nos. 1 and 2 are \$4.00 per thousand; No. 3, \$3.50 and No. 4, \$3.00. Printing, extra per 100, 30c.; per 1,000, \$1.25. On Nos. 1, 2, and 3 there is a space left for the name and address, but not on No. 4.

HOW ADVERTISING PAYS.

Please take my advertisement out of the C. B. JOURNAL, as all my bees are sold that I have to spare. I have sold 104 colonies and enquiries coming in every day yet.
Angus, Ont., June, 16th. Mrs. A. McKechnie.
